JEKYLL-HYDE CAREER OF WHITE LAID BARE.

No Mercy Shown to Memory of the Slain New York Architect.

Evelyn Nesbit Thaw, Second Day on the Witness Stand, Goes Into Further Alleged Details of Dead Man's Secret Sins and Alter Ego—Detectives Seek Chorus Girls to Controvert Her Testimony.

EVELYN NESBIT THAW yesterday resumed the witness stand in defense of her husband, on trial for the murder of Stanford White. She was much more composed than on the day preceding.

Evelyn Thaw told of White coming to visit her after her return from Europe. She declared he tried to kiss her. The architect, she said, told her Harry Thaw was a morphine fiend, and a "bad man," with whom she should have nothing to do.

The wife also declared yesterday that White took her to the office of Attorney Hummel to make complaint against the Pittsburgh millionaire. The latter, she declared, stated that she should sue Thaw for breach of promise, to procure "advertising."

Thaw, she said, declared Hummel was a blackmailer.

New York detectives yesterday searched through the tenderloin in quest of chorus girl friends of Evelyn Thaw, by whom, it is alleged, Dist.-Atty. Jerome expects to controvert Evelyn's testimony.

HER INNOCENCE A LEGAL RUSE?

BY SAMUEL H. ADAMS.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, Feb. 8.—[Exclusive Dispatch.] Across the devious paths which they travel who "play at dice with the devil" in New York's underworld, Evelyn Nesbit Thaw threw the baleful light of her experiences when she resumed the stand today in the trial of her husband for the murder of Stanford White.

Illicit love, with the evils that follow in its wake, blackmail, perjury, slander, the procurement of false testimony, extortion and intimidation, sprouted like poisonous weeds along the way of her narrative; while now and again, names, revealed or suggested, were illuminated by some swift turn or twist of the story's searchlight.

Reputations shriveled and withered into ashes under that glare.

Again there was that grotesque effect of unreality in the continuation of so foul a narrative with so childishly innocent an aspect and bearing. Added to it was a further unreality not felt on the previous day. The girl wife's story was almost too simple, too innocent in parts; there were repetitions of that effective touch of simplicity which may have been unaffected, but as they recurred, they suggested at least the suspicion of consummate literary building up of a character of innocence, inexperienced girlhood. A master craftsman of the art of writing could hardly have done better than these subtle sidelights of young Mrs. Thaw—her first day on the stand; the country girl's desire to "see the Waldorf," the taste for chocolate eucliairs, the ice cream and the soda water, the pity and grief over the suffering cat.

CREDENCE STRAINED?

Very natural it all seemed in her "I remember hoping" or "wishing" or "waiting" parenthesis. But today credence strained a bit at the insistence upon this theme of innocence.

Naivette of such surpassing quality as part of her testimony implied would be almost superhuman in a child of ten years old. Her innocence, however, is surpassed by that of Lawyer Delmas, who gravely informed the court today that he was at a loss to comprehend the meaning of "the tenderloin" as employed by his learned friend, the District Attorney, but that he "inferred it to designate some disreputable portion of your city."

This is the first intimation on record, that the Yale Club, where Delmas has been staying for some weeks, is either a monastery or a deaf-mute asylum.

One important point was brought out, that the defense cannot claim any considerable provocation for the killing, in the line of Stanford White's persecution of Evelyn Nesbit after her marriage to Thaw.

She testified explicitly that the extent of White's annoyance of her was comprised in two occasions, once upon which White had uttered an audible exclamation of surprise at meeting her, and another upon which he followed her, as she supposed, though without accosting her. Therefore any claim that Thaw was protecting his wife in slaying White has little force.

GIRL A PARADOX.

Slighter, frailer, younger even, than on the previous day, seemed Evelyn Thaw, when she took the stand. Her unfailing self-command was shown by her studious and conscious care to avoid all names in her narrative except where she was bidden to give them. Not the least uncanny feature of her appearance is the contradiction between the weak, classically fair face and this superwomanly self-control.

While Delmas read the letters with which the day opened—those singularly expressive letters of Thaw—she sat with her eyes gazing far away from under her straight, beautifully-arched eyebrows.

Sometimes she leaned slightly forward, as some particular point attracted her attention, and bent her level regard upon the reader. In no wise did she exhibit the slightest emotion.

Harry Thaw's protestations of affection and respect, re-read under the sinister circumstances of today, left her as unmoved as his denunciation of her for a scandalmonger, or his cynical hypothesis, beginning "If I wish Evelyn to be my mistress" and never completed.

Through it all, she sat intrenched behind a dreamy reserve, as if he had, by some mystic esoteric process, withdrawn her soul into an impenetrable inner recess.

DEFAMATION DENOUNCED.

Dist.-Atty. Jerome in an impassioned appeal during which his voice faltered with emotion, checked at least for the day, the outpouring of fetid scandal that threatened to submerge the true issue in Harry Thaw's trial for murder in the first degree. Evelyn Nesbit Thaw, having blasoned to the world the story of her own alleged wrongs, proceeded, under the skillful guidance of her counsel, to retail in the guise of evidence the baleful stories that had come to her ears of Stanford White's alleged treatment of other young girls. All this unsavory potage of tenderloin gossip it was planned to introduce just as the chorus-girl-wife had introduced her own startling narrative under the plea that she had "told these things to Harry Thaw" and that they doubtless had a most potent influence in goading his unbalanced mind to a deed of violence.

Jerome's plea succeeded. Delmas offered to substantiate by documentary evidence the assertion that Evelyn had told Harry Thaw these tales of the wrongs of other girls. In his effort to do so he withdrew the girl wife from the stand long enough to try to place in evidence various documents, among them a will executed by Thaw in favor of his bride on the eve of their wedding in 1905.

JEROME GETS TRANSCRIPT.

EVIDENCE OF ALIENIST.

[BY THE ASSOCIATED PRESS—P.M.]

NEWARK (N. J.) Feb. 8.—A representative of Dist.-Atty. Jerome of New York came to the Courthouse today and secured a transcript of the evidence of Dr. Evans of the Morris Plains Insane Asylum, which was given at the trial of Dr. John H. Beynon, who was convicted six years ago of shooting George E. Campbell. The defense claimed Beynon was insane when he committed the act.

THAW NEWS IS NOT MAILABLE.

[BY DIRECT WIRE TO THE TIMES.]

OTTAWA (Ont.) Feb. 8.—[Exclusive Dispatch.] The Postmaster-General announced in the House tonight that newspapers publishing the details of the Thaw trial would be denied transmission through the Canadian mails.

This statement was evoked by a complaint from Dr. Stocton, member for St. John, N. B., of the publication in a local newspaper of Mrs. Thaw's evidence.

MAYOR SCHMITZ AND PARTY SNAPPED EN ROUTE TO WASHINGTON.

SCHMITZ AND PARTY COURT GAY BACCHUS.

They Make Constant Pilgrimages en Masse to Well-Known Bar, Then Leader Says He Will Ask President About "Bassoon Mayor."

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, Feb. 8.—[Exclusive Dispatch.] Mayor Schmitz of San Francisco arrived in Washington this afternoon and is entertaining company in a fine room in the New Willard Hotel. His company consists of newspaper correspondents and members of the California delegation.

Senators Perkins and Flint did not call upon him.

Mayor Schmitz's party consisted of himself, L. F. Walsh, president of the Board of Education of San Francisco, A. Roncovieri, superintendent of schools, A. Altman, Thomas F. Boyle and David Oliver, Jr., members of the Board of Education, T. J. Williams, Assistant City Attorney, and L. F. Leffingwell, secretary of the Board of Education. After the members of the party had been assigned to their rooms in the New Willard they were escorted by the Californians to Shoomaker's bar, where they had whisky. This is a popular saloon where Webster and a lot of famous men used to drink.

They returned to the Willard, but ten minutes later returned to the Shoomaker tavern and had a couple more rounds.

Then Mayor Schmitz and his party had dinner and the Mayor notified the clerk that he was on duty in room No. 133 and prepared to meet all newspaper correspondents. The room was soon filled.

There was a man from each of the press associations, also representatives of local papers and California papers.

Schmitz's first act was to repudiate a story printed by some papers this morning, in which he was quoted as saying, "not that I love 'Frisco less, but my country more." "I was born in San Francisco and am for her first, last and always, but still above all, I am an American. I would recede from my position rather than see it become injurious to the country.

"We have prepared no 'case' because we don't know exactly what is the purport of our mission. The President did not say what the nature of the hearing would be, further than that we were to have a discussion on the Japanese matter.

"I supppose it will be discussed before the President's Cabinet. We probably can give a good deal of information concerning the demands of the people of San Francisco, that has not yet reached the President.

"I cannot say that the matter will reach an entirely satisfactory settlement during our visit but we hope it will. The law, as a matter of fact, is nothing new, but the enforcement of it seems to have created an agitation.

"The law to segregate Mongolians in schools was made in 1871, but the Japanese claim they are not Mongolians."

Mayor Schmitz says tonight that he did not see any newspaper men in Chicago. When questioned by The Times correspondent he did admit that he had talked with some persons, but did not think they were newspaper correspondents. "You see," said Schmitz, "I cannot afford to talk about this matter. If I had my mind already made up, it would be no use for me to come here. The President has sent for me and members of the Board of Education and others and we must be like a jury, undecided."

"Are you a musician?" The Times man asked.

"No, I do not know much about music," the Mayor responded. "Well then why should the President refer to you as the "bassoon Mayor?" was the next query.

"I am going to ask the President about that tomorrow" responded the Mayor.

No arrangements have been made for the reception of the California delegation. The President informed the Californians in the House and Senate that he would be glad to meet the Mayor and his party at any time. It is quite probable that the conference will take place about three o'clock tomorrow afternoon.

ASK EXCLUSION TO BE ASSURED.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, Feb. 8. —[Exclusive Dispatch]. Great interest was manifested by Mayor Schmitz and members of the School Board as to the attitude of the Senators and Representatives on the question of Japanese exclusion. One of the Board said:

"Suppose the President and Secretary Root can give us assurance that Japan is ready to enter into a treaty excluding Japanese laborers from the United States, if we will receive Japanese children in our schools. Suppose we agree to this, for the sake of obtaining exclusion. Will the Senate ratify such a treaty and will Congress enact a law carrying the treaty into effect? How will the treaty define 'laborers?'

"It is evident that Chinese exclusion will not serve as a precedent for Japanese exclusion. We cannot expect that Japan will consent to the exclusion of all her people except certain exempt classes,, such as merchants, students, teachers and travellers. The most we can hope for is the exclusion of laborers.

"Now, Chinese laborers are rarely artisans, while Japanese laborers may be highly skilled. We Californians want all the Japanese laborers excluded, whether skilled or unskilled. If we can get some assurances of that kind, the chances are that the school question would be settled in a jiffy. But we want to see something definite in that line before we recede.

"So far as legal rights are concerned we are firmly of the belief that the segregation of Oriental school children is a constitutional right which we can exercise if we choose. We concede that the treaty with Japan gives Japanese in California all the rights pertaining to residence and travel which are enjoyed by other aliens. We concede that right of residence includes the right to send children to school. Now, if we had attempted to exclude the Japanese from school, as the President declared in his message,

EXPECT FIFTY MILLIONS.

General Education Board Thinks That Rockefeller's Gift Is Only a Starter.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, Feb. 8.—The fund of the General Education Board, which increased to $43,000,000 by the amazing gift of $32,000,000 by John D. Rockefeller in a lump sum yesterday, is to be raised to $50,000,000, according to the expectations of members of the board. Additional donations are expected from other rich men friends of Rockefeller, who are interested with him in his charitable enterprises.

John D. Rockefeller's gifts to education havce now reached the great total of $79,000,000, distributed as follows:

Chicago University, $21,000,000.
Rush Medical College, $6,000,000.
Other colleges (estimated.) $10,000,000.
General educational board, original gifts, $18,000,000.
General education board, new gift, $32,000,000.

EARTHQUAKES ARE DUE TODAY.

IF CONFORMING TO SCHEDULE, WILL VISIT ILLINOIS.

Temblors That Once Paid Respect to Sucker State Are Preparing to Come Back—When Trip Has Been Made to England They Will Call on Ireland—So Says Meteorologist.

[BY DIRECT WIRE TO THE TIMES.]

LONDON, Feb. 8.—[Exclusive Dispatch]. Earthquakes are to be felt in Illinois tomorrow, if a prediction made by Hugh Clements, meteorologist, is fulfilled. They are to be repetitions of the shocks felt in Illinois and New Hampshire February 4th, 1883, he says.

Clements' predictions are based upon calculations of the relative position of the moon and the earth at a certain time. Their combined attraction so upsets the earth that the shocks follow. The effect is exactly the same as that produced on the seas when the moon causes the tides.

Kansas is to be visited by a blizzard February 22, the meteorologist says. This will be a repetition of that which occurred October 22.

England is to be visited by earth quakes tonight between 9 and 10 o'clock, is another prediction. He places a proviso on this prophecy, however, if large air caverns or channels of water in the earth, interfere with the progress of the shock, it will not be felt.

This little earthquake, he says, will skip over to Ireland, stopping momentarily at Belfast, and then jump to Ontario and Maine, reaching the American Coast about 10 o'clock.

SENDS BRIDLE TO GIRL.

OMAHA (Neb.) Feb. 8.—[Exclusive Dispatch.] President Roosevelt today sent an elegant riding bridle to Miss Lucile Mulhall, who is appearing in a western vaudeville act on the Orpheum circuit. The President is a friend of Miss Mulhall, and of her father, and has visited the latter several times on his Oklahoma ranch. The bridle is the best that money can buy, and has silver trimmings. It was made to the order of the President especially for Miss Mulhall.

Masuji Miyakawa
Japanese Lawyer.

WINS WAGER, LOSES LIFE.

Youth Stands on Head for Twenty Minutes and Dies.

[BY DIRECT WIRE TO THE TIMES.]

ST. JOSEPH (MO.) Feb. 8.—[Exclusive Dispatch.] Harry Stillson, an athletic young man who recently came to this city from Atchison, Kansas, made a wager yesterday that he could stand upon his head for a period of twenty minutes, most of the time without the aid or support of his hands. The feat was successfully performed. Today the wager cost him his life.

This morning Stilson became unconscious and the efforts of some of the best physicians in the city were unable to relieve the congestion of his brain, the result of the severe physical exertion.

EXCLUDES NEGRO SAILORS.

RIO DE JANEIRO, Feb. 8.—The Brazilian government has decided to avoid possible disagreeable incidents by excluding negro soldiers from the Brazilian squadron which will visit the United States. The opposition newspapers attack the government for this.

FATAL EXPLOSION ON FRENCH TORPEDO BOAT.

[BY THE ASSOCIATED PRESS—P.M.]

DORENTE (Fance.) Feb. 8.—As a result of an explosion on board torpedo boat No. 339, of the French navy today, nine are dead and two are injured.

Torpedo boat No. 339 was launched but a short time ago, and at the time of the accident she was undergoing, prior to being placed in commission, her full-power steam trial in the roadstead.

A complete crew was on board at the time. The trial was successful, but as the boat was returning to her anchorage a safety tube forming part of the evaporation apparatus burst, and a mass of flame was forced into the stoke-hole where the engineer, a quartermaster and nine stokers were at work.

The engineer and eight of the stokers were instantly burned to death. Their bodies were practically reduced to cinders. The other stoker was severely injured.

The reason for the accident is that the automatic doors that should have closed to prevent the return of the flames to the stoke-hole did not work.

WHITE'S LIFE BARED.

(Continued from First Page.)

trial, have taken for lease for a term of years a large suite of offices in the United States Realty building, now in course of construction at Broadway and Cedar street.

Mr. McPike, in confirming the story of the lease, said:

"Yes, we have decided to remain in New York, and will add to our already large library a complete set of eastern reports."

Delmas's fee in the Thaw case, it has been stated, is one of the largest ever paid in a criminal case in the State of New York.

TELLS OF TALES TOLD OF THAW.

LAWYER ABE HUMMEL TANGLED IN THE SCANDAL.

Evelyn Declares Architect Had Pretended Drastic Measures Were Necessary to Protect Her from "That Pittsburgher" — Defendant's Wife Ruled Out for Interlineations.

[BY THE ASSOCIATED PRESS—P.M.]

NEW YORK, Feb. 8.—Evelyn Nesbit Thaw again, today, was the central figure at her husband's trial. She was still on the stand—her direct examination unfinished—when the usual week end adjournment until Monday morning was taken.

Picking up the threads of her life's story where she had dropped them the evening before, the girl wife of the defendant—always, she declared, telling her story just as she had related it to Harry Thaw from time to time—brought the narrative down to her wedding in Pittsburgh, on April 4, 1905, and their return to New York following a honeymoon trip in the West. She declared she had heard White call to her on the street, once after this, and that on another occasion when she passed him in a cab she noticed his cab turn around and follow her in the direction of a doctor's office where she was going to have her throat treated.

Mrs. Thaw had taken up the story at the time of her return from Europe in October, 1906, following her refusal of Thaw's offer of marriage on the ground which she related yesterday.

On Monday she may be called upon to finish the relation of the events which, it is claimed by the defense, brought on the explosive impulse in the diseased brain of the defendant and caused the killing of Stanford White.

There was another great crowd in the courtroom today, every available bit of space being occupied. The dramatic thrills of the day before were not there, however. The day began with a continuance of the reading of the letters from Harry Thaw to Attorney Longfellow, written after Evelyn Nesbit's revelations to her suitor in Paris. There were others, too, which Thaw had sent the attorney to deliver to Miss Nesbit, who at the time would not see him.

Mrs. Thaw followed these with a relation of her experiences with Stanford White and Abraham Hummel concerning the alleged affidavit which she made, charging Harry Thaw with having taken her from her mother against her will, and with gross cruelty.

Mrs. Thaw told how she had been induced to answer some questions about herself and Thaw at the time, and had been told the stories about his "cruelties to girls." Stanford White had told her, she declared, that it was necessary to take drastic measures to protect her from such a person and that Harry Thaw must be kept out of New York.

She denied ever signing any papers in Hummel's office, but said she remembered having signed some papers for White in his office, the contents of which she did not know. When she got frightened about the papers and demanded to see them, she said, White took her to Hummel's office, and there they burned a paper which had her name at the bottom on it. She was not allowed to see what the paper contained before it was destroyed.

Mrs. Thaw's testimony was made amusing at times by her interjections of the names which Harry Thaw had applied to the lawyer, and her repetition of White's agitated questions as to what she had told Hummel about him. She declared she had told the lawyer nothing.

"Well, Mr. White said to me, 'there is something wrong somewhere. He has just squeezed a thousand dollars out of me, and the Lord only knows how soon he will squeeze another.' I then remembered having told Mr. Hummel, when he threatened things about Mr. Thaw, that he had better be careful for Mr. Thaw knew a lot of terrible things about Stanford White."

The defense endeavored to get into evidence today the wills of Harry Thaw and Evelyn Nesbit Thaw, executed on the night of their wedding in Pittsburgh. There were so many interlineations, additions and erasures that Justice Fitzgerald held the documents were not admissable until the changes were proved. Delmas said he later would endeavor to prove this, as the wills and the interlineations and a codicil by Harry Thaw had to do with the proof tending to show the insanity of the defendant. It came out in the discussions of the wills that the name of Stanford White occurred in Thaw's testament.

Mrs. Thaw will go on with her direct examination Monday morning. Just what will be the nature of Dist.-Atty. Jerome's cross-examination, when he takes the witness, is mere conjecture. It is said he may try in some way to attack her credibility and probably her ability to remember other things as well as she has the stories she has declared she told Harry Thaw from time to time.

GERTRUDE GRANT,

a stage beauty and close friend of Stanford White, will be one of the most important witnesses at the Thaw trial. She is expected to tell sensational facts regarding the private life of the millionaire architect, and is relied upon by the defense to support evidence showing Thaw's crime was "justifiable homicide."

HE DENOUNCES DEFAMATION.

BUT THAW'S WIFES GOES ON WITH GRIM RECITAL.

Declares Husband Accused Her of Infidelity—How Actor Barrymore Made Love to Her in White's Studio—Tells of Instances When Architect Followed Her.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, Feb. 8.—While today's testimony lacked the personal quality which made yesterday's recital so dramatic, impelling, and pathetic, it served to clear away some of the doubts and inferences which remained from the incomplete details as to the full extent of the revelations she claims to have made to her husband.

There were repetitions, too, at the suggestion of counsel, and incidents which had not been gone over in the first years of Mrs. Thaw's acquaintance with Stanford White, were brought out in completion of the life story.

Dist.-Atty. Jerome, who, throughout, had silently listened to the young wife's statements, sent a thrill of excitement through the courtroom late in the day by vigorously protesting against "defamation of the dead."

"Is there no limit," he exclaimed, "to the aspersions that are to be cast upon this man? Your Honor well knows I cannot, under the law, controvert any statement this witness might make against the memory of Stanford White."

In the first bitterly sarcastic vein, Jerome spoke of this "tattle of the tenderloin," and declared the court had the right to limit such testimony, "until competent evidence has been adduced here to show that this man, is, or was, of unsound mind. We don't know whether this defendant ever was insane," he concluded.

The question which called out the vehement protest from the District Attorney was addressed to Thaw by Delmas, and its purport was whether or not Harry Thaw had at any time told her about "other girls who had met a fate similar to hers at the hands of that man."

"What man?" snapped Jerome.

"Stanford White," replied Delmas, with the coolness of voice and manner characteristic of him, and then he added, still in the same low tone, "Who else?"

Justice Fitzgerald held that the District Attorney's suggestion was a good one, and he thought the defense should lay a broader foundation to show insanity before proceeding along the lines suggested by Delmas's question.

"We will proceed to do this as soon as possible," announced Delmas.

Mrs. Thaw declared today that Stanford White, during the year which followed her experience in the room of the mirrored walls, repeatedly sought to have her visit him alone.

"I told Harry," she said, "that Mr. White had begged me, had pleaded and cried and scolded and done everything he could to make me come to see him alone. I refused, and he told me I was cruel and that I was cold as a fish and not a human being. I told Mr. White I did not care to trust him.

"After my return from Europe, I would not see Harry Thaw because of the dreadful things Mr. White and his friends told me about him," she declared.

Thaw accused her of improper relations with the architect.

"I told him it was a lie, and I had not," she testified, with an emphatic show of feeling.

The defense had Mrs. Thaw tell of her acquaintance with Jack Barrymore, the actor. Barrymore was in the courtroom one day during the early part of the trial, at the instance of the Distict Attorney, it was said. Delmas asked Mrs. Thaw today to tell what she had told Thaw of her acquaintance with the actor.

She said she had first met Barrymore at a party given by Stanford White the year following her introduction to the architect.

"I thought him very nice," she frankly said today, "and one day at Mr. White's studio, he said: 'Evelyn, will you marry me?' I said: 'I don't know.' He asked me a second time and again I said 'I don't know,' and everybody laughed. Mr. White told me I would be very foolish to marry Mr. Barrymore, and my mother said so, too, and we all quarreled, and the upshot of the whole thing was that Mr. White said I ought to be sent away to school—and I was, to New Jersey."

After leading the witness to tell, in chronological order, of the incidents of her wedding with Thaw in Pittsburgh, Delmas asked her if she had seen Stanford White after her return to New York from the honeymoon trip.

"I passed Stanford White one day on Fifth avenue. I was in a cab and he saw me and I heard him say: 'Evelyn,' just like that" (and Mrs. Thaw raised her voice as if to call some one.) "I went back to our hotel and told Harry, and he said: 'The dirty blackguard. He had no right to speak to you.' The next time I saw him I was driving to Dr. Delevan's office to have my throat treated. Stanford White was also in a cab. He just stared at me this time and stroked his mustache. I turned into Thirty-third street and as I alighted at the doctor's door I saw Stanford White coming. I rang the bell and a maid came to the door, and then I got so nervous and flustered I told her I would come back again, and ran down the steps, got into the cab and drove to the hotel, where I told Harry what had happened. He got very excited and bit his nails."

These were the only two instances, Mrs. Thaw said, where she told her husband that Stanford White had approached, or attempted to speak to her.

DETECTIVES AFTER THEM.

ARE SEEKING CHORUS GIRLS.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, Feb. 8.—[Exclusive Dispatch.] Nine county detectives are hunting in the tenderloin for chorus girls friends of Evelyn Thaw, hoping to disprove her testimony. Among those sought are Mazie Follette, Hattie Forsythe, Edna Chase, Paula Desmond and Anna Crane. Three of them were taken into custody today and are being detained in an uptown hotel.

BROTHER ENJOYS IT.

SISTER'S TALE AMUSES HIM.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, Feb. 8.—[Exclusive Dispatch.] Howard Nesbit, brother of Evelyn Nesbit Thaw, spent several hours this afternoon in securing admission to the courtroom for his friends, apparently taking great pleasure in doing so. With evident amusement, leaning back in a big arm chair in Asst. Dist.-Atty. Garvin's office, Nesbit read the story told in court by his sister.

ACTRESS DENIES STORY.

SAYS EVELYN TOLD UNTRUTH.

[BY DIRECT WIRE TO THE TIMES.]

MERIDIAN (Miss.) Feb. 8.—[Exclusive Dispatch.] Miss Edna Goodrich, leading woman with Nat Goodwin's company, denied today that she was the medium through which Evelyn Nesbit met Stanford White for the first time. Miss Goodrich said:

"Evelyn Nesbit and I were members of the same theatrical company at one time, and this was the only association I had with the girl. I was never a member of any social gathering that included Miss Nesbit. I knew Harry Thaw and Stanford White only through seeing them around the stage doors of theaters. It is not true, as Miss Nesbit testified on the witness stand yesterday, that I invited her out to dinner for the purpose of meeting Mr. White for the first time."

INVADES VENEZUELA.

Parades Lands and Begins Revolution to Wrest State from Senor Castro.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, Feb. 8.—[Exclusive Dispatch.] Judging by cipher cablegrams received today by Nicaner Bolet, local representative of Gen. Antonio Paredes, the long-planned insurrection of Paredes against President Castro of Venezuela has begun. A cable dispatch from the revolutionary agent at Port of Spain, Trinidad, contained one word, "asigne," which in cipher code means "Antonio has landed at Pedernales."

Paredes has 3000 rifles and 1,000,000 cartridges, and funds. The revolutionists also have two steamers to carry the fighting to sea if necessary. Preparations for the uprising were made in New York by the general himself. He sailed from here December 22 last. About a month ago, when he sought to start with sixty followers from Trinidad, the British authorities interfered with him.

HIS "BATH-TUB GIRL" TALKS.

[BY THE ASSOCIATED PRESS—P.M.]

PARIS, Feb. 8.—The newspapers of Paris are devoting much space to the proceedings of the Thaw trial in New York and as a result a number of persons are coming forward anxious to testify to Thaw's alleged escapades in Paris.

A woman from whom Thaw rented an apartment in this city has visited Consul-General Mason and recounted numerous alleged episodes of Thaw's stay. Another woman, who says she is an American, has informed the newspapers that she figured in the "bath-tub incident," to which reference was made by Evelyn Nesbit Thaw yesterday. This woman makes further allegations of maltreatment at the hands of Thaw and declares that he gave her $2000 to compensate her for the injuries she sustained.

PITH OF NEWS FROM THE MIDDLE WEST.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, Feb. 8.—[Exclusive Dispatch.] For the first time in many weeks the weather map of the United States could not boast of a zero temperature tonight. Although Chicago did not get beyond the freezing zone, the cold was tempered by sunshine, which had been lacking throughout a stormy week. The minimum temperature was 12 degs., the maximum was 32 degs.

Middle West temperatures:

	Max.	Min.
Alpena	30	16
Bismarck	38	16
Cairo	36	32
Cheyenne	58	40
Cincinnati	32	20
Cleveland	34	12
Concordia	58	26
Davenport	36	12
Denver	70	28
Des Moines	40	14
Devil's Lake	32	14
Dodge City	74	28
Dubuque	36	2
Duluth	34	8
Escanaba	32	10
Grand Rapids	36	14
Green Bay	30	6
Helena	56	26
Huron	40	14

Rapid City	56	32
St. Louis	42	24
St. Paul	32	13
Sault Ste. Marie	26	14
Springfield, Ill.	34	18

SHE USES WARM LANGUAGE.

Bitterly assailing the leaders of the French government as "worms," "wretches," and "devils," and denouncing their acts toward the Catholic people of France as a "hellish persecution," Fr. Thomas Ewing Sherman in an address at the Holy Family Church tonight, said that although the Church lies practically crushed in the coils of the government yet it is not dead and will continue to defy the Republic until it triumphs. He also charged Freemasonry as being back of the persecution of the Church.

READY FOR DIVORCE RUSH.

In preparation for the "summer rush" for divorces, Judge McEwen of the Superior Court today announced that hereafter his court would open on Saturdays at 9 o'clock in the morning instead of 9:30 or at 10 as at present. Saturday is divorce day.

This unique means of preventing a flood which threatens to overwhelm Cook county's legal facilities was made known today concurrent with a foreboding that the winter's "low ebb" of divorce cases soon will swell into high tide, passing the mark of any previous year.

DEMANDS "CHINESE OATH."

When Lee Sing, proprietor of a chop suey restaurant appeared in Judge Pickney's court today to prosecute a charge of robbery, the defendants demanded that he be administered the "Chinese oath." The Court refused this, the second demand for the oath in the history of the Chicago criminal Court. The first and only time the "Chinese oath" was ever permitted in the criminal court was before Judge Tuthill in 1893. A Chinaman was then on trial for murder.

He would not confess the crime until a white rooster was sacrificed in the chambers of the court and the warm blood dripped upon his hands. Then he told all.

GOVERNOR SUED FOR RENT.

[BY DIRECT WIRE TO THE TIMES.]

LINCOLN (Neb.) Feb. 8.—[Exclusive Dispatch.] Suit was filed today in the Supreme Court by the State of Nebraska against Governor George L. Sheldon for $100 rent for the use of the Governor's mansion owned by the State and occupied by the Governor during the month of January.

The suit was filed at the request of the Governor himself who is in doubt as to his right to accept from the State any perquisite except his salary.

MUST LEARN WOMEN'S WAYS.

[BY DIRECT WIRE TO THE TIMES.]

CLEVELAND, Feb. 8.—[Exclusive Dispatch.] Chief Kohler, President Roosevelt's best chief of police, has detailed several of his best detectives to be instructed in the ways of women.

When their education in this line is completed they will, as occasion arises be dressed in women's clothes and run down and capture female malefactors.

THAW RELATIONSHIP CAUSES EXPULSION.

[BY DIRECT WIRE TO THE TIMES.]

PITTSBURGH (Pa.) Feb. 8.—[Exclusive Dispatch.] A report from the East that the three children of the late William R. Thompson had been requested to withdraw from a fashionable boarding school of New Haven because of their relationship with the Thaw family, brings out a most pathetic feature, if the report be true.

Had it not been for the unfortunate death of Thompson, the killing of Stanford White by Harry K. Thaw would not have occurred. Mrs. William Thaw, mother of Mrs. William D. Thompson, had arranged to sail for Europe early in June, and had planned to take Harry and Evelyn with her. Harry had consented to go and passage had been engaged for the three, when the illness of Thompson caused Mrs. Thaw to change her arrangements.

When Thompson died she remained for the funeral at Pittsburgh. This allowed Harry and his wife some time in New York, and they decided not to take the slow steamer which Mrs. William Thaw took, saying they would take a fast one.

The fact that the death of one beloved son-in-law made it possible for her son to meet and kill another man has been one of the heavy burdens Mrs. William Thaw has been called on to bear, and if her grandchildren should have been ordered out of school, her cup will indeed be full.

STAYS RURALES INCREASE.

Taft Is Willing to Hear Objections of Cuban Liberals to American Plan.

[BY THE ASSOCIATED PRESS—P.M.]

HAVANA, Feb. 8.—Gov. Magoon received a cablegram from Secretary Taft today directing the postponement of the decree providing for an increase from 4000 to 12,000 men of the Cuban rural guard, pending presentation of the protests by the Liberals.

Objections to the plan of increase were voiced at a meeting attended by a number of army officers. Gen. Enrique Loynaz del Castillo bitterly denounced the United States and predicted that the Cubans eventually would be compelled to resist American domination, when the speaker hoped he would have the honor of leading the patriotic army.

Pool Tournament.

NEW YORK, Feb. 8.—In the second game of the world's professional championship pool tournament between Thomas Huestin of Scranton, Pa., and Edward Dawson of St. Louis, the score tonight was: Huestin 193, Dawson 143. Total to date: Huestin 400, Dawson 277.

office of the United States engineers. There were three bidders, of whom the lowest was Edward Malley, who offered to do the work for $151,068. The other bids were by the Warren Improvement combine for $197,868, and by A. J. Raisch for $199,621.

It is the intention of the engineers to add a step to the Yuba dam each year to hold the slickens washed down the stream from the mines, and in this way keep the waters of the lower rivers clear.

SLOPE BRIEFS.

River Breaks Levees.

SACRAMENTO, Feb. 8.—A break occurred in the levee on the Yolo county side of the Sacramento River this morning at the ranch of Edward Kripp, one mile and a half below the town of Washington. The break is 250 feet wide and much valuable orchard, farming and grazing land is now flooded. A portion of the town of Washington has been flooded to a depth of four feet, the water being confined to the south side by the Southern Pacific Railroad embankment. Seven hundred acres have been flooded. Edward Kripp, owner of the ranch where the break occurred, claims the levee was cut. A section of the railroad between this city and Davisville has been washed out.

Indorse Panama Exposition.

SAN FRANCISCO, Feb. 8.—At a meeting held yesterday by the Merchants' Association and the Manufacturers' and Producers' Association, resolutions were passed by both of those organizations indorsing the proposed holding of an international exposition in San Francisco, in 1913, in commemoration of the four hundredth anniversary of the discovery of the Pacific Ocean by Balboa, and in celebration of the completion of the Panama Canal.

Spreckels Libels Tug Wizard.

SAN FRANCISCO, Feb. 8.—J. D. Spreckels Brothers & Co., owners of the tug Reliance, filed a libel suit in the United States District Court yesterday against the tug Wizard, demanding salvage in the sum of $15,000. The petition avers that, January 3, the Reliance saved the Wizard from being a total loss. While enveloped in flames she drifted out into the bay, a menace to shipping.

Won't Try Bread Case.

SAN FRANCISCO, Feb. 8.—Police Judge Weller surprised a prisoner in court today by refusing to entertain a prosecution. The prisoner was Walter Morris, and the charge against him was "stealing a loaf of bread."

Judge Weller said: "The charge of stealing a loaf of bread is dismissed here and now. I hear no such cases."

Graft Cases Near Trial.

SAN FRANCISCO, Feb. 8.—By a stipulation agreeable to both sides, it was arranged today in Judge Dunne's court to dispense with the examination of the grand jurors as to their alleged bias and prejudice in the trial of Ruef and Dinan for conspiracy and the trial of Dinan for perjury. This brings these cases practically to the same point as that reached in the Ruef and Schmitz extortion cases and the actual trial will probably begin next week.

INSURERS FEAR LEGISLATURES.

DRASTIC LAWS ARE PENDING IN MOST STATE CAPITALS.

In Addition to Rate Troubles Fire Companies Are Charged With Unusual Laxity and Encouraging Wild Race for Premiums and Ignoring Safeguards.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, Feb. 8.—[Exclusive Dispatch.] Western fire insurance men are much disturbed over the growing demoralization in business. Rates are badly disorganized, and in some States there is apparently no bottom to them. Companies are afraid to take the usual steps to bruce up agents and secure cooperation for fear of arousing further hostility among the forty Legislatures now in session, in most of which drastic measures affecting fire insurance are pending.

In addition to rate troubles, companies are charged with unusual laxity in passing doubtful forms and permits. The race for premiums is so hot that many of the usual underwriting safeguards are being ignored. This situation is having an effect upon the underwriting field and will be shown in an important announcement understood to be impending.

The legislative situation is very threatening, lawmakers having gone beyond the usual anti-compact bills and now proposing to appoint commissions which shall fix rates for the insurance companies.

SCORES LAW'S DELAY.

Says Loss of Time in Bringing Inferior Cases to Trial Inspires Contempt.

[BY THE ASSOCIATED PRESS—A.M.]

CHICAGO, Feb. 8.—"The delay of three years in an ordinary personal injury action may be a grave injustice to a single individual or family, but an equal delay in bringing to trial the large number of cases, civil and criminal, arising from a theater fire, which caused the loss of nearly 600 lives and shocked the civilized world, sows broadcast the seed of contempt for law and gives notice to the world of the inefficiency of our judicial system."

In these words Prof. Frederick C Woodward of the Northwestern Law School, writing in the February number of the Illinois Law Review, which was issued yesterday, sums up what he terms the legal lesson of the Iroquois fire.

URGES ARBITRATION.

The President Wants Nicaragua and Honduras to Settle Their Differences Peaceably.

[BY THE ASSOCIATED PRESS—A.M.]

MEXICO CITY, Feb. 8.—The State Department has made public the following note:

"President Diaz, acting on the direct request of President Roosevelt, has sent a note to the governments of Costa Rica, Salvador and Guatemala asking them to use every effort to prevent an armed clash between Nicaragua and Honduras, with the intimation that past treaties must be lived up to and that their dispute must be referred to an arbitration board."

LAWYERS SEEK EXTENSION.

EL PASO (Tex.) Feb. 8.—To secure a further extension so as to prolong the case until the three years' limit expires, the attorneys of Antonio Villareal stated that they had filed an application for a dissolution of the Board of Immigration Inspectors and carried the case direct to the department at Washington.

RAILROAD RECORD.

HARRIMAN MAY SEEK NEW JOB.

SAYS HE HAS RECOMMENDATION OF EXPERIENCE.

Great Railroad Magnate Might Accept Position on the Interstate Commerce Commission If They Would Only Raise the Salary. Thinks They Need Him.

[BY THE ASSOCIATED PRESS—P.M.]

NEW YORK, Feb. 8.—Replying to a question about his health today, E. H. Harriman said:

"Everything has been going along smoothly, and they appear to be able to get along as well without me as with me. Why should I not stay at home altogether?

"But I must work, and soon I may be looking for a new job. My recommendations are many years of experience on many railroads in many railroad ficks, and if they will raise the salary a bit I may apply for a job on the Interstate Commerce Commission. Inasmuch as the Interstate Commerce Commission is to run all the roads, I think they ought to want me."

On the congestion of traffic on the railroads of the country, Harriman said:

"The railroads cannot build and supply cars for the shippers to use as storehouses. There are hardly enough cars for that. Yet the man to whom a load of freight is consigned thinks he ought to be privileged to use the railroad car as a storehouse as long as he likes.

"Limit the time the service of a car can be used by a procrastinating shipper and much of the present trouble will disappear."

"TURNIP SLIP" SOLON FIGHTS.

Preacher Legislator Objects to Speaker's Characterization and Uses His Fists.

[BY DIRECT WIRE TO THE TIMES.]

LITTLE ROCK (Ark.) Feb. 8.—[Exclusive Dispatch.] Rev. W. M. Thompson resented being called a "turnip slip of a statesman" by Speaker pro tem. Alexander Rowell, in the House today, in the debate on the latter's motion to refer the Amis Anti-Racing Bill to the Judiciary Committee, and immediately after adjournment the clergyman attacked the Speaker pro tem. in the lobby. They were pulled apart after blows had been exchanged.

In the Capitol yard Rev. Thompson renewed the attack, and after Rowell had hit him a number of times they were again separated.

The Amis Anti-racing Bill's friends by a vote of 43 to 42 failed to secure a ballot on its final passage today. Rowell's motion to refer it to the committee was not voted on, its foes forcing adjournment.

THINKS CRISIS ALARMING.

Franco-Catholic Situation Becomes Acute, Owing to Action of the Gallic Ministers.

[BY DIRECT WIRE TO THE TIMES.]

ROME, Feb. 8.—[Exclusive Dispatch.] The present situation in the French church crisis is considered in Vatican circles worse than at any time since its beginning. The French government, according to the opinion here, has practically refused the solution proposed by the bishops in such manner as to render impossible further conciliatory steps by the Vatican.

The situation is rendered graver by the fact that the Vatican's refusal to approve Briand's circular possibly will provoke the French government to make reprisals against the church.

The crisis has thus entered upon an acute stage. The Times' correspondent is informed by a cardinal that while this is true, all hope of definite settlement is not lost as the whole question is now centered upon the question of organization of public worship. If the government guarantees to respect the hierarchy the Pope will be disposed to make all possible concessions.

"What is needed," concluded the cardinal, "is an assurance by the French government that it is generally disposed to conciliation."

TROOPS GO AS COLONISTS.

Uncle Sam Finds Method to Outwit Railroads That Refuse Reduced Rates to Soldiers.

[BY THE ASSOCIATED PRESS—A.M.]

OMAHA (Neb.) Feb. 8.—The War Department has found a way to get even with the Union Pacific and Northwestern railroads for refusing to haul the Tenth Cavalry from Nevada forts to San Francisco at lower than tariff rates. Although the soldiers were scheduled to start on the journey on February 26, today orders were issued to hold the men until March 19 on which date the colonist rates are put in effect on all western railroads, and the soldiers will be hauled at one-half the regular rates, plus $2. This is a lower rate than the quartermasters department expected to secure from the railroads on a regular bid.

FINANCIER IS ILL.

James Stillman May Never Return to His Own Country—Will Live in Paris.

[BY THE ASSOCIATED PRESS—A.M.]

NEW YORK, Feb. 8.—James Stillman, president of the National City Bank, who sailed about a month ago for Europe, is seriously ill in Paris with an affection of the intestines, it was learned here yesterday.

His condition, it appears, is such as to certainly preclude his return to his own country. He is in the hands of Paris specialists.

Stillman was in poor health when he departed from here, and the sea voyage, which was expected to help him, proved injurious. The residence which Stillman lately bought in Paris will soon be ready for his occupancy.

POPULIST SUES HEARST.

Says Editor Publishes Libelous and False Accusation of Infidelity to His Wife.

[BY DIRECT WIRE TO THE TIMES.]

HANNIBAL (Mo.) Feb. 8.—[Exclusive Dispatch.] The Evening American Publishing Company, publishers of Hearst's Chicago papers, is defendant in a libel suit for $100,000 brought today by Judge Orville Davis Jones of Edina, Mo. The suit is based on a story in the Sunday American of July 8, 1906, which said Jones was caught by his wife in improper relations with a servant, Kittie Bryan.

Mrs. Jones was then suing the judge for a divorce which subsequently was denied in a St. Louis court. In the petition Jones denies the story. The plaintiff was the Populist candidate for Governor of Missouri in 1896, and twice a candidate for the State Supreme bench.

NOVELLI TOURS EAST.

BOSTON (Mass.) Feb. 8.—[Exclusive Dispatch.] A special American tour has been arranged for Ermete Novelli, one of the most distinguished Italian actors, ranking with Salvini and Duse in his own country. He will begin his American tour at the Boston Majestic Theater opening on March 4 and following two weeks, with engagements in New York, Philadelphia and Washington only. He will appear in repertoire Shakespearean plays.

LIMITS SURETY BONDS

WASHINGTON, Feb. 8.—Secretary of the Interior Hitchcock today issued an order declaring that no surety company shall be accepted for an amount greater than 10 per cent. of the paid-up capital and surplus.

BERNARD BEYER.

Resorts.

HAWAII

OF OUR OWN UNITED STATES

The place to go on your vacation. Splendid hotels, modern appointments. Mark Twain said of Hawaii:

"No land in all the world has any deep, strong charm for me but that one; no other land could so longingly and beseechingly haunt me sleeping and waking through more than half a lifetime, as that one has done. Other things leave me, but it abides; other things change, but it remains the same. For me, its balmy airs are always blowing; its summer seas flashing in the sun; the pulsing of its surf beat is in my ear; I can see its garlanded crags, its leaping cascades, its plumy palms drowsing by the shore; its remote summits floating like islands above the cloud rack. I can feel the spirit of its woodland solitude; I can hear the plash of its brooks; in my nostrils still live the fragrance of flowers that perished twenty years ago."

REDUCED FIRST CLASS RATE BY THE S. S. ALAMEDA FEB. 16TH, $125 FROM SAN FRANCISCO TO HONOLULU AND BACK.

F. M. JENIFER, 224 S. Spring Street.

See San Francisco—
Live at Del Monte

WASHINGTON.

WAR VESSELS TO NICARAGUA.

Navy Department Has Sent Them Down Coast.

Will Protect American Ministers and Property.

Senate Committee Still Probing Brownsville Affair.

[BY THE ASSOCIATED PRESS—P.M.]

WASHINGTON, Feb. 8.—Carrying out the wishes of the State Department that a couple of American naval vessels be kept in Central American waters, the Navy Department has dispatched the gunboat Marietta to Greytown, on the Gulf coast of Nicaragua, accompanied by the cruiser Chicago. The Yorktown, now at Mare Island, is not to go to Central America.

It is said that the purpose of sending these ships to Central America is to have a ship at the disposal of the American ministers if they should find it necessary to travel up and down the coast in these countries where communication by regular channels is so limited. Also they will, of course, protect any American property that may be endangered.

Consul William A. Alger, at Tegucigalpa, Honduras, communicated yesterday with American Minister Combs in Guatemala City to the effect that the opinion at Tegucigalpa was that war between Honduras and Nicaragua was almost inevitable. The officials here, however, do not take any such pessimistic view, and believe the combined efforts of Mexico and America will convince them that their differences can be settled without recourse to arms.

It was admitted at the State Department today that correspondence had been exchanged between the Department and the Mexican government regarding the prevention of hostilities.

The American government regards itself as bound under the treaty of San José and the Marblehead pact to offer good offices to prevent war between the Central American republics, and as the Republic of Mexico is under similar obligations, the two are trying to arrange a programme whereby Mexico would represent the wishes of the United States as well as of her own people.

Attention is called to the fact that Nicaragua was not a party to the San José treaty; taking the ground that the settlement of disputes between the Central American republics by a reference to arbitration was also sufficiently provided in the treaty of Corinto, concluded several years ago. This fact, however, does not, in the opinion of the officials here relieve Honduras and Salvador from responsibility to abide by the provisions of the San José treaty.

HE WANTS JUSTICE.

RIOT PROBE CONTINUED.

[BY THE ASSOCIATED PRESS—P.M.]

WASHINGTON, Feb. 8.—Walter McCurdy, former quartermaster-sergeant of Co. B of the battalion of negro soldiers discharged for the alleged "shooting up" of Brownsville, Tex., who had charge of the issuance of ammunition, and former Sergt. Jackson of the same company, who had charge of the quarters and the gun racks on the night of the affray, testified today before the Senate Committee on Military Affairs.

After McCurdy had told his story Senator Hemenway asked:

"Have you told all you know regarding the affray? Are you trying to conceal anything?"

McCurdy insisted that he had told all he knew and that he desired that the whole truth should be known.

"Then you are not satisfied with the character of discharge you received?" asked Hemenway.

"No, sir, I am not," replied McCurdy. "I have done nothing to be punished for. Let them punish the guilty parties and not the innocent. I have never been punished before."

Answering a question of Senator Foraker the witness said a Springfield rifle would shoot "clear through a house."

Sergt. George Jackson testified regarding the manner in which he had kept the gun racks, for which he had the keys, on the night of the shooting.

On cross-examination he admitted he had heard that government ammunition had been found to have been used in the shooting, but said if any had been used he did not see how it could have been secured without detection.

CAN PERFECT TITLES.

IMPERIAL SETTLERS BENEFITED.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, Feb. 8.—[Exclusive Dispatch.] The House Public Lands Committee today reported the bill to extend the time for proving public land entries in Imperial Valley two years from next spring. The committee accepted the Senate amendments to the measure providing that the extension shall apply to homestead entries, as well as entries under the desert land law, which the bill covered originally. It only remains for the House to accept the amended measure in order to afford relief for settlers, who have been unable to perfect their titles to land owing to the Colorado River flooding the valley.

PRESIDENT'S POWER ABSOLUTE

KITTRIDGE WANTS NEW LAW.

[BY THE ASSOCIATED PRESS—P.M.]

WASHINGTON, Feb. 8.—If a bill introduced by Senator Kittridge today becomes a law the President will have practically absolute control of the Panama Canal.

The bill authorizes him to place the work in the hands of either an individual commissioner, or a commission composed of seven members, and in case the former course is followed the commissioner is to have all the powers that the seven would have in the latter event.

The President is to prescribe the compensation and other privileges for it. He is also given authority to appoint civil or military engineers or to select persons for any other class of work in connection with the canal and all are placed under the direction and control of the President.

CAN'T HAVE RAISE.

EMPLOYEES ARE WELL PAID.

[BY THE ASSOCIATED PRESS—P.M.]

WASHINGTON, Feb. 8. — Chairman Payne of the House Ways and Means Committee after a visit to the President today, expressed the opinion that there was no chance at this session of Congress of the enactment of legislation in Congress for the compensation of government employés as is proposed in a new bill now before Congress. He declared that there was no need of a blanket increase of salaries and that as a rule the government employés were amply paid.

In response to the suggestion that, as Congress had increased the pay of its own members, the government employés felt that their salaries might also be increased, Mr. Payne laughingly remarked that the former have no chance of promotion, while the employés have.

CONTRACT PLAN MUCH CHEAPER.

TAFT THINKS PEOPLE FAVOR NEW SCHEME TO DIG CANAL.

Secretary of War Believes Government Can Save Much Money If Private Parties Dig Great Inter-Oceanic Waterway—Oliver Will Clear Nearly Five Millions If He Lands the Order.

[BY THE ASSOCIATED PRESS—P.M.]

WASHINGTON, Feb. 8.—Secretary Taft appeared before the House Committee on Appropriations today to explain the appropriation of $25,000,000 which the Isthmian Canal Commission has asked to have included in the Civil Sundry Appropriation Bill.

Much of the general discussion concerned the proposed canal contract and Secretary Taft expressed the opinion that the public generally prefers the contract system as it believes the government can do work cheaper in that manner. However, the appropriation will not be affected through the failure to grant a contract.

The proposed appropriation is desired chiefly for the completion of the equipment of the isthmus as the government purposed furnishing the equipment to any contractor. It was explained by the canal officials that the allowances for this purpose would be liberal.

At the hearing it was said that under the percentage system the contractor would not get a percentage of the cost of supplies or equipment, but only on the estimated cost of labor which has been estimated at $65,000,000 on which basis W. J. Oliver would be paid $4,387,500 by the government in case the contract was to be awarded to him on his bond of 6.75 per cent. which he and his associates have submitted.

Neither Secretary Taft nor any of the canal officials discussed the question whether the contract would be awarded to Mr. Oliver and the contractors associated with him. Another hearing on the canal will be held tomorrow.

MIKADO PLEASED WITH ENVOYS.

WANTS TO DECORATE AMERICAN AMBASSADORS.

Japanese Government Appreciates Friendly Offices of United States' Representatives During Russo-Japanese War and Now Desires to Confer Order of the Rising Sun.

[BY THE ASSOCIATED PRESS—P.M.]

WASHINGTON, Feb. 8.—With an expression of its high appreciation of services rendered to Japan during its war with Russia, the government of Japan has asked for permission to confer upon the American Ambassadors to Russia and Japan during the Russo-Japanese War, various decorations, and the Secretary of State today forwarded the request to Congress. With Secretary Root's letter there was a communication from Count Aoki, the Japanese Ambassador to Washington, expressing the desire of the Japanese Empire to award to Robert S. McCormick and George von L. Meyer, former American Ambassadors to Russia, and Lloyd C. Griscom, former Minister to Japan, the first class of the Order of the Rising Sun.

Decorations are also proposed for the secretaries of the legations.

FIFTY-NINTH CONGRESS.

CLOSING SESSION.

[BY THE ASSOCIATED PRESS—P.M.]

WASHINGTON, Feb. 8.—SENATE—The Senate today passed the Indian Appropriation Bill. Senator Fraser made an address on the subject of the States' rights, after which the Army Appropriation Bill, carrying a total of $91,500,000, was taken up.

The army measure was partly read for approval of the committee amendments and adjournment was taken shortly before 6 o'clock, when it became apparent that considerable debate was to be occasioned by an amendment to permit the government to receive reduced rates from the railroads for the transportation of troops and supplies for the army and to allow army officers and their families to accept free transportation. The adoption of this amendment would be a modification of the Railroad Rate Bill passed at the last session of Congress.

Senator Warren, in charge of the bill, gave notice that he would press its consideration tomorrow.

Senator Nelson said that he would move tomorrow for the consideration of the bill granting the government the right of appeal in criminal cases.

HOUSE.—A new high record in the way of passage of private pension bills was made by the House today, when 78 bills were passed in an hour and a half. The Naval Appropriation Bill, carrying $85,424,000, was taken up and under the order of general debate speeches were made by Representative Lamar of Florida on the Railroad Rate Bill; Higgins of Connecticut, favoring the creation of the White Mountain and Appalachian forest reserves, and Mondell of Wyoming, on the limitations of Federal authority and the withdrawal of coal lands from entry. The House at 5:05 p.m. adjourned.

WASHINGTON BRIEFS.

Shonts Favors Contract.

WASHINGTON, Feb. 8.—Chairman Shonts of the Isthmian Canal Commission today unqualifiedly expressed himself in favor of building the canal by contract.

Admiral Mead Retires.

WASHINGTON, Feb. 8.—Rear-Admiral William Hitman Mead, who has been relieved of the command of the Portsmouth, N. H., navy yard by Rear-Admiral George A. Bicknell, was today placed upon the retired list of the navy owing to age.

To Lease Grazing Lands.

WASHINGTON, Feb. 8.—The Senate Committee on Agriculture is preparing a resolution looking to the leasing of public lands for grazing purposes. A large delegation of western cattlemen is already here to support the measure.

Favors Alaskan Railroad.

WASHINGTON, Feb. 8.—The Senate Committee on Territories today authorized a favorable report on a House bill giving to the Alaska Railroad Company a government charter for a road from the head of Cordova Bay to a point on the Yukon River near Eagle, Alaska. The railroad will enter the Alaska copper fields.

MAFIA SLAYS BRAVE JUDGE.

Infernal Machine Explodes as He Opens It.

He Relentlessly Pursues Italian Criminals.

Congressman-elect Is Indicted for Doctor's Murder.

NEW YORK, Feb. 8.—[Exclusive Dispatch.] Robert Cortese, a justice of the peace, is dead and his son is seriously injured as the result of an explosion of an infernal machine tonight in his office, No. 23 Pacific street, Paterson, N. J.

Cortese reached his office about 6:30 o'clock when his son called attention to a package about a foot square that had been delivered an hour earlier by express from Newark. The justice pried open one side of the package and found a covering of thick brown paper, around which was a cotton belt. He proceeded to unbuckle it and and he did so there was an explosion.

Justice Cortese was hurled into a corner, his son was tossed through a window, a heavy wooden door and both windows in the room were blown into the street and every article in the office except the safe was smashed into splinters. One of the justice's legs was almost torn off and the other was mutilated. His face and neck were cut. He died under the operation. The boy's injuries consisted of a badly lacerated face and a broken arm.

Justice Cortese has been for several years a valuable aid to the police in solving crimes committed by Italians.

Justice Cortes died at midnight from his injuries. He had been home to supper this evening, leaving his son, Robert, in charge of the office. It was the younger man who had received the infernal machine, which came from Newark, and was delivered by an American Express wagon. The charges were paid, and the boy accepted it.

When Cortes reached the office the boy handed the package to him. The outside wrapping was of paper, tied with a string. Cortes removed this paper. Inside was another wrapping, made fast with straps, such as boys use to put around school books. Robert said he watched curiously to see what the little box contained.

His father rested the package on the desk and pulled the end of the strap toward him, so as to loosen the tongue of the buckle. The moment he did so there was an explosion.

A hole six feet square was torn in the floor and the desk was driven down into the cellar and torn to pieces. The boy was hurled into a corner and seriously bruised and burned.

Judge Cortes was found behind the doorway and the hole in the floor. Both legs and both arms were broken, his face and body was torn and lacerated and his back apparently broken. A mass of flesh was torn from the bones. He was removed to St. Joseph Hospital, where his ante-mortem statement was taken.

Judge Cortes has been a justice for twelve years. He was shortly to be appointed a sergeant of detectives in recognition of the active work he had done in aiding the police in running Italian and other criminals down.

Only a short time ago he tracked a foreigner who had robbed his father of $1200, and caught him in a Pennsylvania town. He brought him back here, and the man was sent to State prison for fifteen years. Two others were concerned in the robbery, but have not been located. Cortez had a wife and eight children.

It was believed that the sender of the machine sought revenge.

CARTOR SAVED HIS LIFFE.

ARRESTED MAN A "HERO."

[BY THE ASSOCIATED PRESS—A.M.]

NEW YORK, Feb. 8.—Howard W. Shaw, who is locked up in a Brooklyn police station, charged with having absconded with $5000 from the Jenkins Trust Company's branch office in Brooklyn, of which he was lately the secretary and treasurer, saved the life of his captor, it was learned yesterday. This captor was William Tomlinson, president of the Empire State Surety Company, which bonded Shaw. Tomlinson learned late last month that a man answering Shaw's description was at Cricket Hill, Va. He went there with detectives only to find that Shaw was cruising around Chesapeake Bay. Tomlinson hired a launch and finally found Shaw at a house on the bay shore. Shaw offered to return with Tomlinson in the launch. The launch's occupants had to climb an oyster boat's deck, to reach land, and Tomlinson slipped on the icy deck and fell into the water. Shaw instantly had the detectives hold him by the legs while he hung over the launch's side and seized Tomlinson. He pulled into the launch and did everything he could to keep him from suffering a mishap from the accident.

CONGRESSMAN IS INDICTED.

SAYS HE SLEW WIFE'S DEFAMER.

[BY THE ASSOCIATED PRESS—P.M.]

BATON ROGUE (La.) Feb. 8.—Democratic Congressman-elect George Favrot was today indicted by the grand jury on the charge of murder for shooting Dr. Aldrich, one of the leading physicians of Baton Rouge.

Congressman-elect Favrot, immediately after the shooting last November, issued an informal statment that he killed Dr. Aldrich for making slanderous statements about Mrs. Favrot.

Dr. Aldrich was Mrs. Favrot's family physician. Favrot is one of the leading jurists of Louisiana and was judge of the Civil Court at the time of the snooting, but resigned immediately. It is a notable coincidence that before the shooting he had appointed the grand jury which today indicted him.

EX-SOLDIER IS HELD.

SAYS HE KNEW PLOT TO KILL.

[BY THE ASSOCIATED PRESS—P.M.]

DENVER (Colo.) Feb. 8.—Zemry Andrews, former private in the Twenty-fifth infantry which was discharged by President Roosevelt for participating in the Brownsville riots, and who is believed to be the person who sent an anonymous letter to the military authorities at Fort Reno, Okla., stating that the writer knew of a plot to kill Capt. Macklin, was committed to jail by Judge Lewis of the Federal Court today to await the outcome of the trial of Corporal Edwin Knowles, charged with shooting Capt. Macklin. A United States deputy marshal has been here for several days awaiting the conclusion of the hearing before Judge Lewis, which was conducted in secret.

DEAD MAN WAS SHORT.

MARTINEZ, Feb. 8.—A shortage of about $15,000 has been discovered in the accounts of G. [illegible] Wiley, late Treasurer of Contra Costa county, who committed suicide on February 4. The money in the vaults was counted on January 2, and the amount was found to be correct. It was to have been counted again on February 1, but Wiley had the time postponed until February 4, on which day he shot himself.

SCHMITZ AND PARTY.

(Continued from First Page.)

we had done, we would have been violating the treaty. But we have not excluded Japanese children and do not intend to. We have segregated them according to the law of the State. We have provided them with educational facilities which are superior to schools attended by our own children, because in Oriental schools, the scholars are given individual instructions in English. One of the Japanese students wrote to the President telling him that he did not want to go back to the public scrool because he was learning faster in the Oriental school.

DEFENDS STATES' RIGHTS.

DISCUSSES JAPANESE QUESTION.

[BY THE ASSOCIATED PRESS—P.M.]

WASHINGTON, Feb. 8.—Federal encroachment on State rights with the Japanese school question as the principal illustration was the subject of an address to the Senate today by Senator Frazier of Tennessee, who said that this was not a question that concerned California, but concerned the right of every State to control its domestic affairs. If the Federal government by treaty could fob a State of control of its own school system the last stronghold of local self-government was destroyed, he declared.

If a treaty could force Mongolians into the white schools of California, a treaty could force the negroes of Cuba, Santo Domingo, Hayti, and the Congo into the schools of Tennessee in defiance of the laws for the separation of the races.

The school board of San Francisco, he said, had simply enforced a State law providing for the education of white and Japanese children in separate schools. It had been decided over and over again that a State had a perfect right to make such a separation, and that California was but exercising a legal and constitutional power.

He denied with emphasis that this country had ever undertaken by treaty to interfere with the constitutional rights of California in this respect.

TO OPPOSE SCHMITZ.

JACOBS FAVORS JAPANESE.

[BY THE ASSOCIATED PRESS—P.M.]

CHICAGO, Feb. 8.—Isidor Jacobs of San Francisco, president of the California Canneries Company and chairman of the executive committee of the Commercial Manufacturers' Association of San Francisco, was in Chicago tonight on his way to Washington. There he will oppose Mayor Eugene Schmitz and the Board of Education of San Francisco in their efforts to have the Japanese segregated from American school children of that city. Jacobs said he represented the manufacturing and commercial interests of San Francisco and that all the commercial organizations are a unit in opposing the stand taken by the Board of Education, in the matter of the Japanese.

Jacobs is a cousin of Oscar S. Straus, Secretary of Commerce and Labor, and says he will do all he can to preserve friendly relations between the United States and Japan.

HOUSE OF LORDS LOOKS DOOMED.

ATTY.-GEN. WALTON TELLS OF PLAN NOW BREWING.

Declares It Is "Out of Harmony With Modern Institutions and Must Go Down"—Government's Revolutionary Programme Is Fully Disclosed.

[BY DIRECT WIRE TO THE TIMES.]

LONDON, Feb. 8.—[Exclusive Dispatch.] The government's revolutionary programme, vaguely hinted at in Sir Henry Campbell-Bannerman's summons to Parliament, was fully disclosed last night by Atty.-Gen. Sir John Lawson Walton, in a speech he made at South Leeds.

The programme is nothing less than a systematic campaign for the destruction of the House of Lords, which the Attorney-General declared, was entirely out of harmony with modern democratic institutions and must go down.

Whether anything of it would be left, and if so, in what form, they could not yet determine.

If House of Lords set itself against the national will it would be like a heap of sand setting itself against rising water.

BRITONS FEAR DOMINICAN PACT.

THEY DEMAND SATISFACTION OF OUTSTANDING BONDS.

English Security Holders Already Have an International Award Guaranteeing Debts Due Santo Domingo Improvement Company and Object to Any Change.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, Feb. 8.—[Exclusive Dispatch.] Objection has been made by British holders of the bonds of the Santo Domingo Improvement Company to the manner in which the United States and Santo Domingo propose to satisfy the claim of that corporation against Santo Domingo under the arbitral award of 1904. The council of the corporation of foreign bondholders in London has requested the British government to take up the matter with the State Department here. Inasmuch as President Roosevelt intends to soon send to the Senate for ratification a new Dominican treaty, this action is regarded as highly important.

It appears from a report of the council of the corporation of foreign bondholders in London that the British interests in the Santo Domingo Improvement Company and the holders of the bonds of that company are not satisfied with the terms offered by Dr. Jacob H. Hollander who appeared before the Senate Committee on Foreign Relations, acting for Santo Domingo.

The report says in part: "Dr. J. H. Hollander has recently been in London, where he laid before the council certain proposals of settlement. Under Dr. Hollander's scheme the internal debts are to be paid off at various rates ranging from ten to fifty per cent. of the nominal amount when the bonds of external debts are not included in the international arbitration award (Santo Domingo Improvement Company) are to receive fifty per cent. with interest thereon from 1901.

"As regards the arbitration award, Dr. Hollander suggested that it should be paid off at the rate of ninety per cent. of the sum awarded with interest from 1904. Dr. Hollander was informed that the council did not consider this proposal an equitable one, and that the effect of it would be to exercise an unjust discrimination against the English holders of Santo Domingo bonds, included in the award. The council see no reason for suspending and setting aside the provisions of an international arbitration award."

The British objection to the new arrangement will be passed on the ground that the international arbitration award was regular in every respect, and should not be set aside by a treaty between the United States and Santo Domingo.

CHINATOWN'S NEW YEAR.

Its Advent Will Be Celebrated With the Usual Feasting, Fireworks and Prayers.

Every house in Chinatown is being put in order for the celebration of the new year, which will begin on Monday evening. All the business houses, including the restaurants, will be closed, and all Chinatown will unite in a grand feast in honor of the expiring year. After the feast will come the burning of fireworks. Sufficient firecrackers and bombs will be exploded to keep Satan at a respectful distance until the Celestials have prayed off their manifold sins at the Joss house. There will be no fireworks in the evening, it is said, for fear of the possible destruction of buildings.

The gods in the temple have been decorated in the brightest and most imposing costumes, and a large supply of paper prayers have been received and will be burned as offerings. The temple will be closed to the general public for three days in order to give the Chinese an opportunity for worship.

The celebration will last three or four days. There will be a round of feasts at the restaurants, given by the various mercantile clubs, and also family or clan dinners. At these functions there will be instrumental and vocal music by local artists. A band of five men, assisted by two women singers, will be taxed to the utmost during the festivities. The dragon flag will float from the principal buildings and "Little China" will appear in its holiday costumes.

At daylight on Tuesday morning the new year's calls will begin. Each caller will be dressed in the best his purse can afford, and in his hand he will carry a package of cards—red slips of paper upon which his name has been brushed, together with felicitous expressions. Tea, sweetmeats and nuts will be offered to guests, but the "Mellican" man is not expected to call.

A larger number of Chinese will partake in the festival than heretofore, owing to the increase in the colony since the disaster at San Francisco.

During the last few days there has been much hurrying to and fro among debtors, who, under a rigid custom, must pay all their obligations before the beginning of the new year, or suffer social disgrace and the blacklisting of their names in all the stores.

The new year will be year 33—time being dated from the beginning of the reign of each ruler of the Chinese empire.

GREAT LIBRARIAN IS ILL.

WASHINGTON, Feb. 8.—A. R. Spofford, Chief Assistant Librarian of Congress, was stricken with paralysis today. The attack is not serious.

WANAMAKER'S HOME BURNS.

PHILADELPHIA, Feb. 8.—Lyndhurst, the country home of John Wanamaker at Jenkintown, near this city, was destroyed by fire tonight. The loss will reach nearly $1,000,000.

SAFE-BLOWERS KNOWN BY NEW YORK POLICE.

THE pictures and descriptions of the three safe-blowers now in the City Jail, which were sent all over the country, have resulted in just what the detectives expected. One of the prisoners is now known to have a criminal record in New York and in addition to the information which the police have received from New York, this prisoner, who gave his name as J. Martin, has confessed fully to a sufficient number of crimes to justify his imprisonment for the balance of his life.

This confession is in addition to the first confession made by this and the other two prisoners and is much more complete. It has given the detectives something upon which they can work and as a result it is probable that complaints will be filed against the three men today or Monday.

Since the cracksmen have been in jail, Capt. Bradish, who has had charge of the case, has expended more than $100 in telegrams to eastern cities in his efforts to secure the identification of the men. Yesterday information was received from New York to the effect that Martin is well known to the police there as an expert criminal and one who has "done time" in more than one prison. Just what the information from New York is, Capt. Bradish has not made public because he hopes to use it against the other two prisoners.

It has been known ever since the first confession by the prisoners that there are several other members of the gang who thus far have escaped arrest. The discovery a few days ago of the house in Long Beach occupied by the safe-blowers confirmed the statements made by the men under arrest. Just how much these men have told about their companions in crime is, of course, sacredly guarded by the police, but officers are now working on the information which they have secured, and they expect to arrest the remaining members of the gang unless the criminals leave this part of the country.

That the gang which has been operating in this part of the State is an unusually large one is indicated by the fact that although three of its members are in jail and have confessed, several similar crimes have been committed or attempted at various outside points. The warnings sent out weeks ago to banks and postoffices in small towns have not been withdrawn, and the police admit that other safes may be blown at any time that the remaining members of the gang decide to make a raid.

SUES MORSE OF 'PHONE FAME.

MASSACHUSETTS TELEGRAPH TRIO WANT HALF MILLION.

Declare Noted Financier, Ice King and Steamship Magnate Broke His Contract by Selling Out to the "Telephone Trust"—He Got Stock to Finance Scheme.

[BY DIRECT WIRE TO THE TIMES.]

BOSTON, Feb. 8.—[Exclusive Dispatch.] Alleging that Charles W. Morse, ice king, financier and steamship magnate, broke his contract and sold out their interests to the American Bell Telephone and Telegraph Company, otherwise called the Telephone Trust, Oakes Ames, A. S. Temple and Frank Cutting, officers of the Massachusetts Telepho neand Telegraph Company, brought suit against him late yesterday afternoon, seeking nearly half a million dollars.

It is alleged by the plaintiffs that Charles W. Morse was given control of the stock in the company in 1902 upon his promise to finance the scheme, since which time he has made no accountings to them, and they are now of the belief that he has turned the charter of the company over to the New England Telephone and Telegraph Company, which is a subsidiary company of the American Telephone and Telegraph Company.

All three of the plaintiffs are prominent business men of the city. Oakes Ames sues for $250,000, A. S. Temple for $150,000 and Frank Cutting for $75,000.

Many other suits for smaller amounts have also been brought by individuals interested in the company which will bring the total amount sought up to over $500,000.

MAY BE FATALLY INJURED.

A man who is believed to be Robert McCarthy of No. 220 South Thomas street was seriously injured, about 6:15 o'clock last night, by Brooklyn-avenue car No. 111. He was attempting to cross Main street, between First and Second streets. According to witnesses, the car was running at a rather high rate of speed, considering the congested condition of the thoroughfare. When the police surgeons examined the man at the Receiving Hospital, they found that he had sustained concussion of the brain and numerous bruises and cuts about the head and body. He had not regained consciousness at a late hour last night and the doctors say that his condition is critical.

LOVES JAIL LODGING.

Mrs. J. McCafferty, an aged woman living at No. 2965 San Marino street, applied to the police for lodging at the City Jail last night and was arrested for insanity. The police say that although the woman had been in the habit of asking for lodging at the jail, she has money enough to care for herself but refuses to use it. She is addicted to the morphine habit, it is averred. Recently the Associated Charities sent the woman to the Door of Hope. In the middle of the night she left that institution and went to the City Jail.

STRIKES POLICEMAN, 'TIS SAID.

After abusing Patrolman Busse by telephone, Sam Adams of No. 120 South Spring street met the officer last night and struck him in the face several times, it is said. Adams, it is alleged, was provoked because Busse told him that he ought to be ashamed of language he had used.

CHAUFFEUR ARRESTED.

James Mazzi, an employé of a garage at Adams and Main streets, was arrested last night by a mounted policeman on the charge of violating the speed ordinance. He was captured at Thirty-third and Main streets, after a hard chase. The police say that he has frequently violated the ordinance.

Orange County May Lose Its Beach Towns.

Bill to Make Change to Be Presented Today.

Taxes Not in Proportion to Taxes Paid.

BY B. FRANK GREAVES.

(DIRECT WIRE TO THE TIMES.)

RAMENTO, Feb. 8.—[Exclusive Dispatch.] A quiet movement that is in progress for some time for division of the Los Angeles county south into Orange county will be made tomorrow through the introduction by Assemblyman Stanton of a bill that aims to bring about such

While the exact details of the bill have not been made public and are likely to a few, the plan is to run the southern boundary of Los Angeles county to a point between Huntington Beach and Newport, and it is to include the latter town.

It is not intended that the easterly line shall run far inland, and the territory to be embraced probably will be no long finger of beach land that follows the coast from the present southern county line.

The new county, Bay City, Huntington Beach, the part of Napies in Orange county, and several smaller towns, would go back into the county to which they, or the greater portion of sand many years ago, originally belonged.

Sentiment in favor of the change in the territory affected has little in common with Orange county; that is to say, a direct rail connection between Huntington Beach and the other towns and Santa Ana, and that nine out of ten believe now that they are in Los Angeles county. In the few years that this section has been developing under the stimulus of irrigation electric lines and improvements of the real estate interests thousands of dollars have been expended in improvements and the amount of taxes paid into the county treasury has been enormous.

The bill has been returned to the territory it is claimed, in the way of improvement at the cost of the people of the Coalinga district, the new county separation from Fresno county. It is asserted that the beach towns of Orange county has been neglected, as it has paid far more in taxes than has been returned to it in improvements.

It is claimed that the introduction of the bill by the Orange county delegation is activity, and that they desire action without delay.

WHAT'S BEHIND DIVISION?

Taxes of the County of the Rich Territory Not Having Very Much Selling.

(DIRECT WIRE TO THE TIMES.)

RAMENTO, Feb. 8.—[Exclusive Dispatch.] Senator Willis of Orange and Senator Broughton of Los Angeles have not yet been able to reach an agreement as to the new county division bill and the latter, consideration of which by committee has gone over until Wednesday.

The bill was set for today, at which time it was to have been considered. Several of the committee members were consulted, but the two most interested were engaged at the time and were unable to give their ideas, and the committee adjourned without the consideration of the bill in its amended form.

The crux of the matter seems to be that Willis insists on a measure that will prevent the proposed new county of Orange from gobbling up some of the richest portions of San Bernardino county, including the Ontario-Cucamonga district, while Broughton is determined that it shall be incorporated for this section to go into the new county.

The bill can be so framed that Willis will vote for the change relating to the portion of San Bernardino proposed for divorce, it is said freely that Senator Willis has no other principal objection, and probably will not agree to any change in that line. Bernardino, in the event of a division, shall bestow upon the new county a dowry in the shape of a large share of the public buildings of the older government. Just what it might consider its proportion of the possessions of San Bernardino and Los Angeles counties, it is said that "San Antonio" would leave the matter of setting itself down as to what county business. And it is said that neither Los Angeles nor San Bernardino is disposed, figuratively speaking, to see its Courthouse, County Hospital, County Jail and to move the same over into Pomona, without nothing to become a county seat.

REASON FOR PROTEST.

Pomona Opposes the Proposed Change in Tax Laws Because It Will Increase Her Rate.

(DIRECT WIRE TO THE TIMES.)

RAMENTO, Feb. 8.—[Exclusive Dispatch.] San Bernardino county has a fight against the bill presented by the Commission on Revenue and Taxation, wherein it is proposed to change State and local taxation. The citizens of that county, following the advice of his constituents, will endeavor to amend the measure so that Pomona will not suffer through its operation. Under the proposed law the State would collect all taxes from steam and railroads, Pullman and refrigerator lines and certain other companies, and turn over to the county the taxation of property.

It is claimed that this would remove from the taxable list in San Bernardino county one-third of its total assessment, causing a yearly loss of about $63,000 in taxes; while only a small portion of the property of magnificent distances of the desert land, and between something like 600 miles of railroad, assessed valuation of the $8,619,000 of which $8,619,000 is the railroads. Even by the rate of taxation on the property to that which exists it is set forth, that San Bernardino would obtain the taxes from the local tax rate to be placed far beyond what it is maintained, it is claimed, is to collect the necessary

It is proposed that the bill be so that the State may reimburse to the extent of any loss suffered by the change. The bill is to be binding for a term of years. Through such an amendment it is hoped in some quarters that the peculiar conditions existing in San Bernardino county may be met.

INSTALLMENT FIRMS PROTEST.

OPPOSITION TO "CONDITIONAL SALES" BILL.

Great Conflict of Opinion Over the Proposed Law to Require the Recording of All "Easy Payment" Contracts — Wholesale Merchants Demand Such a Measure.

[BY DIRECT WIRE TO THE TIMES.]

SACRAMENTO, Feb. 8.—[Exclusive Dispatch.] Whatever interests may be concerned in the passage of what is known as the Conditional Sales Bill, there is pending but little legislation over which has arisen so much conflict of opinion. Every mail brings to the legislators bundles of arguments for and against the measure. Southern California particularly seems to be aroused.

The contest is between the wholesale grocers and produce and commission merchants on one side, and furniture dealers, sewing machine agents, agricultural implement men, typewriter agencies and a long list of merchants on the other.

In a few words, the bill provides for the recording of all contracts for the sale of personal property wherein title is reserved until payment shall have been made in whole or in part, or wherein transfer of title is made to depend on any condition. It is asserted that this is a direct blow at the installment business; that it will restrict this class of trade to a great extent.

Thousands of persons purchase pianos, furniture, typewriters, sewing machines, books and even agricultural implements on the "easy payment" plan. Opponents of the bill say that such purchasers will object to the requirement that they register a memorandum of such purchase with the County Recorder.

It is not always pleasant for a young attorney to fit up an office with fine furniture, just to make a good impression on his first clients; then to have those clients discover in the public records that, for convenience, he is paying for his outfit at the rate of $10 a month.

It is said, too, that the bill will work a hardship upon purchasers who do not live at county seats. When they pay down $5 on a piano, they hardly can afford to travel to the Courthouse to make a record of such purchase.

On the other hand, it is asserted that the passage of the bill will protect wholesale grocers, flour merchants and others in the extension of credits to irresponsible restaurants and storekeepers who open a shop with a glittering array of fixtures that have been obtained on conditional sale, and who often skip out without paying their just debts.

Between the opposing interests the battle is waging thick and fast. Former Senator Hahn of Pasadena, who is now in Sacramento, is said to be carrying the fight for the supporters of the bill, which was introduced in the Assembly by Transue, and in the Senate by Wolfe of San Francisco.

VACCINATION WINS.

REPEALING BILL IS DEFEATED.

[BY THE ASSOCIATED PRESS—P.M.]

SACRAMENTO, Feb. 8.—The fight between the anti-vaccinationists and the champions of vaccination was waged on the Assembly floor for over two hours this afternoon, and resulted in a victory for vaccination. Sackett's bill repealing the present general vaccination law was defeated. Notice of reconsideration was given.

Eshelman, of Berkeley, had introduced a bill, making it a misdemeanor for school authorities to make vaccination a prerequisite to admission to the schools. This was buried in the Committee on Public Health and Quarantine. Sackett presented a measure to repeal the entire law, and his bill was sent to the Committee on Education, which reported it favorably.

The school superintendents of the State and other educational authorities upon whom has devolved the enforcement of the law, have been the prime movers in having it repealed.

Sackett, Eshelman, Pyle, Percival and others made a fight for the bill. Percival is the only Christian Science member of the Assembly.

Sackett said the efficacy of vaccination was not the issue; it was merely a question of removing the burden of the enforcement of the law from the school authorities, and placing it elsewhere.

Cutton declared that the school superintendents and teachers were attempting to shirk their duty by wanting the law repealed. Grove L. Johnson, in speaking against the bill, painted a vivid word picture of the ravages of smallpox.

"ME TOO," SENATOR.

WANTS AN ARMORY ALSO.

[BY DIRECT WIRE TO THE TIMES.]

SACRAMENTO, Feb. 8.—[Exclusive Dispatch.] If Los Angeles is to have a National Guard armory costing $100,000, San Francisco insists that she be given one to cost not less than $150000.

Senator Wolfe of the northern city made this stipulation tonight at a meeting of the Senate Finance Committee which had under consideration the bill of Senator McCartney providing for the building of an armory in Los Angeles.

There was no objection to the appropriation of the sum named for Los Angeles's armory, but the San Francisco members made it plain that they did not intend the city down the coast should outshine their own, for the matter was left to McCartney and Wolfe to reach an agreement between themselves.

SESSIONS' FIRST LAWS.

GOVERNOR SIGNS BILLS.

[BY DIRECT WIRE TO THE TIMES.]

SACRAMENTO, Feb. 7.—[Exclusive Dispatch.] Gov. Gillett today signed the first bills that have reached him from the Legislature. Three of them pertain to urgency expenditures of the session. The other two are Southern California measures, one authorizing the city of San Diego to transfer a part of La Jolla Park to the University of California for use in connection with a biological station; the second making it possible to send Frank Harlow, a Los Angeles youth, from San Quentin Prison to the Whittier State School.

MAY PASS AFTER ALL.

Powers Behind Legislators Signify Willingness to Support Anderson's Four-Track Bill.

[BY DIRECT WIRE TO THE TIMES.]

SACRAMENTO, Feb. 8.—[Exclusive Dispatch.] Just because of his willingness to oblige some one who wished him to introduce the bill whereby the Pacific Electric and other trolley lines of Southern California seek power to condemn more commodious rights of way, Senator Anderson of Santa Ana innocently enough has got himself classed with the railroad ring.

Now he is trying to learn whether an attempt is made to make fun of him, or whether he really was made party to a railroad "grab."

When the bill was introduced in the Senate by Anderson and in the Assembly by Transue, it was given out that its sole purpose was to permit the electric lines to secure rights of way sufficiently wide to permit of the building of four tracks.

But, as usual, some one of an entomological bent detected at once a scheme of the Southern Pacific to shut out the Western Pacific from Niles Cañon, a narrow opening through which the Gould road expects to make its entrance to the San Francisco Bay country.

It mattered not that the Western Pacific already has its right of way and has completed most of its grading throughout this cañon, the "bug" still existed on the mind of the bugologists and the Senate, which makes a feint at freedom from machine thralldom when it knows it won't do any harm, defeated the bill.

Senator Anderson made a motion to reconsider, postponing it yesterday and again today, and the motion will be renewed Monday.

In the meantime W. E. Dunn, attorney for the Southern California electric lines, has been here in conference with Walter Parker and Jere Burk of the Southern Pacific, and it is predicted that the Anderson bill will pass on reconsideration of the previous vote.

It is whispered that the bill was placed in the hands of Senator Anderson for the sole purpose of disarming the suspicions of carping critics. The feint resulted only in delaying the passage of what purports to be a fair measure and in placing the Santa Ana legislator in an uncomfortable position.

LETS THE CAT OUT OF THE BAG.

AWFUL BLUNDER BY ASSEMBLY SERGEANT-AT-ARMS.

Traffic in Railroad Passes to Hold Support of Machine Members Revealed Through Similarity of Names of Two Legislators—Passes to Be Had for the Asking.

[BY DIRECT WIRE TO THE TIMES.]

SACRAMENTO, Feb. 8.—[Exclusive Dispatch.] It never has been a secret that railroad transportation is as free as Sacramento River water to "push" members of the Legislature, but when Sergeant-at-Arms Stafford of the Assembly handed out a pass today to one of the unbranded legislators, he let out of the bag a cat that doesn't often purr in public.

When Los Angeles members and attachés who are "right" wish to run down home, all they have to do is to voice their want to Walter Parker or Jere Burke, and it costs them nothing to ride. Likewise with other members.

And when a legislative junketing party goes out on a jaunt for which it receives ten cents a mile from the State, no one supposes for a minute that the members pay even the three cents a mile demanded of ordinary citizens by the railroad company.

This was the day for the distribution of free transportation to members who usually go home for Saturday and Sunday, and it was due to the poor eyesight of the Assembly Sergeant-at-Arms that he made the egregious blunder which brought the flush of indignation to the cheek of a virtuous member, and the blush of confusion to the jowl of Stafford.

John A. Cullen is a Republican-Democratic-Union Labor member from San Francisco. Charles P. Cutten is a Republican member from Humboldt county, the home of Gov. Gillett. Cullen takes the programme. Cutten is independent of the bosses.

The Sergeant-at-Arms comes into the Assembly with an envelope which he hands to Cutten of Humboldt, who opens it, disclosing one of the familiar red-faced tickets reading from Sacramento to San Francisco.

"Your ticket, Mr. Cutten," remarked Stafford, smirking.

"My ticket," exclaimed Cutten. "I haven't ordered any tixket," and turning over the envelope Cutten saw that it was addressed to Cullen of San Francisco.

Stafford discovered his blunder almost as soon as he had made it. Grabbing the ticket and envelope he melted from the hall.

Rare Coins Sold.

At a recent auction sale in New York 590 lots of coins from the James S. Bryant collection were disposed of, some of them at record prices. The highest figure realized was $55.50, which was paid for a "Stella," or $4 gold coin pattern, dated 1879. It shows a head of Liberty with flowing hair, and a star within which are the words, "One Stella —400 cents."

What is said to be the last pattern in the United States of an 1885 1-cent piece, of nickel sold for $5, and a 5-cent piece of the same date brought the same price. A token described as a "gem of 1837," an uncirculated 3-cent piece, sold for $22.50, and a token of the Whig victory of 1834, bearing the words, "Fellow Citizens, Save Your Constitution," brought $9.

One of a rare series of encased postage stamps, used as money in war times, sold for $2.20.

Women as Understudies.

"One of the latest occupations for women is found in the role of 'understudy' to the wives of the great American millionaires," says the Dundee Advertiser. "The 'understudy,' as she is called—'dummy,' although more correct, is an inelegant term—is employed to 'try on' dresses. She must have the exact measurements of her patroness, the same coloring, and, when possible, the same type of face. It is not sufficient that an understudy should bear a close physical resemblance to her employer. She must have absorbed her ideas and individuality, and possess good taste and sound judgment in regard to wearing apparel. With such qualifications she can command high prices. Of a certain young woman who represented for dressmaking purposes one of New York's wealthiest ladies it is related that for services extending only over six weeks in 'trying on' and superintending the making of a set of gowns and other garments she received payment at the rate of £10 a week."—[New York Tribune.

Whistling the Gospel.

In a series of revival services in a western church one of the star performers is that of a whistling chorus of sixty boys from the Sunday-schools who can whistle gospel tunes "to beat the band," and some people are shocked at this lack of regard for things and themes religious. But why not? Why isn't it as well to whistle a gospel hymn as to render its music upon some man-made instrument, and why isn't the whistled tune as likely to catch the ear and the heart of some other boy as is the music in any other form? Whistling the gospel message about the street isn't such a bad idea, when you come to think of it.—[Haverhill (Mass.) Gazette.

Theft a Family Legacy.

A Marion (Ind.) dispatch gives a singular instance of inherited criminal tendencies. It says:

Hartley Stilwell of the third generation of the Stilwell family to go to prison, was sentenced today by Judge Paulus of the Circuit Court on the charge of burglary and larceny.

About six months ago Clifford Stilwell was sentenced to the Michigan City Penitentiary on the charge of larceny. About two months ago his son, George Stilwell, was sentenced to the penitentiary on the charge of burglary. Today the same court passed sentence on Hartley Stilwell, a son of George Stilwell and grandson of Clifford Stilwell.

The elder Stilwell is 65 years old, the son is 40 and the grandson is 18.

Japanese tea pot, sugar bowl and creamer. It's a fine value from this great basement economy department. Save money today—that's the slogan. Here are some more items to interest you:

OWENS RIVER BILLS SURE TO BE PASSED.

[BY DIRECT WIRE TO THE TIMES.]

SACRAMENTO, Feb. 8.—[Exclusive Dispatch.] Every assurance is given now that the two bills before the Legislature concerning the Owens River project will become laws. The Senate Judiciary Committee reported favorably this evening on Senator Carter's bill, which aims to facilitate the sale of bonds, and the measure will take its place on file at once, reasonably certain of passage.

Having seen the railroad and the bond bills through Senate and Assembly Committees, Attorney W. B. Mathews of the Los Angeles Aqueduct Commission left this evening for San Francisco, en route home. He will return early next week to watch the progress of the bills through both houses.

As the matter stands now, the bill authorizing the building of a railroad and other works has passed the Senate, has been approved by the Assembly Committee on Municipal Corporations, and is about to be placed on its passage in the lower house. The bond measure has been reported upon favorably by the Senate Committee on Judiciary and by the Assembly Committee on Municipal Corporations, and will be placed on its passage next week in both houses.

Unless opposition develops that is not now in evidence, the bills should be passed before the close of another week.

ORANGES
"From our trees to your table" in 24 hours

—A good way to get good oranges
—to get them fresh
—and to save extra intermediate expense.

$1.95 Per Bushel Basket

California's favorite navels from nature's favorite spot for growing them. Right in their prime now, as sweet and juicy and highly flavored as an orange can be.

SPORTING PAGE.

NEW TEACHER OF ATHLETICS.

Los Angeles Athletic Club Gets "Treloar."

Won Rich Prize as Perfectly Developed Man.

High Up in Arts of Wrestling and Rowing.

Athletic interests in Southern California were made richer yesterday by the arrival in this city of A. T. Jennings, who is better known to the vaudeville circuit as Al Treloar.

He is the new physical director or athletic instructor of the Los Angeles Athletic Club, and he must be the real article, for that real athletic sport, Frank Garbutt, who is one of the guiding stars of the athletic club, has been for the last six months combing the entire country for the best instructor that could be secured, and Treloar is the result.

Unlike most athletes, he is not strong in the back and weak in the head, for his head is also strong. He is a Harvard man who was in the 'varsity eight, and hails from classic Bolton, the home of Blank verse, baked beans, John L. Sullivan and the inspiration for Rose Cleveland's ethical essays. He doubtless broke away from Boston as soon as he could, for he next appears successively as a member of the Harvard eight, assistant physical instructor of the Harvard summer school for athletics, winner of the $1000 prize in New York for the most perfectly developed man, physical director of the St. Paul Athletic Club, Orpheum circuit strong man, who can lift a horse with one hand, and now physical director of the Los Angeles Athletic Club.

He is a gentlemanly young man, and is said to be a star performer and instructor in wrestling, rowing and physical culture, and certainly comes here very highly recommended. His special feature is said to be physical training for business men who have not the time to take an athletic course of work. He naturally understands physical work for all kinds of people, and the members of the athletic club who know of him think they have a real prize. He reported at the club yesterday and will begin his duties next Monday morning.

He succeeds C. F. Coaking, the present instructor, who has private business interests in Arizona that demand his attention. Coaking has given excellent satisfaction, but greater things are expected of Jennings, owing to his more varied experience.

MANNING EXPLAINS.

SAYS HE IS NOT TO BLAME.

Billy Manning says he is not to blame for the trouble with Eddie Robinson, which resulted in the men being matched to fight a grudge battle before the Pacific Athletic Club. He says that though he made the first remarks, he did not dream of causing trouble or hard feelings, and that Robinson made the first real offensive remarks.

Several friends suggested that the men patch up their differences, but the referee deemed it too good to those who want to see gore split, and the grudge adds spice to the contest. The match has attracted more local attention than any of the big fights in a long time. It looks better to many than the O'Brien slaughter-house affair scheduled for the same evening.

NEIL UNABLE TO MAKE WEIGHT.

JIMMY WALSH CLAIMS BANTAM CHAMPIONSHIP.

San Francisco Boy Virtually Admits That He Cannot Again Do 116 Pounds by Demanding Same Conditions That Prevailed in the Attell-Walsh Battle Here.

Jimmy Walsh claims the bantamweight championship of the world. Eddie Keevin, his manager, made a formal claim on the title last night, when Neil telegraphed demanding that the Boston boy meet him under the same conditions he met Attell, thus creating the impression that he cannot do the weight of 116 pounds, which is the bantam limit.

"I have tried in every way possible to secure a match between Walsh and Neil," said Keevin, last night, "and Neil has ignored our challenges until today. It is not a fight at any hazards that we want out of Neil. We want the bantamweight title, and up to now Neil has had the best claim to it since Bowker became too heavy.

"Now that Neil virtually admits that he cannot do the weight by demanding the same conditions which prevailed in the Attell-Walsh match, I shall claim the bantam title for Jimmy. I believe I have exhausted all means of inducing Neil to fight. While we would rather fight for the title, we will not spurn it if it falls our way by default."

No other boy in the world, weighing 116 pounds, has as good a claim to the title as Walsh. Digger Stanley of England and Kid Murphy of New York are the only boys of reputation, who have a show to contest the title with Walsh. Jimmy defeated Stanley in their last meeting, and Murphy has not beaten the men of class that Walsh has. A battle between these two to settle the title should prove a good card. Percie Cove, of Seattle, at least has claim to a match at no distant date.

GANS ADMITS MATCH IS OFF.

(BY DIRECT WIRE TO THE TIMES.)

PHILADELPHIA, Feb. 8.—Joe Gans today announced that his match with Harry Lewis has been declared off. Gans says that Lewis was not satisfied with the purse, which was arranged on the basis of 75 and 25 per cent, when the preliminary agreement was signed. He says Lewis now wants the purse divided on a basis of 60 and 40 per cent.

A. T. JENNINGS ("TRELOAR.")
Ex-Harvard athletic and rowing instructor just secured as teacher by Los Angeles Athletic Club.

SENDS RACING BILL BACK TO ASSEMBLY.

BY S. FRANK GREAVES.

[BY DIRECT WIRE TO THE TIMES.]

SACRAMENTO, Feb. 8.—[Exclusive Dispatch.] Eshelman's anti-race-track bill was reported back to the Assembly today, without recommendation, by the Committee on Public Morals. This treatment is a little more gentle than the author had expected. He had looked for an adverse report. Now that the matter will be fairly before the Assembly next week the fight will begin to secure its passage. Eshelman has been ill, but probably will be in trim for the fray at the proper time, and will make a desperate effort to win.

It is predicted that the bill will pass the Assembly, but no hopes are held out for it in the Senate, where Senator Leavitt, who is interested in the Emeryville track as a concessionaire and otherwise, awaits it with a bludgeon.

While the Los Angeles delegation generally is opposed to race-track gambling, because of the strong sentiment at home, there appears to be a lack of effort on the part of friends of the Eshelman measure to secure its passage.

There seems to be no concerted movement in the State to cut out the gambling appendix of the tracks, and thus to kill the racing game. Few of the legislators are in receipt of petitions, asking them to pass an anti-gambling law. If they vote to do so, it will be largely upon their initiative. Two years ago there was a loud clamor for abolition of pool selling. Little of it is heard at this session.

PRESTON ON THREE WINNERS.

ASCOT'S BEST JOCKEY RIDES IN FINISHED STYLE.

Failed to Land His First Mount Better Than Second—Programme Is Very Poor One and There Is But One Race That Showed Any Class. Four Favorites First.

Jockey Preston, the best rider at Ascot Park, rode three winners and was second in another one yesterday at the races and all of these in four mounts. McDaniel finished first on two and Knapp on the other winner. The card was a poor one, there being but one race, the fourth, that had anything but cheap horses in it. In this, Don Domo picked up 112 pounds and gave a sound beating to Sanfara. Ed Ball and Platoon. Favorites won four of the six races and the good things. Giovanni Balerio and Robert Mitchell taking the last two events. Aside from the fine riding of Preston, there were no features.

Results:

Six furlongs: Mary Glenn, 105 (McDaniel,) 9 to 10, won; Susie Christian, 105 (Brussel,) 4 to 1, second; Hattie Carr, 105 (Hennessey,) 15 to 1, third; time, 1:15. Joyner, Lizzie Albertine, Lydia Wrouseman, Suavita, Fox Lake and Magnificio also ran.

Mile and fifty yards: Cadichon, 105 (McDaniel,) even, won; Gold Spot, 103 (Neubert,) 20 to 1, second; Piquet, 105 (Fischer,) 5 to 1, third; time, 1:45¼. Morendo, Luckett, Theo. Case, Henry Waite and Netting also ran. Freesias and Ero Pyro scratched.

Six furlongs: Kilter, 108 (Knapp,) 7 to 5, won; Common Sue, 103 (Preston,) 2 to 1, second; Illusion, 103 (Talbert,) 12 to 1, third; time, 1:15. Curriculum, Lady Kitty, Airs, Royal Ben, St. Edgar, Antrim and Bankara also ran. King Ahab and Livius scratched.

Six furlongs: Don Domo, 112 (Preston,) 8 to 5, won; Sanfara, 115, (Harris,) 3 to 2, second; Ed Ball, 103 (Finn,) 7 to 1, third; time, 1:13⅘. Platoon, Miutia and Bryan also ran.

Six furlongs: Giovanni Balerio, 107 (Preston,) 11 to 5, won; Bologna, 110 (McDaniel,) 11 to 5, second; Bribery, 105 (Rose,) 12 to 5, third; time, 1:15. Masapan, Prince Ching, Joe Kelly and Beautiful and Best also ran. Redan, Masedo and Ellerd scratched.

Mile and fifty yards: Robert Mitchell, 105 (Preston,) 2 to 1, won; Hi Caul Cap, 105 (Kunz,) 8 to 5, second; J. V. Kirby, 105 (McDaniel,) 8 to 1, third; time 1:47⅘. Expedient, Moor, Neversuch, Baldo, Myrtle H., Circus, Mohur and Phyz also ran.

RACES AT OAKLAND.

TOM WILLIAMS WINS AGAIN.

[BY THE ASSOCIATED PRESS—P.M.]

SAN FRANCISCO, Feb. 8.—At Emeryville today the colors of President Williams were again in evidence, his Huerfano came in an easy winner from Bogum in the second race. Byronerdale had little trouble in capturing the mile and a quarter race, but Jake Moose was a strong second. Results:

Five furlongs: Calla, 110 (Williams,) 4 to 1, won; Berties A., 110 (Lurgus,) 12 to 1, second; Rosy Light, 106 (McBride,) 20 to 1, third; time 1:02 3-5. Calendar Bill, Fritzi Ferri, Elia Troe, Lelitia S., Jezebel, Nopsey and Sachet also ran.

Six and a half furlongs: Huerfano 108 (Miller,) 7 to 1, won; Bogum, 107 (Williams,) 10 to 1, second; Duke of Orleans, 109 (Kelly,) 5 to 1 third; time 1:22 1-5. Handmaiden Peerless Lass, Silver Line and Alaric also ran.

Futurity course: Princess Wheeler, 107 (Rettig,) 5 to 1, won; Frollo, 108 (McBride,) 4 to 1, second; Hersain, 107 (Sandy,) 7 to 1, third; time 1:14. Joe Jones, The Reprobate, Jake Ward, Yo San, Tipsaldor, Prestige, M. A. Powell, Swagger and Bon Vivant also ran.

Mile and a quarter, selling: Byronerdale, 100 (Williams,) 4 to 1, won; Jake Moose, 104 (Hunter,) 11 to 5, second; Ninespot, 102 (Leycargus) 5 to 1, third; time 2:12. Orchan, Iras and Lone Wolf also ran.

One mile: Salable, 102 (McRae,) 7 to 2, won; W. B. Gates, 107 (Brown,) 6 to 1, second; Roila, 102 (Hunter,) 8 to 1, third; time 1:44 2-5. Bonar, Talamund, Warte Nicht, Fury, Sir Carter, Royal Red, Gallex, Chappaqua and El Chiquahua also ran.

Futurity course: Tocolaw, 112 (Brown,) 13 to 5, won; Aaron J., 109 (Hildebrand,) 4 to 1, second; Funnyside, 107 (Mentry,) 10 to 1 third; time 1:12 2-5. Hedgethorn Jerry Sharp, Nigrette, Royal Ascot, H. McGovern, Pollitle and Bill Parry also ran.

Hot Springs Card.

HOT SPRINGS (Ark.) Feb. 8.—Oaklawn results:

Three furlongs: Manchester won, Shilling second, Albert M. third; time 34 2-5.

Three furlongs: Ida May won, Dandy Dancer second, Lady Hapsburg third; time 36.

Five furlongs: Storm won, Theodosia second, Tyrolian third; time 1:03.

Seven furlongs: Viperine won, Rustling Silk second, Shenandoah third; time 1:28 4-5.

One mile: John Garner won, Mrs. Annie second, Marimbo third; time 1:41 4-5.

Mile and seventy yards: Cross Grain won, J. D. Dunn second, Merrick third; time 1:47 4-5.

Events at New Orleans.

NEW ORLEANS, Feb. 8.—City Park results:

Three and a half furlongs: Stephen won, Jimmy H. second, Brawny Lad third; time 44 2-5.

Seven furlongs: Clifton Forge won, Asterisk second, Grenade third; time 1:28 3-5.

Mile: Cora Price won, Sicamous second, Kaiser Hoff third; time 1:42 2-5.

Seven furlongs: Bauil won, Heart of Hyacinth second, Cobmona third; time 1:29 1-5.

Handicap, mile and an eighth: Missouri Lad won, Besterling second, Goldic third; time 1:54 3-5.

Five furlongs: Planute won, Dinemock second, Little George third; time 1:01.

Mile and a sixteenth: Evie Green won, Gold Coin second, Coldess third; time 1:48 1-5.

LITTLEPAGE BEST MAN.

Scores Highest Number of Points in Try-out Meet for Y.M.C.A.—Other Winners.

The Y.M.C.A. held its indoor athletic try-out last night, in the gymnasium at No. 853 S. Spring street, and the following men were chosen to represent the Los Angeles Association in the coming meet at Pasadena for the indoor athletic championship of Southern California: Claude Littlepage, D. B. Cromwell and R. E. Squire.

Littlepage scored the highest number of points, coming in at the conclusion of the five events with 413 out of a possible 500. Cromwell came in a close second with 405½ to his credit, and Squire was third with 389. With men who can make such scores in a preliminary meet to represent her the local association expects to be an important factor in the coming meet. The other two of the contestants who made scores of over 360 were F. A. Beebe, 329; and William Sholes, 322.

The score by events went as follows:

Broad jump, three jumps—Squires, Sholes, Cromwell; distance 30 ft., 4½ in.

Fence vault—Littlepage, Squires, Cromwell and Beebe tied for third place; height, 6 ft., 4½ in.

High jump—Littlepage, Cromwell, Squire; height, 5 ft., 2⅝ in.

Twelve-pound shot-put—Cromwell, Beebe, Littlepage; distance, 42 ft., 8 in.

Quarter-mile block race—Littlepage, Sholes, Cromwell; time, 1 min., 43 sec.

Gotch Beats Burns.

BIRMINGHAM (Ala.) Feb. 8.—Frank Gotch, champion wrestler, defeated Farmer Burns last night, taking the first and third falls. Gotch won the first fall in thirty-one minutes. Burns took the second in six minutes, and Gotch the third in twenty-one minutes.

Only One "Bromo Quinine."

That is LAXATIVE BROMO Quinine. Similarly named remedies sometimes deceive. The first and original cold tablet is a white package with black and red lettering and bears the signature of E. W. GROVE. 25c.

OFFERS CUP FOR HORSES.

[BY THE ASSOCIATED PRESS—P.M.]

NEW YORK, Feb. 8.—The council of the English Hackney Horse Society has resolved to offer to the New York horse show, as a mark of the friendly feeling of the English breeders, a cup valued at $500. The conditions will be settled at the society's next meeting.

OCCIDENTAL TO MEET PASADENA.

Y.M.C.A. BOYS AFTER HONORS ON THE CINDER PATH.

Capt. Bird Expected to Capture the Most Points for Presbyterians. Hotaling Looked to for Winning Stunts by the "Crown of the Valley" Aggregation.

The first important meet of the local track season will be held this afternoon between Occidental and Pasadena Y.M.C.A. on the Presbyterian campus. Occidental students held a rally yesterday at which President Baer and several track men delivered speeches. The silver and bronze medals which are to be awarded were on exhibition.

The Pasadena aggregation is stronger than ever this year. Hotaling, formerly of Pasadena High School, has been added to their number, and he will appear in the hurdle races and broad jump.

The Presbyterians have lost Roth, who has dropped out of his classes. He was the best distance man in Southern California for three years. He also is missed on the basketball team, of which he was captain.

Capt. Bird is in excellent shape for the meet today and should make things interesting in the sprints. Hodge will run the 220-yard dash, and is expected to cover the distance in record-breaking time, if competition is strong.

The Occidental entries in the relay race are all capable of running the distance in less than 54 seconds, and the Presbyterians are confident that they will have a walk-away of this event.

A basketball game will be played between the Occidental and Pasadena Y.M.C.A. teams at the same time the track meet is being held.

The entries:

The 100-yard dash—Occidental: Bird, Blee, Clarke; Pasadena: Hotaling, Risdon, Lacey.

The 220-yard dash—Occidental: Bird, Blee, Clarke; Pasadena: Risdon, Lacey.

The 440-yard dash—Occidental: Blee, Rush, Bonner, Munsey, W. Thomson; Pasadena: Smith, Kern, Flanders.

The 880-yard run—Occidental: Spring, Hodge, Baer, Highstreet; Pasadena: Smith.

One-mile run—Occidental: Carver, Clever, Patterson, Highstreet; Pasadena: no entries.

Two-mile run—Occidental: Conrad, Gordon, List, Bachtell; Pasadena: no entries.

The 120-yard hurdle race—Occidental: Thomson, Wieman; Pasadena: Hotaling, Carns.

The 220-yard hurdle race—Occidental: Hodge, Thomson, Wieman; Pasadena: Risdon, Kern.

High jump—Occidental: Lowry, K. Gordon, McKee; Pasadena: Tyler, Hotaling, Murray, Risdon, Wolfe.

Broad jump—Occidental: Newman, Thomas, Trask; Pasadena: Hotaling, Carns, Smith.

Pole vault—Occidental: B. Merrill, Thomas, K. Gordon; Pasadena: Carns, Wolf, Davis.

Shot put — Occidental: Conrad, Clarke, Thomson, Marshall, Thacker; Pasadena: Tyler, Hendricks, Murray, Thompson.

Hammer throw—Occidental: Clarke, Marshall, Thomson; Pasadena: Hendricks, Thompson, Tyler, Murray.

One-mile relay race — Occidental: Bird, Bonner, Hodge, Clarke; Pasadena: Kern, Flanders, Smith, Risdon.

POMONA AND ST. VINCENT'S.

Basketball Fives to Play Important Collegiate Engagement at Claremont Today.

CLAREMONT, Feb. 8.—Pomona College will line up against St. Vincent's College in the second of the intercollegiate basketball games to be played here, Saturday afternoon.

The Pomona men have been "shot to pieces" the by injuries, the past week, and will not put up their full strength. McKee has a sprained ankle, which has interfered with his practice, this week, but probably he will play part of the game. Mahoney, the other guard, has also been out of the game because of a sore leg, but may play. The remainder of the team will be Brown at center, and Hayes and Metcalf, guards.

The freshmen boys will oppose the sophomores in the first of the men's interclass games on Tuesday afternoon.

S. Hayes has been elected freshman captain, and Lester Metcalf will captain the sophomores.

In the women's series there remains the junior, freshmen and the sophomore-freshman games are yet to be played.

The standing in the class league is:

	Played.	Won.	Lost.	Pct.
Juniors	2	2	0	1000
Sophomores	2	1	1	.500
Freshmen	3	2	1	.666
Preps	3	1	2	.333

SAINTS ARE READY.

The Saints' basketball five is ready to journey to Pomona to meet the team of that place, today. This will be the seventh intercollegiate game in which the Catholics have participated this year. Out of the six games played so far, they have tasted defeat but once, giving them an equal percentage with Whittier. The St. Vincent's rooters claim the game lost to Whittier was played when the team was in a crippled condition. Cunningham, Lamar and Dolan being on the sick list. By defeating Occidental last Wednesday the Saints are in the position to fight it out with Whittier, as Occidental defeated Pomona, and the Saints have the expectations of doing the trick also.

NEW GOLF CHAMPION.

(BY DIRECT WIRE TO THE TIMES.)

SAN DIEGO, Feb. 8.—[Exclusive Dispatch.] H. A. Waters of Brooklyn won the final round in the men's golf tournament and the 1907 championship of the Coronado Country Club, today, by defeating A. B. Daniels, the millionaire of Denver, winning at the thirty-second hole, the score being five up and four to play.

Waters will have his name engraved on the silver trophy offered by the club, and will receive a replica of the cup. Waters is easily the best golf player numbered among the Hotel del Coronado guests for many years.

SATURDAY SPECIALS
At the Sixth Street Store

A regular "bargain list," but one that will pay you to scan closely. To start with:

$20 Ready and Right Suits, $13.75.
One lot of $22.50 to $25.00 Suits, $16.75.
$30.00 and $35.00 Ready and Right Suits, $20.00.
$2.00 and $2.50 Hats, broken sizes, $1.35.
$1.00 and $1.50 Men's Shirts, sizes 16, 16½ and 17, 50c.
Children's sweaters, regular $1.25 to $2.00 values, 75c.

These specials look lots better at the store than they do on paper. Of course, everything is Silverwood quality.

At Sixth Street Store Only.

Also Bakersfield and Long Beach

FIRST WHITTIER MEET.

White Does Best Work in Running Two-Mile Race—Other Events Not Noteworthy.

Whittier College held its first track meet of the season on Hadley Field, yesterday morning, the college and preparatory departments meeting. The latter won by the score of 56 to 45. While no records were broken, Coach Thompson was greatly encouraged by the result. The track was in very poor condition, and a hot "Santa Ana" was blowing down the back stretch, which kept the men from doing anywhere near their best.

By far the best work of the day was done by White in the two-mile run. Until yesterday he was considered as only a good second place man to Paramills, the crack miler, but after his magnificent run yesterday he will be one of the mainstays of the Purple and Gold. In the first three quarters he easily distanced Sharpless, his only competitor, and Coach Thompson put on a pair of spikes and paced White the rest of the distance, breaking the wind for him and encouraging him to keep up. On the last lap Thompson quickened the pace, but White gamely stuck to his heels, and the two came down the stretch at a fast gait, the time for the whole distance being 11m. 8s.

Mills was not strong enough to run hard yesterday, but he easily won the mile in 5m. 14s. Blair, the crack half miler was called out of town just before the meet, so the race went to Minchin with ease in 2m. 22s. Adams won the 100-yard dash by a foot. He got a very poor start, but ran a magnificent race in the last 25 yards.

In the 220 Adams and Kerr were the only men to start. They got away almost together, but before they had gone 50 yards Kerr was in the lead. This he gradually increased till he was over 5 yards ahead, about 75 yards from home, when his foot struck a rut and he fell heavily, although he was not seriously hurt. This stopped Adams a little, but he finished the race in 4 4-5s. The field events were all somewhat disappointing. However, Feeler jumped 19ft. in the broad jump, and was unable to get his takeoff, stepping over a foot behind the board. Osburn was away off color in the high jump, falling down at 4ft. 11in., although afterward he easily cleared the bar at 5ft. 2in.

The first outside meet will be held on Washington's birthday, when the University of Southern California Medicals will go to Whittier. The summary of events is as follows:

The 100-yard dash: Adams, Osburn; time, 10 4-5s.

High jump: Newby, Osburn; height, 4ft. 11in.

The 880-yard run: Minchin first, no second; time, 2m. 22s.

Shot put: Maarshburn, Feeler; distance, 31ft. 4in.

High hurdles: Osburn, Holton; time, 18 3-5s.

The 220-yard dash: Adams, Kerr; time, 24 1-5s.

Pole-vault: Williams, Perry; height, 8ft. 9in.

Mile run: Mills, Sharpless; time, 5m. 14s.

Low hurdles: Holton, Osburn; time, 29 1-5s.

Broad jump: Feeler, Kerr; distance, 19ft.

The 440-yard run: Holton, Marshburn; time, 62s.

Two-mile run: White, Sharpless, time, 11m. 9s.

Hammer throw: Richard, Feeler; distance, 99ft.

EVANSTON VS. WHITTIER.

Intersectional Game of Basketball Will Show Respective Styles of Play.

The Whittier College five will meet the crack basket ball team of the Crescent Athletic Club of Evanston, Ill., tonight, in the college gymnasium. The Crescents form one of the fastest teams of the East, and this will be a good opportunity of comparing the playing of the two sections of the country.

Mills, the crack forward of the Quaker team, is back in the game again, and Capt. Todd's knee has fully recovered after a week's rest. The wearers of the purple and gold will go into the contest with the full strength of their team, and if they put up their old-time fast game will at least make the easterners work.

ASSOCIATION FOOTBALL.

Orange Belt Country Proposes to Organize Soccer Teams—Sherman Indians Eager.

[SPECIAL CORRESPONDENCE OF THE TIMES.]

RIVERSIDE, Feb. 8.—Local football enthusiasts are endeavoring to revive the association game in Riverside and also to plan for a league which will include all the towns of Southern California. A preliminary meeting will be held at Chemawa Park, Sunday morning, to devise ways and means for securing a team.

If a league is organized Sherman Institute will have a team, as the husky Indian lads are keenly interested in the game. The Chemawa Park grounds have been secured for practice and games.

TRACK MEET TODAY.

U.S.C. and High School Teams to Contest on Bovard Field—Richardson Expected to Star.

The University of Southern California athletes will measure strength with the Los Angeles High School this afternoon on Bovard field.

The college men are confident of taking a winning number of points with a big margin to spare, though they have the greatest respect for the prowess of the High School youngsters, and in several important events concede first place to the boys on the hill.

Among the features of interest are the 100-yard dash. This lies between Shute of the college and Goodwin of L. A. High. Goodwin's all-round qualities do not handicap him for his speedy dash, and he will give Shute a hard rub.

In the high hurdles Wilbolt ought to win over Comstock and Lennox of the college, for the latter are both new and this is their first season in the steeplechase race. They expect to take second and third, however.

"Richardson is ready to do 11 feet 6 inches in the pole vault Saturday," said Coach Holmes last evening. "The real contest in this event will be between Wilbolt and Comstock for second place."

The shot put and hammer throw are other events which U.S.C.'s star man, Richardson, has in his pocket, according to the dope sheet at the university.

It is in the longer runs that the High School is expected to pile up points. Goodwin is conceded the winner of the 220-yard race, and Seward is expected to cross the tape first in the mile run. Mattox of the High School, who formerly was an attendant of the Oakland High School, should capture first in the half-mile run.

The relay race should be one full of interest and hotly contested. The U.S.C. entries are Klitten, Nordahl, Newmyre, Lennox and Shute.

The result of today's meet will give the Methodists a line on the outcome of the Occidental meet, in which both sides are much interested. These rival aggregations will compete next Friday on Bovard field.

RELIGION INTERFERES.

Basketball Game Postponed Because Services Were Being Held on the Court.

The game of basketball that was to have been played between Occidental College and Riverside Y.M.C.A. on the latter's court, last night, was called off on account of a series of revival meetings which are being held at the Christian Association Hall. The religious services were so absorbing to the Riverside people that they had no time to pass on an athletic contest.

The Occidental team returned home last night after having played but one game on their trip around the kite-shaped track. Although another defeat was chalked up against the team at San Bernardino, a decided improvement was evident in team work and general play.

This afternoon the team will play Pasadena Y.M.C.A. on the Occidental campus before the track meet between these institutions.

Riverside Polo Game.

RIVERSIDE, Feb. 8.—A lively exhibition of polo was given by the Riverside Polo Club at a practice game at Onemawa Park, this afternoon. Many society people were out to watch the game and enjoy the polo tea served in the clubhouse by Mrs. C. M. Loring of Minneapolis, who is passing the winter at the Glenwood.

ALLEGED BAD DOUBLE.

Man Accused of Impersonating Jockey Walsh Is Placed Under Arrest.

Jockey J. Walsh of No. 201½ South Main street caused the arrest of William Croker, through the cleverness of Thomas Carley, early this morning. Walsh declares that Croker has been impersonating him (Walsh,) and has duped tailoring firms, merchants, and particularly admiring friends. A police officer arrested Croker on a suspicion charge.

According to Carley's statement to the police, he learned that Croker was impersonating Walsh. After following him about for awhile, he became suspicious, he says, that Croker was doing more than merely passing himself off for the famous jockey. After conferring with Walsh, Carley says that he decided to ascertain what Croker was doing.

Carley mingled with a crowd of bellboys, and soon heard Croker bragging how he was fooling persons on his identity, and secured Walsh's presents. Carley says Walsh was notified, and insisted upon having Croker arrested at once. When the officer was searching Croker at the Central Station he found two stones, Mexican hyacinths, on his person. These stones Walsh said were given to Croker by Hiller, a mining man.

Walsh said that Hiller was an admirer of his, but until the stones had passed into the wrong hands he did not know him personally. Carley had been shadowing Croker for several hours before the capture was made. Croker claims to have been a bellboy.

RAILROAD IMPROVEMENT.

Professional Agitation Hinders Development.

Changes Necessary to Bring Roads Up to Date.

Discussion of Situation by a Railroad Man.

[Journal of Commerce:] One of the best-known trunk-line railroad men in New York has discussed at some length with a representative of this paper the current demand for railroad legislation. He took the ground that conditions had already reached a stage of action at Washington was just the way of making the transportation lines of the country in fact, as in name, common carriers. "There is no question whatever," he said, "and I think every railroad man agrees, that the question of rebates and unfair rates and discrimination in favor of large shippers as against small shippers—all these were matters which could only be remedied by means of the Elkins law and the strong powers taken by President Roosevelt. When these evils had been corrected Washington had completed all that it could do to benefit the American people, so far as railroad transportation is concerned.

"The current agitation is merely a matter of starting at the wrong end and is the most desirable results. The country has been passing through a period of economy in railroad building, in building new lines and branch lines and terminals—and the traffic of the country has far more than caught up with the facilities. The railroad people fully realize this, and are anxious, as all business men, to correct it as soon as they can get at it once. But they find themselves utterly helpless as a result of the blind and antagonistic attitude at Washington toward railroads as a whole. Railroad improvement means the expenditure of immense sums of money, for it is not merely a matter of cars and locomotives, but it is a matter of the construction of bridges that will accommodate the modern rolling stock, and the construction of roadbed for the heavier traffic. Every few years cars and engines were so small that they had to be moved along with a pinch-bar from place to place; and still later on, as the number of horses could readily transport them as needed. Today nothing but a locomotive can move the freight that is offered, and in order to compete it is necessary for all roads to have this improved, modern form of equipment.

LARGE CAPITAL NEEDED.

"It will readily be seen that immense sums are needed, therefore, to place all the railroads of the country, and especially the comparatively small ones who have been backward in recognizing the demands of the public, on a modern and efficient basis. Now, then, the point I wish to make is that neither can the President can by any possible means obtain any practical result by the way of promoting efficiency and economy of operation. This country has the lowest railroad rates in the world, as he has but our nearest competitors, for the same class. What-ever losses or liabilities may be incurred by the railroads in the form of rebates, past, of course, be paid for merchandise that is shipped; so far as it is concerned, no excuse for the railroads, my experiences me that shippers do not care how low a rate is, providing a profit is not receiving a still rate. It does not matter, for instance, to a shipper of grain if he pays a few hundred from Chicago instead of it costs, providing the same rate, there, if practical results could be had as a result of the current agitation against the transportation companies. I am quite sure no protest would be made on behalf of the transportation companies. But railroad men throughout the country are in a position where they are the best practical judges in this respect; and I think it will be found unanimously of the opinion that the cure—and the only cure for the present congested and deplorable situation is the immediate commencement of an era of excessive railroad construction. This cannot be done unless enormous sums can be provided to finance the improvements which is tantamount to saying that under present conditions of governmental control they cannot be begun at all.

RAILROAD RATES TOO LOW.

"We must not forget that the railroads are attempting the almost impossible feat of maintaining rates of transportation that were justified only when the cost of operation, of maintenance and of construction was possibly 60 per cent lower than it is today. The railroads have not in a broad sense advanced their rates, and I think that the reason for this may be said to be because they did not and do not wish, in view of the current agitation being obviously aimed at them, to provoke public outcry in this respect. Some has participated in this increase in the cost of operation to an extent that I am sure, the public has no conception of. It has not been merely an increase in wages, but has been the result of a general curtailment of the hours of labor per day, so that the candle has been burned at both ends, and the railroads have themselves compelled to pay much more for a shorter day. This, of course, has meant a great increase in the number of employés at the higher rates paid, so that, in addition to the immense supply of rolling stock to meet the unprecedented demand for transportation facilities, the railroads have been handicapped by a severe famine of labor. This, for instance, is a thing that I can hardly see can be remedied by legislation.

TERMINAL YARD FACILITIES.

"What are chiefly needed are facilities for handling the present equipment more rapidly than is possible under the present congested conditions, which means tremendous increases in the terminal facilities. In other words, cars must be loaded promptly and unloaded as promptly, and the former follow the latter. An example of how difficult it is even to take this action may be instanced in the case of the Reading yard at Philadelphia, where there is accommodation for, say, 5000 cars. The Reading should certainly have facilities for handling 800 cars at a time, and yet the land necessary for the enlargement has been bought by the Pennsylvania capitalists, who, it is said, require an investment of $4,000,000. Now on a short line like the Reading, whose proportion on a car mileage basis, for instance, would be $1,000 per mile, an investment of $4,000,000 would be considered a profitable one, while in the case of the Pennsylvania, which receives practically all its haul from Chicago, a similar investment could not be questioned. Nothing could be done once more to the old idea of patchwork. It is hardly worth while to say that the necessary improvements;

DEMURRAGE CHARGES.

"Another matter that should be placed under Federal control is that of demurrage on cars. The various State laws are inadequate in this respect and the delay in unloading cars is without question one of the most serious of the current causes of congestion. A rate of $1 per day per car, while perhaps a very fair figure in a small town, has no effect whatever in releasing cars at a New York terminal. Take a receiver of a carload of grease, for instance, who does not wish to take the merchandise to warehouse. He is perfectly willing to pay $1 per day for his storage until the entire load has been sold and delivered to his customers, and that principle seems to control any number of trades in New York. I do not mean to say that demurrage evils are all on one side. The railroad, when at fault, should pay for delay, at any rate for damage caused by delay—acts of God excluded; and I certainly should favor the introduction of the English law in regard to carriers, namely, that the railroads be liable to the shipper or consignee for such loss as he can prove that he has suffered by the unreasonable delay. This is a matter that would probably, in instances, have to be passed upon by the courts, but railroads as a rule are very anxious to settle disputes of this character out of court, probably to some extent as the result of the general antagonism to them when they get into court."

GOOD SUGGESTIONS FOR CARE OF DOGS.

FROM the time he opens his eyes in the morning until he is "dead-dog" tired at night, the pup should never have to hunt for a drink. And even at night water should be always within easy reach of his box. What a common sight it is to see a doting mistress mauling "Fido" and wondering why he is not playful? How often we see her remember to give the poor thing a drink after half a day's neglect? A caller drops in unexpectedly, or she starts off without warning on a shopping tour—and forgets the dog. Arrangements should be made so that no one will have to remember him. Always have a dish of fresh water where the dog can find it, when it occurs to him to take a drink.

In raising any animal it is essential to investigate the natural instinct. And although it is frequently necessary to curb or modify the natural desires, the fundamental instinct must never be ignored.

Some fine day take a healthy dog for a run in the foothills, where there is an abundance of water. First he stops at a brook in the cañon and paddles about, lapping a small quantity. Off he chases at top speed, full of the joy of living, until a clear pool tempts him. And so he goes from one place to another, drinking at each. There is no gulping of large quantities—that is a sign of some disorder. In fact, the method of drinking is one of the indices of condition. He drinks in moderation; often with great delicacy; in fact, he may just wet the tongue or lips.

Now, when these free sources of supply are denied, we must make artificial provisions, being careful to meet all requirements. Provide as large a vessel as can be cared for without undue trouble—that leads to neglect—and let it be used for the one purpose only. Keep it as scrupulously clean as your own dishes. The water should be clean and fresh. In summer put the drinking pail in a place sheltered from sun and dust. If it is convenient to have it under a hydrant, so much the better; a small, continuous flow of water insures freshness.

In the house, greater inconvenience is encountered, but may be overcome easily. Puppies have enormous difficulty with their feet, which are always too large for them to handle. Their favorite stunt is to walk into the water dish with all fours, and then there is trouble for the housekeeper. If they manage to avoid this calamity, they slop and splash the carpet. The first evil may be remedied by the use of the non-upsettable puppy dish. This is made broad at the bottom, so that the pup may fall in, but cannot overturn it. The pet shops carry a line of these, in all materials. They are not only inexpensive, but indispensable. For the second evil, set the dish on a small tray. This will require little space, and the carpet and washboard will be saved by it.

Numbers of cases are known where inexperienced owners of good dogs refrain from the use of bones. "The breeder from whom I bought the dog said 'never give him bones.'" This is their explanation. Such advice shows either ignorance or some ulterior motive. The beneficial qualities of proper bones is not a question of dispute among either scientific men or successful breeders. Besides, a dog will get more enjoyment out of a good, sweet bone than will the small boy with a bag of marbles. If you want proof, watch him some time when he thinks he is alone and unobserved. Solid comfort and contentment are written in his every action.

Medicinally, bones slupply a necessary quantity of lime. Bone dust is often mixed with the food for certain results, and if given in proper quantities is very good at times, but unless occasion calls for it, the dog should extract it himself. The dog suffers from too much lime, and is often constipated as a result. Two or three good, solid bones a week will be sufficient. If the dog is allowed to gnaw all the time, his teeth will be worn out before he is out of his prime. This gives a comparative youngster the appearance of being old.

The best varieties are the larger beef and mutton bones, which are tough, but not unduly hard. Fowl bones must never be given after the teeth have developed. Instead of crumbling, they split into sharp pieces, which, when swallowed, will frequently pierce the intestines as easily as a needle. The same is true of chops and similar varieties, except that, instead of splitting up like needles, they break off in layers, with keen knife-like edges, causing the same distressing results.

Large chicken or turkey bones may be given to very young puppies having only their milk teeth. The lower joint of the leg is comparatively soft and juicy. If all loose pieces of bone be cut off, the youngster can get more satisfaction from it than from harder ones.

One benefit the pup derives from bones corresponds to the effect of the usual ring given to teething babies. It loosens the first teeth and helps the second to come through. A pup will gnaw. If bones are desired the furniture will suffer. Prevent him from gnawing at all, and the first teeth will fail to drop out in time to make room for the real set. Consequently, we frequently see a fine specimen with crooked teeth. This spoils the expression.

TENNIS SITUATION.

Big Northern Universities Have Uncertain Material from Which to Pick Champions.

The tennis situation at Stanford University and the University of California is not the brightest one in the history of the sport at the universities. The prospects of a closely-contested tournament when the racquet wielders meet in the annual contest in April, depends considerably on Stanford's ability to develop some champions by the time the tennis date arrives. Not since 1900 has Stanford enjoyed the privilege of carrying off the deciding points in the intercollegiate meet, and in this respect the fortunes of the net experts at Stanford have been similar to those experienced by the track athletes at the same institution, for it was not until the arrival of Dan Moulton, in 1900, that the cardinal runners were able to defeat the track team at Berkeley.

Last year the earthquake put a stop to any final contest between the two universities, with the result that no line can be drawn as to the material left over from the tennis squads at both places. The ability of Herbert Long, who entered California a year ago, is well known. He won the State championship on July 4, last year, from Fred Adams, and has figured prominently in the tournaments about the bay. Melville Long, a brother to the State champion, entered the university this term, and he will, no doubt, be a member of the university team when the meet with Stanford takes place. Melville holds the Coast championship, which he won from George Janes at San Rafael on September 9. Since entering college, Herbert has annexed the title of college champion at Berkeley.

California will be well represented this year, and no more formidable team than the two brothers could be sent against the cardinal at any time. Stanford has not been so fortunate in drawing tennis material and the present season finds the aggregation down the bay in a fair way to lose to their more developed rivals at Berkeley. In Gowan and Henry, however, there is a possibility of a winning team and it would not be good judgment to overlook their ability, as they have already given evidence of considerable talent.

Of the total number of tennis matches, Stanford has won but four, and there have been fifteen contests since the inauguration of this branch of intercollegiate sport in 1892.

POWER BOAT RACES.

New Rochelle Yacht Club to Have Charge of Run to Marblehead and Return.

NEW YORK, Feb. 9.—The long-distance power boat race of 270 miles, to Marblehead, will be held this year under the flag of the New Rochelle Yacht Club. The conditions will be the same as last year, except that the minimum length of yachts entered will be thirty feet over all instead of thirty feet on the water line. The start is to be from off New Rochelle on the morning of July 20, and the course will be the same as last year, the yachts finishing off the Eastern Yacht Club, Marblehead. The prize is a handsome cup, presented by Eben Stevens, commodore of the Deba Inlet Yacht Club. He is the owner of the Sis, winner of last year's race.

The first race was run in 1905, under the flag of the Knickerbocker Yacht Club, for a cup presented by Thomas Fleming Day. Twelve boats started, but encountered a gale of wind and only three finished. The race was won by the Talisman in 45 hours 24 minutes.

The second race was in 1906, for a cup presented by the Knickerbocker Yacht Club. Fourteen started and twelve finished. The Sis won the race in 34 hours 39 minutes.

This year a large fleet will start, as more than twenty boats are building especially for the race. The committee in charge of the race is comprised of Thomas Fleming Day, R. M. Haddock and B. B. Wright.

ANGLERS TO MEET.

Important Business to Come Before Rod and Reel Session This Week.

Members of the Southern California Rod and Reel Club will meet this week in Blanchard Hall to elect officers, talk over the legislative situation at Sacramento and attend to a considerable volume of very important piscatorial business which they desire to clear away as soon as possible in order that the new year may be started with a clean sheet.

The legislative situation is to be discussed at some length at the meeting, and a number of communications are to be offered. It is desired that there be an especially large turnout, and preparation will be made for one.

The buttons recently adopted by the club have been received and a number of the members are wearing them. They are very tasteful little affairs, emblematic of the sport.

BUSHERS QUIT PORTLAND.

Afraid to Tackle Best City in Northwest—Phony Bunch Will Manage Teams.

The Northwest bush league baseball outfit has given up all hopes of getting Portland into the league, and it may be possible that Seattle will be "relinquished" if the Coast league shows any great desire to keep the Siwash town. McCreedie of Portland says he will see that a Coast league team is placed in Seattle, or rather kept there, but the advisability of doing this is still doubtful from the fact that the Seattle fans don't want anything but busher ball. They think what they will get is good ball, and it probably is for them.

They are having trouble up there already over their baseball situation, for they have not completed their six-club league. They now claim to have Seattle, Butte, Tacoma, Gray's Harbor and Spokane, and may take in Vancouver. The managers of the five teams are as follows: Seattle, Dugdale; Gray's Harbor, Matt Stanley; Spokane, Charley Swindells; Butte, Russ Tall, and Tacoma, Mike Lynch. If this isn't the kind to furnish bush league ball, there is no other bunco that can.

SYSONBY IN STRIDE.

Bones of Great Racehorse to Be Mounted and Placed in Life-like Position.

NEW YORK, Feb. 9.—Officials of the American Museum of Natural History have decided to have the bones of Sysonby, James R. Keene's great race horse, which died early last summer, mounted as showing him in his stride. When the mounting is completed the horse will be placed in the wing of the museum, where Wilmer Wilkes, the trotter, is on exhibition. Dr. S. H. Chubb, osteologist of the museum, is preparing Sysonby's bones. Prof. Herman C. Bumpus, director, said, in an interview: "We have decided to have the greatest race horse of his day appear as if he was racing and striving his hardest to win. For that reason Sysonby will be mounted in his full stride."

The bones have been disarticulated, but the mounting of the skeleton will be a long, tedious undertaking. Dr. Chubb has decided to make repeated visits to the race tracks and take instantaneous photographs of thoroughbreds galloping. This will be done so that the pose and movement of the racers can be studied carefully. When Dr. Chubb has studied sufficiently to prepare the skeleton he will be able to show Sysonby as if at top speed.

Sysonby was buried about two months before disinterment, and in consequence autopsical results were not complete. Dr. Chubb found, however, that the horse had lungs of great power and depth, and the so-called cannon bones, between the knee and ankle, were unusually long and slender, typical of a racer. Dr. Chubb said that the public will be surprised when the mounting is complete, to find the position in which Sysonby's feet will be placed. He said the ordinary idea that the action of the fore and hind legs is simultaneous is erroneous.

A Singing Well.

Near Weiderman's, Texas, is an abandoned well about sixty feet deep, and overgrown with vegetation, which states an official of the government, is noted in the neighborhood for its musical powers.

In fine weather, particularly with a western wind, it gives forth a sound like that of an Aeolian harp, swelling and dying away by turns. When there is a heavy northerly wind blowing, the water rises within a few feet of the top, and strange noises, which some persons think resemble moans, issue from the old well.

An attempt to fill up the well a few years ago failed, apparently because of the existence of a subterranean cavity which swallowed up the dirt as fast as it was dumped in.

Coffins for Birds.

A branch of business conducted by a Philadelphia establishment devoted to supplying and boarding feathered pets is that of preparing dead birds for burial. Children who have lost their canaries or other songsters through disease or accident, bring the little cadavers to the store to be laid out in becoming style. Tiny coffins, each just large enough for a bird, are kept in stock, also quantities of pale pink and blue cotton. The latter is used for filling the bird coffin, and on this the bird is laid. The effect when birdie's body is "decently" composed on the pink and blue cotton is sufficient to console the little mourning master or mistress. The children then convey their coffin away for burial. Funeral expenses are light.—[New York Tribune.

Men Growing in Size.

A tailor whose firm has been continuously in business in Philadelphia for 105 years, has compiled from his books of measurement some interesting statistics.

These statistics show that the American in the last century has grown taller, stronger and slimmer—greater in height and chest girth, less in the girth of waist and hips.

The average chest of 1795 was thirty-six inches. It is thirty-eight inches now. The average height was five feet, seven inches. It is now five feet, eight and one-half inches. The length of leg has increased in the same proportion. The shoulders and chest have greatly developed. The waist, on the other hand, has lost two inches—Philadelphia Press.

Artist Whistler's Genius.

James McNeil Whistler, the American artist who lived so long in London, had his own way of dealing with patrons. After he had painted the ceiling of the famous "peacock room" for Mr. Leyland the latter refused to pay the bill, declaring it to be exorbitant. Whistler did nothing for some weeks, then he made another trip to the room, put on his studio clothes and set to work in front of one of the two peacocks. A few days after Mr. Leyland, who knew nothing about Mr. Whistler's finishing touches, brought a friend to see the room. To their astonishment they beheld a peacock grasping a huge pile of gold coins in one of its claws. Next morning the artist received a check for payment in full, together with a polite offer of extra payment if he would "restore that portion of the picture under the bird's claw to the original design."

A Thinker's Thoughts

A thinker's brain wears away in proportion as it is used and this waste must be rebuilt by food (there's no other way) else the brain grows dull and is a poor instrument.

In Grape-Nuts food all the elements required for this brain building are found in the most liberal proportions, the parts of grains that supply the Phosphate of Potash to join with Albumen being especially selected in making

Grape-Nuts

food and trial 10 days will show any brain-weary or nervous wreck a great improvement.

"There's a Reason," as trial proves.

Get the little book, "The Road to Wellville," in pkgs.

A SCHOOL TEACHER.

Taught a Good Food Lesson.

It is a strain on nerves and patience for a teacher, not only to curb the antics of forty or fifty youngsters six to eight hours each day, but also to instil into their minds a mass of knowledge, including the famous three R's.

A teacher, living in Taunton, England, writes of the benefit she derived from Grape-Nuts food after the exhausting work in the schoolroom had almost ruined her health. She says:

"When I first began taking Grape-Nuts food, I was a teacher worn out in body and mind, and used to suffer very much from brain fag.

"I was also a martyr to indigestion.

"It is now plain that I lacked the power to digest and get value from my food.

"I felt much better after the first package, and by the time I had eaten three or four packages I was a new creature.

"My brain became clearer, and the powers of concentration much greater. I gained steadily in weight, my flesh becoming hard and firm. The sense of contidual weariness vanished like magic, and I have not had a bad attack of indigestion since I first used Grape-Nuts.

"I have become so fond of the food that I look forward to my plate of Grape-Nuts with a little cream more than to the most costly dishes." "There's a reason." Name given by Postum Co., Battle Creek, Mich.

The only form of food made from wheat that is all nutriment is the soda cracker, and yet—the only soda cracker of which this is really true is

Uneeda Biscuit

The only soda cracker scientifically baked.
The only soda cracker effectually protected.
The only soda cracker ever fresh, crisp and clean.
The only soda cracker good at all times.

CALDWELL & CO.,
L.A.R.B. 400-409 Currier Bldg. 11

FOR SALE—
City Lots and Lands.

FOR SALE—

I want you to come and see in perfect confidence, for I'll tell you the exact truth about my lots. It certainly is worth your time to tell you an untruth, as your interest and mine are identical. If I sell you a lot, I want you to be perfectly satisfied; and then again, if I should not be honest with you, I would lose your good will; and that I cannot afford. I ask you, therefore, to investigate, that my prices are 25 to 50 per cent. less than other lots in the immediate vicinity. Will you do so?

VERMONT HEIGHTS.

$250— —$275— —$350

$5 CASH. $10 MONTHLY.

BUYS A BIG LOT OR 1-4 ACRE.

High-class street improvements, two car lines now; third nearing completion. Avenues and boulevards 60, 80 and 100 feet wide; 250 feet higher than the city; magnificent view. Telephone and electric lights available now. For tickets and information if you call on me.

WARREN F. McGRATH, with
STRONG & DICKINSON,
9 N.W. corner 2nd and Broadway.

FOR SALE—
OAK GROVE TRACT.

OUR SIXTH AND BEST TRACT AT

EAGLE ROCK.

Has it occured to you that now, after the big rain, is the best possible time to select a lot? Some lots look best in a dry season. Others look best at Oak Grove Tract, after a big rain. The drainage is perfect. The soil is decomposed granite, free from adobe, loam, or mud.

About one-half the tract is level. The rest on the hill slope covered with live oaks. Every lot commands a beautiful view of the mountains. The altitude is about 400 feet above the Los Angeles Courthouse. Streets are now being graded and will be oiled. Abundance of pure water piped on all streets by the Eagle Rock Water Co.

Moderate building restrictions. White people only.

Size of level lots, 50x140. Prices $400 to $600. Terms, one-tenth down and $5 per month.

If desired we will plant and care for a few shade trees on each lot.

CRITES, MYERS & KULLI,
107 S. Avenue 64.

FOR SALE—

DON'T MISS THESE FINE DAYS.

TAKE A LITTLE RIDE OUT AND SEE BOWEN'S NUMBER 12.

PLEASANT VIEW TERRACE.

THE PRETTIEST TRACT IN LOS ANGELES.

FOR SALE—

MR. R. E. AGENT.

Dear Sir—When you sell property to your client you want to know that it is first-class and one we can recommend. That is why we are confident that if you see "Alhambra Acres," you will want to push it. No finer tract, strictly high class, but prices reasonable. And the fact that interests you is that commissions are liberal and sure. Let us talk it over with you any day. ALHAMBRA REALTY CO. (INC.) Los Angeles office, 328 Mercantile Place. 9

FOR SALE—
Acreage for Subdivision.

FOR SALE—

Buying property at wholesale (that is an acreage tract subdividing in lots 50x150 is "A BUSINESS" and "A SURE INVESTMENT." Positively the largest profits in the REAL ESTATE business are made in this way.

We want parties with $1000 to $5000 to join with us in a proposition that will positively net 200 per cent. profit. Our option expires within 15 days, so let us hear from you quickly. Embrace this opportunity to get in on the ground floor. We court the strictest investigation, and our proposed profits are based on figures that are 1-2 less than adjoining tracts have been sold at.

Address A, box 250, TIMES OFFICE. 12

FOR SALE—10 ACRES OF AS BEAUTIFUL land for subdivision as a California sun ever "KISS"; never gets swamped, no matter how hard it rains, and you can walk over this in land dry shod at any time. Most attractive for the purposes mentioned, plenty of good water on the tract, enough to supply everybody there. Many improvements, such as buildings, fruit and ornamental trees, etc. It is in the city, not on the "shoestring," but way, way this side. Vermont ave., 2 car lines to Slauson. Inquire about it of A. O. VERY, 234 S. Hill st. Home A6261. 9

FOR SALE—

40 acres on new Covina line, same distance out as Rose Hill, at $400 acre less than any adjoining lands. Land suitable for subdivision, as on this l

A NUMBER ONE.

That is the kind of a reputation we have among people who are best in a position to know how we do business. We employ no underhand methods and everything is made as plain as possible. We give you exact rates of interest, which is all you have to pay during the entire transaction. We advance money on FURNITURE, PIANOS, HORSES, WAGONS, CATTLE, etc. You can get the money quickly, without publicity and without the removal of the property from your possession. Amounts from $30 to $500. It will take on an interview to demonstrate the truth of our statements. We solicit that interview. Hours 8 a.m. to 6 p.m. open Monday and Saturday evenings until 8 p.m.

HAYNES-APPERSON, 14-26 H.P., LARGE runabout, guarante

TUESDAY, FEBRUARY 9, 1907. Los Angeles Daily Times. 13

ing "Christian Science a Prevailing Epidemic." He said yesterday: "My mail this week has been heavy, and I will read and answer some of the letters at the service Sunday evening."

Rev. Arthur L. Wadsworth of South Pasadena, field editor of the Pacific Baptist, is spending the month in this city.

Beginning Sunday evening, Dr. William Horace Day will assist Rev. Edwards, pastor of the Whittier church, in a series of evangelistic meetings. He will occupy his own pulpit Sunday morning, and Rev. Warren P. Day will preach a short sermon in the evening, when the choir will render its midwinter musical service.

Seven distinct services will be held tomorrow by the Union Rescue Mission. The evening meeting in the mission at No. 145 North Main street, will be addressed by Rev. A. W. Williams, pastor of the First Presbyterian Church, Santa Paula. The Samaritan Glee Club will sing, and an infidel lecturer, who was converted in the mission last Sunday, will speak.

Bishop Conaty has issued his regulations for Lent, and they have been sent to all priests in the diocese.

SUNDAY-SCHOOL PARADE.
DECIDED UPON LAST NIGHT.

An enthusiastic meeting of about one hundred Sunday-school people was held last night at the Federation Club, for the primary purpose of discussing matters of importance to the State Sunday-school convention, which will be held in this city, April 9, 10 and 11.

When this had been done, the meeting turned into one of great enthusiasm in favor of another street parade, similar to that held last spring. It was unanimously decided to have such a parade, at a date yet to be fixed, and a committee of fifteen will be appointed by the City Sunday-school Association, to consider the whole subject of a parade, and the advisability of a song festival in connection with it.

MONEY TO BURN, HAVE SHRINERS.

LOS ANGELES PILGRIMAGE TO BE GREATEST EVER.

Event Being Advertised All Over East By Local Temples to Swell Their Delegations—Great Work Done By Executive Committee of This City.

From a financial and spectacular point of view, the most important pilgrimage of easterners ever made to Los Angeles will be that of the Nobles of the Mystic Shrine, who come here in May to attend the meeting of the Imperial Council.

Chairman Flint's committee has sent out over 110,000 personal invitations to individual Shriners throughout the United States and Canada, and the acceptances received to date assure the largest attendance that ever marked a meeting of the Imperial Council. Twenty-six patrols, or special uniformed bodies of Shriners, have signified their intention of coming, and this alone assures the dignity of a national gathering, as no such number of patrols has ever journeyed across a desert.

Already more than fifty special trains have been chartered and the meeting is yet more than two months distant. Mr. Flint has arranged a case in the postoffice, with a pigeon-hole for every State, where the card replies are deposited, and there are thousands of them filed now. The States leading are Illinois, New York, Pennsylvania, Ohio, Iowa and Missouri, in about the order named, and each of these States will send at least three special trains, to say nothing of the thousands who will come in the regular trains. Pittsburgh, Pa., alone will come more than two hundred strong.

With the Shriners money doesn't cut any figure; they are free spenders, and there is no estimating the amount of money they will leave in Los Angeles, not only for their legitimate expenses, but in the purchase of valuable souvenirs of the trip and for Oriental goods that cannot be purchased in eastern markets at less than double the price asked for them here.

Work on the great auditorium is being rushed forward so that it will be in readiness long before the date arrives, and the great ball to be given there by Al Malaikah Temple of this city will be the social event of the week, and the greatest of the kind ever given. This auditorium is being built at an outlay of $150,000 and will seat 5000 people and furnish banquet accommodations for 3000 people. The sessions of the Imperial Council will be held in the Scottish Rite Cathedral on Hope street.

The full programme for the week has been sent by Mr. Flint's committee to every State, and many of the temples are expending hundreds of dollars in advertising all that is promised at Los Angeles, in order to induce as many as possible of their number to join in the pilgrimage. This is a pilgrimage across no imaginary desert, but being the "real thing," the Shriners everywhere are determined to make the most of the opportunity.

From Mobile, Ala., comes one of the most striking "boosts." It is six inches wide and eighteen inches long and has ten illustrated pages, four of which are devoted to Los Angeles. The attractions of La Fiesta and the magnificent electrical pageant are fully set forth.

Columbus, O., Shriners have sent copies of a twelve-page paper, issued especially to boost their attendance in the Los Angeles pilgrimage. They make the claim that Aladdin Temple's patrol, of that city, has heretofore carried off the honors, and call upon their Nobles to see to it that their reputation is maintained.

From every large city in the United States come evidences of the same spirit of activity, and that Los Angeles is already reaping a golden harvest of advertising is apparent everywhere.

SECURED FIRE PAYMENTS.

Sutro Reports Fruit of Trip Abroad to Persuade Companies to Defray Losses.

[BY THE ASSOCIATED PRESS—P.M.]

SAN FRANCISCO, Feb. 8.—According to a statement given out today by Oscar Sutro, the results of the labors of the San Francisco committee that went abroad to see what could be done to collect San Francisco fire losses from the German and Austrian companies which refused payment and denied liability in San Francisco are encouraging. Agreements were secured with the Trans-Atlantic, Rhine and Moselle, North German of Hamburg and Austrian Phoenix companies.

Terms of financial settlement in detail were agreed upon by the Trans-Atlantic Company and the Rhine and Moselle and North German. Stipulations were made regarding the bringing of suits. With the Austrian Phoenix an agreement was made for the setting aside of a fixed sum for the payment of San Francisco claims after adjustment, the adjustments to be made by an adjuster selected by the San Francisco commission.

The agreements are not binding on any policy holders, with the exception of two persons holding policies of the Trans-Atlantic company.

Only One "Bromo Quinine."

That is LAXATIVE BROMO Quinine. Similarly named remedies sometimes deceive. The first and original cold tablet is a white package with black and red lettering, and bears the signature of E. W. GROVE. 25c.

ARIZONA.

ATTEMPT AT LYNCHING FAILS.

NEGRO ACCUSED OF MURDER OF MOTHER AND BABE.

Law and Order Prevail, but no Time Will Be Lost in Bringing Prisoner to Trial—Dastardly Crime May Result in Expulsion of Many Negroes from Arizona.

[SPECIAL CORRESPONDENCE OF THE TIMES.]

GLOBE (Ariz.) Feb. 7.—There is a general feeling of satisfaction over the failure of the attempt lately made here to lynch William Baldwin, the negro accused of the murder, at Roosevelt, last Thursday, of Mrs. Harvey Morris and her infant daughter.

Special grand and trial juries have been drawn for the speedy indictment and trial of the negro, and it is believed that legal execution will follow close upon the heels of conviction. The grand jury has been called for February 12, and the trial jury for February 18. The negro, who is now in the County Jail at Tucson, is not to be returned to Globe until the day of his trial. Thus far, no lawyer can be found in Globe to undertake the defense of the accused, though the court will see that he is not left unrepresented by counsel.

Baldwin's story that the murder was done by two Mexicans is scouted by the officers who have the case in charge. Expert Apache Indian trailers have failed to find any footprints in the vicinity in which the crime was committed other than those of Baldwin's and of the woman. His shoes exactly fit in the footprints left by the murderer.

SHE FOUGHT HARD.

It is plain that Mrs. Morris fought desperately with her assailant. Her head had been crushed with a rock and her throat, as well as that of her 4-year-old daughter, cut horribly, probably with a razor. She was a woman of exceptional energy and strength, as strong as the average man. She was a daring horsewoman, a good shot with pistol or rifle, and capable even of farm work. It is believed that her assailant crept upon her unawares.

This importation into Arizona of a peculiarly Southern crime has come through the hiring of Texas negroes to work upon the Roosevelt dam. The contractors, O'Rourke & Co., in default of sufficient white labor, have furnished funds for bringing a large number of negroes to Arizona. Baldwin came from Galveston six months ago. He brought a wife and child, who returned two weeks ago to Texas.

TO EXPEL NEGROES.

It is believed probable that the crime will be the cause of expulsion of negroes from the work at Roosevelt. The permanent population of the locality is composed almost exclusively of cattlemen and their families, among whom Mrs. Morris had lived since childhood. She was the daughter of a pioneer, John Gordon. Though a law-abiding people, it is understood the cattlemen have determined to prevent any further opportunity for negro brutality by the simple expedient of running the negroes out of Tonto Basin.

At present the negroes are kept closely in their camp, across Salt River from Roosevelt. It would be dangerous for one of them to stray from the place. The feeling even affects the attitude of the people of Globe toward the colored population, and the frightened negroes have been arming themselves in preparation for a possible race war. An odd feature of the affair at Roosevelt was that among the crowd that sought to hang the suspected murderer were several Apache Indians, one of whom had provided a rope.

LAST LYNCHING.

The last lynching in Globe was in the spring of 1882. The victims, Lafayette Grime and John Hawley, were hanged before dawn on a giant sycamore tree that, till lately, spread its branches across the main street of the camp. The two had robbed the mule train that bore the mail across the Pinal Mountains, securing $10,000 in gold that was being brought in for a mine pay roll. Incidentally they killed Andy Hall, a brave express messenger, and Dr. Vaid, a prospector, who happened along most inopportunely.

The next day the crime was fastened upon them without shadow of doubt. They were given fair trial before Justice George A. Allen, now a resident of Los Angeles, whose commitment was accepted as a warrant of death. J. J. Vosburgh, another Angeleño at present, was express agent and led the work of the orderly "committee."

HONOR MEMORY OF ANCESTORS.

SONS OF REVOLUTION LISTEN TO STIRRING SPEECHES.

Fifteenth Annual Banquet Held at Jonathan Club—Lieut.-Gen. Chaffee and Brig.-Gen. Viele Are Guests. Local Society in Flourishing Condition and Planning for Home.

The California Society of the Sons of the Revolution held its fifteenth annual banquet last night at the Jonathan Club. Thirty-six of the total of sixty members throughout the State were present.

Lieut.-Gen. Adna R. Chaffee and Brig.-Gen. Charles Delavan Viele were the guests of honor. Among the members present was George Washington Peachy of Marysville, so far as known the only living son of a member of the Continental Army. Mr. Peachy is now 78 years of age. His father fought in the battles of Trenton, Elizabethtown, Yorktown, and Monmouth, and was in camp with Washington's army at Valley Forge. He is himself a Mexican veteran, and one of the oldest of the California pioneers, having come to to this State in 1852.

Considerable discussion was given to the project of the erection of a building in Los Angeles for the headquarters of the California Society, and although no definite steps were taken, it was the consensus of opinion that the plan should be carried out in the near future. It was suggested that $12,000 be raised by subscription, to be applied to the purchase of a suitable site. Definite action will be taken in all probability at the next business meeting of the society, which occurs on February 22.

The greater part of the evening was devoted to speechmaking, the programme including addresses by President H. O. Collins, H. H. Sinclair, E. T. Harden, W. M. Dixon, Rev. Baker P. Lee, Mayor Harper, Lieut.-Gen. Adna R. Chaffee and Brig.-Gen. Charles Delavan Viele.

In his address of welcome, President Collins spoke of the great development of the society in New York and other Eastern States, and declared that at the opening of the fifteenth year of its existence the California society, too, finds itself in an enviable position. The recent acquisition of the historic house where Washington bade farewell to his Continental army by the New York society; the purchase of the Nathan Hale schoolhouse by the Connecticut society, and other similar achievements, show the standing and strength of the society in the East. The California society has stored in its small quarters in the Henne building a collection of valuable pictures, books, and government archives that rivals the collection of the eastern societies.

YACHT CLUB'S HOME OPENED.

"ALL THE COMFORTS OF LIFE" CONTAINED THEREIN.

Agricultural Designs Patterned After the English Manor House. Finish Is "Rustic Mission" Throughout—Living Room, Bedrooms, and General Comforts Provided.

The opening of the South Coast Yacht Club's new home on the banks of the outer harbor of San Pedro took place last night. The new building cost $20,000 and is fitted up with every comfort of the nautically inclined person.

Architecturally the club home is built after the style of the English Manor house, so popular here, with two stories and an attic where are placed twenty little beds with all the comforts of modern life, and yet recalling the memories of boyhood's days when a bed in the attic was the acme of freedom and exclusiveness combined.

The first floor includes a large living-room, 22x34, with immense fireplace, large enough to hold the logs. The finish is in rustic mission throughout, toning into the lighter burlap browns, except in the large central halls where the wainscotings, balustrades and general finish are done in the restful wood fiber finish that smvors of the deep-sea tones and combines with the general effect of green and red furnishing. This hall forms the dividing line between the large living-room and dining-room which is furnished in mission and finished also in the browns, being separated by pillars with draped portieres in spar and sails effect.

In the paneled living-room there is a frieze of boat and yacht models, which suffices for the decorative part of this artistic room, but which is added to by the spiral hanging lanterns of verdibris finish, containing the small electric bulbs within and suspended by festooned hawsers, giving the whole the advantage of not only an artistic but very decidedly marine finish, and here are displayed the trophies won from time to time, the one of last year being a typical Hawaiian calabash, with silver and gold lined finish, rather than the handsome native woods usually used.

To the rear and by way of a very innocent-looking doorway, may be found the smoking-room with another large fireplace over which hangs the pennant that sailed so many seas and won its mead of honors. The walls herein, as well as in the buffet adjoining, are done in beautiful deep reds with upholstery in dark greens.

These, with lavatories and a perfectly arranged culinary department for refrigerating and serving with the most approved hospitality, make up the first floor.

The second floor is given over entirely to the fourteen bedrooms, shower and tub baths with all the conveniences of a modern hotel.

The club pennant forms the decorated features of the lawn leading from the wide verands to the lockers at the foot of the terrace where a 500-foot slip, thirty feet deep, is being dredged for the use of the club. On the lawn above, which faces Crescent boulevard, stands a flag pole, full rigged as a mast.

This well equipped and artistically finished home celebrated its entree into yachting society by a formal opening last night to its members only, for its first annual meet, in its own headquarters, and the election of officers.

It numbers among its members many of the best known men of the Pacific Coast and also prominent men who have a partial residence here, and yet are loyally enthusiastic over California as an all-the-year-round playground, aquatic or otherwise. Some eighty yachts that have won more or less distinction in shorter races, are owned by the members, no mean nucleus for future victories.

SLAV GOVERNOR IS ASSASSINATED.

YOUTH KILLS TWO AND WOUNDS ONE DURING FLIGHT.

Fleeing Murderer Dashes Into a Theater and Is Directed by Servant to Loft Where He Is Cornered and Shoots Himself With Fatal Effect.

[BY THE ASSOCIATED PRESS—A.M.]

PENSEA (Russia) Feb. 8.—S. A. Alexandrovsky, Governor of Pensea, was shot and killed by a young man as he was leaving the theater last night. In a desperate attempt to escape, the assassin also killed the Assistant Chief of Police and a policeman, and wounded the manager of the theater. Before the terrorist could be captured he fled to a loft, shot himself and during the night died in a hospital, without being identified. He was directed to the loft by a servant.

The bullets which he used in his revolver were discovered to be poisoned. Alexandrovsky, who was well known as Chief Commissioner of the Red Cross in the field during the war between Russia and Japan, had just stepped out of the door of the theater, when a youth pushed his way through the crowd and shot him in the neck. He fell dead on the spot. The Assistant Chief of Police, who was standing near the entrance, tried to draw his revolver, but was shot dead by the terrorist.

Seeing it was impossible to get through the crowds outside the building, the murderer dashed into the theater, firing wildly and killing a policeman.

WORK FOR N.E.A.

At yesterday's session of the N.E.A. Committee, held in the Chamber of Commerce assembly rooms, Dr. E. C. Moore and Prof. Chamberlain were delegated to represent the Executive Committee at the convention of school superintendents of the United States, to be held in Chicago. Prof. Chamberlain was added yesterday as an ex-officio member of the Executive Committee, as he is a director of the N.E.A. The next session will be held on Wednesday, at which time each subchairman will submit the names of five associate workers.

ORANGE.

ORANGE, Feb. 8.—Ground has been broken for a fine two-story business block on the southeast corner of Chapman avenue and Orange street. The building will be erected by Vern Barger, William Knuth and B. R. Helwig & Son.

Johns Hopkins's Confession.

An amusing story is related of Johns Hopkins. Honesty was evidently one of the fundamental traits of his character. On one occasion he was sent by his mother to borrow a flat iron of a neighbor. The good neighbor gave him the flat iron and at the same time offered him a piece of pie.

"No, thank you. I don't want any pie," said the red-faced boy, as he started home. Half way there the pie and his conscience were too much for him. He wheeled about and knocked again at the neighbor's door, his face redder than ever. "I told you a story," he explained; "I did want that pie."—[Exchange.

A Dry Niagara Falls.

A few miles southeast of Syracuse, N. Y., in a cavity whose bottom is 220 feet below the surface of the adjacent upland, lies Jamesville Lake, a body of water 500 feet in diameter and sixty feet in depth. Eastward from the lake extends a gorge through which flows Butternut Creek. Prof. Moorehead of Washington, states in former times a river flowed here and that Jamesville Lake is the pool that was formed under a great waterfall. Steep cliffs rise around it on three sides, and all the features of a dry Niagara are here disclosed in great detail.

THE CITY IN BRIEF

NEWS AND BUSINESS.

Architects' Banquet.

Southern California Chapter, American Institute of Architects, will hold a meeting and banquet at Levy's on Tuesday evening at 6.

Loyal Legion.

The next banquet of the Loyal Legion will be held at Levy's next Tuesday evening, and a large attendance of companions is promised.

Riis Lecture Last Night.

The lecture of Jacob Riis last night in Simpson Auditorium was largely attended, and the audience was highly pleased with his story of "The Battle with the Slum."

Lane's Condition Improved.

William M. Lane has been dangerously ill, but yesterday much encouragement was given his family, and his speedy recovery is anticipated. His illness has lasted ten days, being a complication of laryngitis and erysipelas.

Good Roads.

The Good Roads Conference will meet again at 10 o'clock this morning, at the Chamber of Commerce. Permanent organization will be effected and permanent officers elected. Prof. H. A. Adrian of Santa Barbara will represent the Santa Barbara Chamber at this meeting.

Oldfield Minus Pin.

A sneak thief robbed Barney Oldfield, the world-famed automobile driver, of a $200 diamond stickpin Thursday night in Morley's pool hall on South Spring street. Oldfield hung his coat in a locker and on it was a quaintly-designed Elks' pin set in diamonds. When he went to take the coat from the locker the pin had been stolen.

Bruised by Automobile.

An automobile driven by T. W. Aisbitt of No. 126 South Broadway collided with L. Arland of No. 252 South Bonnie Brae street last night in front of the City Hall. Arland was hurled to the pavement and slightly bruised. He was removed to the Receiving Hospital in the automobile and later sent to his home.

Boy Gets Lodging in Jail.

A deaf, dumb and apparently senseless negro lad about 16 years old was sent to the City Jail last night for lodging. During the past year he has been picked up by officers on the same charge not less than a score of times. The police believe his parents want to made him support them by begging. There will be an effort made to have the humane officer investigate the case.

Knoxville Man Dies.

James W. Greer, a business man of Knoxville, Tenn., died at the home of his son, No. 810½ Francisco street, this city, on Thursday night. Mr. Greer and his wife were spending the winter with their son, the former being in feeble health. The funeral will be held at the parlors of Bresee Brothers this morning at 9 o'clock; interment at Rosedale. The deceased was about 4[illegible] years of age.

Pythian Stag Party.

At Symphony Hall this evening the 100 charter members who organized Inter-Domain Lodge, K. of P., a week ago, will hold their first stag party, which is to be a monthly feature. A limited number of guests will be present. Arrangements are nearly completed for the afternoon and evening installation ceremonies, with a banquet, a week from today. This will be the most interesting event in local Pythianism in several years.

Tickles Tom Peck.

A little telegram received by T. C. Peck, passenger agent of the Salt Lake road, caused him to smile more genially than usual yesterday. It was from Charles D. Pike and conveyed to Tom Peck the congratulations of all the passengers on the Los Angeles Limited, which left here Wednesday. The subject for congratulation was the stocking of the dining car at short notice and under difficulties, sufficiently to satisfy an epicure.

Fulton County Association.

The Fulton County (Ill.) Association will hold its annual reunion at Long Beach on February 22. There will be three principal speakers on the occasion, all former residents of the county. They are Dr. Robert J. Burdette, formerly a newspaper reporter in Peoria; Col. John Sobieski, a temperance lecturer, and Rev. Leon Cornell, formerly a preacher in Fulton county. Short addresses will be made by a number of other gentlemen. The meeting will be held in the sun pavilion.

BREVITIES.

Artists, students and lovers of art are especially invited to attend our closing-out sale of framed oil and water-color paintings, at prices cut to bed rock, as we are retiring from business. All of our other framed pictures have been disposed of. Framing done at wholesale price. The McClellan-Kanst Co., 111 Winston street, below Main, bet. 4th and 5th.

Here are a few of the Newmarket specials for Saturday: 3 lbs. of good rib steak for 25 cents; pot roasts, 6c, 8c and 10c per lb.; young lamb shoulders, fresh, only 9c per lb.; boiling beef, lean, 5c per lb.; fine large fresh and salt tongues only 45c each today, worth 65c anywhere. Newmarket, 522 S. Broadway.

J. W. Frey has moved his stock of mantels, grates, tiles and andirons to his warerooms, cor. Los Angeles and Twelfth streets, where can be seen the largest assortment of black and brass fireplace trimmings to be found in the United States. Lowest prices.

J. B. Tabour of Minneapolis is at Hotel Orena. I would like to meet parties desiring to dispose of Minneapolis property; twenty-five years of continuous business in real estate in Minneapolis, enables me to give correct values and good advice.

The Newmarket, 522 S. Broadway, is the place to buy a fine piece of meat cheap. We sell for cash only and do not deliver, and can afford to, and do undersell, any and all competitors.

Special today: Leg of mutton, 12c; German pot roast, 8c; lamb stew, 7c; beef stew, 6c; boiling beef, 5c lb. Best place to trade at Mott Meat Market, 129 S. Main street.

Rare antique furniture, old blue china, copper and brass bric-a-brac are to be found at 205 E. Colorado St., Pasadena. Can be bought at very low prices.

While up town shopping drop into the Newmarket and get a fine piece of fresh meat for little money. Newmarket, 522.

First Congregational Church, Hope, near Ninth, midwinter musical service Sunday evening; selections from "Elijah."

Saving a dollar on shoes is easy at Cummings, Fourth and Broadway; their $5 shoes for men are $6 values.

Dr. Byron W. Haines, late of San Francisco, has opened dental offices in Auditorium Bldg. Suite 606.

Get your fresh fish and fresh-killed poultry at the Newmarket, 522 S. Broadway.

The Newmarket, 522 S. Broadway, sell the best prime meats very cheap for cash.

Drs. Hayden, osteopathic physicians, removed to 516 Temple Auditorium.

Children's shoe store, 204 S. B'way.

Furs. D. Bonoff, furrier, 212 S. B'way.

Florsheim men's shoes, 511 S. Spring.

Ladies' $2.50 shoes, 402 So. Bdw'y.

Truss maker, 217 Mercantile Place.

Connell, Unterkircher, Crawford

[illegible] Co., 1004 South Grand avenue. Main 6212. Lady attendant.

FUNDS FOR CAPITOLA.

Students of Occidental Hold a Carnival of Nations and Realize a Handsome Sum.

The Young Women's Christian Association of Occidental College held a carnival of nations last night in the Hall of Letters for the purpose of raising funds with which to send delegates to the annual conference, which will be held at Capitola during the spring vacation. A large number of people attended the affair, and the profits were about $150.

The rooms of the first and second stories of the college building were decorated to give glimpses of life in the nations of the world, and young women, appropriately costumed, served refreshments.

A literary and musical programme was given in the chapel by college talent. The feature of the entertainment was a girls' broomstick orchestra, which rendered several selections under the leadership of Miss Fairy Means.

HE LIKES THE CITY JAIL.

Paul Matlaga was arrested last night on suspicion. He has an unusual record in the City Jail, and according to the jailer, refuses to work. Matlaga first made his appearance at the jail December 7 and was released on the 8th. He was again arrested on December 12 as a suspicious character, and was released the following day. December 13 he went into the jail as a lodger and December 26 was arrested for begging. When brought up in Police Court Matlaga insisted on a jury trial and was held until January 22, when he was fined $1. February 3, 6 and 8 he was arrested on suspicion. When called for in the jail he refuses to answer to his name, and has boasted that he would spend the winter in jail. An attempt will be made to secure an insanity complaint against the man today.

VITAL RECORD {BIRTHS, DEATHS, MARRIAGES.

Deaths.

HAWLEY. At 632 San Pedro street, February 4, 1907, Nellie, wife of J. A. Hawley, aged 34 years. Funeral services at the chapel of Bresee Bros., Saturday, at 11 a.m.

Times' New Year's Annual.

The Midwinter Number of The Times has had an unprecedented sale; more copies have been mailed away by enterprising Los Angeles citizens than ever before. It is a great missionary to send friends, and a thousand personal letters could not give them as much concise information about this great land of ours. It will aid the whole country if business men will send a copy to their customers and correspondents. Real estate dealers can help themselves in no better way than by supplying clients living at a distance with one of these great papers. Anybody, anywhere, will surely be delighted to receive a copy of these "Land of sunshine" publications. Mail orders promptly filled.

MILLIONS OF GOLD BEHIND SMELTER.

Great New Industry Practically Sure Near Los Angeles.

Capitalists from the Mines of Nevada Who Have Not Facilities for Handling Their Ores See Opportunity Here and Meet Encouragement—Would Mean Many Thousands a Month to the City.

LOS ANGELES is to be made the mining center of the Great Southwest, by the erection of a smelter in the immediate future, at a convenient point in this county near tidewater. For months there has been talk of smelters coming, and now it begins to look like business; to look as if results are to be accomplished, thanks to the good work of the Los Angeles Chamber of Mines, organized scarcely two months since, and especially to its founder and second vice-president, Rol. King.

Goldfield capitalists, representing between $35,000,000 and $50,000,000 taken from the mines of Nevada, are backing the project. Their purpose is to have a smelter, primarily, to handle their own output from their present holdings, and to enable them to extend their operations and open new properties, development of which is now seriously handicapped or rendered practically impossible by the lack of facilities for smelting the enormous quantities of siliceous ores taken from Tonopah, Goldfield and other Nevada camps.

They have fully organized and are prepared, they state, to begin work as soon as they can get properly located. Should the smelter not be put here it would go to San Francisco, San Diego or some other point. At present they have an option of 300 acres on San Francisco Bay, just outside the city and next to the plant which the Guggenheim interests are building. They are frank to say, however, that they prefer to come to the vicinity of Los Angeles if they can get fair treatment. They ask nothing, have no stock to sell, and expect to pay for all they get.

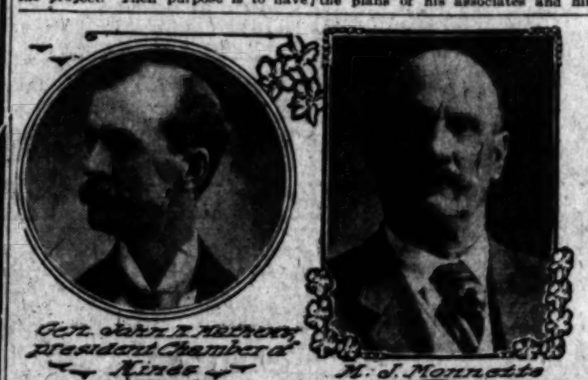
WELCOME EXTENDED.

Yesterday afternoon the Chamber of Mines, which, through its officers and members, has been actively at work, held a meeting and adopted a resolution declaring that:

"Realizing the benefits that will accrue to Los Angeles county and Southern California by the construction of a smelting plant for the reduction of ores and minerals, and being thoroughly satisfied from our investigations that such smelters can and will be operated by modern methods and without injury to the surrounding property.

"Therefore, it is the sense of the Los Angeles Chamber of Mines that every encouragement should be given and extended to those interested to construct such a plant at some suitable place in Los Angeles county, and that we most heartily invite the cooperation of the members of this chamber and the citizens generally in bringing about the construction of such a plant, and that we pledge ourselves to do everything in our power to assist those who are inclined to undertake such an enterprise."

E. H. Wedekind, mining and metallurgical engineer of the company, appeared before the meeting and told of the plans of his associates and himself. Those present were Gen. John R. Matthews, president of the Chamber of Mines; Fred A. Hines, first vice-president; Rol King, second vice-president; E. W. Gillett, secretary; Maj. J. W. A. Off, Capt. H. Z. Osborne, Will A. Harris and George Mosher.



Gen. John R. Matthews, president Chamber of Mines. M. J. Monnette. E. H. Wedekind. O. M. Hayes. R. O. Hobson, general manager HOBSON, photo. M. J. Myers. E. W. Gillett, secretary Chamber of Mines. Rol King, second vice-president Chamber of Mines.

The men who are bringing the smelter for Los Angeles, to be located at tidewater at a convenient point.

MEN BEHIND ENTERPRISE.

Foremost among the backers of the enterprise is A. J. Myers, known as "The Father of Goldfield;" the original owner of the Combination Fraction and the Mohawk mines. The first was held by Mr. Myers and Tom Murphy. As he has told it himself, a year ago he could not raise $1000, and now he has $4,000,000 to his credit and is building a magnificent home at Long Beach.

J. R. Davis and J. W. Loftus are interested in the proposed smelter to provide an outlet for their ores. The following are some of the mines in which they are interested: Nevada Hills, which is producing $75,000 a quarter; the Gold Bar at Bullfrog, directly on the line of the Clark and "Borax" Smith railroads, which is in a position to ship ore; the Great Bend at Diamondfield, also a shipping property, the Combination Fraction lease which produces many thousands a month. The basis of their wealth is the famous Sandstorm, lying close to Columbia Mountain.

R. O. Hobson, who will be general manager of the smelter, is a man to whom Goldfield looks with confidence. He was owner of the Columbia Sampling Mills at Goldfield, through which passed the major part of the fabulous wealth of the Mohawk and other great mines. Mr. Hobson, it is said by his colleagues, then made his reputation for integrity and skill that has placed him in his present position among the leading men of the mines.

W. O. Mansom is well known as the original owner of the sampling works at Reno, through which passed the early production of the Tonopah leases. Subsequently he sold his interest in these works, and is well known as a specialist in his line.

G. W. Hayes and M. J. Monnette are among the leading capitalists of Goldfield. Their lease on the Mohawk netted $4,400,000. They are at present in

(Continued on Ninth Page.)

BISHOP UNDER COVER.

Who Will Catch Cranston When He Arrives? Is Question Among His Friends.

Bishop Earl Cranston, who was expected to arive in this city yesterday, has not yet come to light. It is rumored that he may be corralled by his old friend, A. N. Field of Pasadena, and that he will probably arrive on Monday. If he does so he will remain over Sunday, February 17, and there will be some wire-pulling as to whether he will spend that day in Los Angeles or Pasadena. The bishop is en route to the decennial missionary conference in Shaghai, China, on April 25, in which field he labored for two years. It is still anticipated that he will be the guest of the Methodist Social Union at the University of Southern California on Tuesday evening.

MORE GIFTS TO OCCIDENTAL.

GENEROUS MEN DETERMINED TO RAISE THE DEBT.

Two Donations of $17,000 Each, Announced Yesterday by President Baer, Who Seeks Three More of the Same Kind—Raising Standard of Scholarship.

Lyman Stewart of the Union Oil Company and O. T. Johnson have donated $34,000 to Occidental College.

These gifts, of $17,000 each, are the first fruits of an $85,000 campaign started by President Baer, who is hopeful that the remaining three-fifths will be forthcoming in the near future.

Messrs. Stewart and Johnson have been liberal contributors toward the support of the Presbyterian institution for many years. The $200,000 endowment fund, which was secured last year, was made possible by Mr. Johnson, who gave $47,000 of the amount. Mr. Stewart has given heavily in money and library equipment.

The $85,000, which President Baer is raising will be used exclusively for clearing the college of indebtedness. When this amount is secured Dr. Baer will inaugurate a campaign for $100,000, which will be used for the purpose of erecting new buildings and supplying the departments with additional equipment. This larger amount will be raised chiefly in the East, where Dr. Baer has many friends whom he has interested in the college. Dr. Baer said yesterday:

"Nothing has encouraged me so much as the prompt responses and cooperation of Mr. Johnson and Mr. Stewart, who have heretofore done so much for Occidental. I am confident that others will catch their spirit and that the debt will be wiped off our slate forever.

"After this campaign is successfully completed, I intend to start another one for new buildings. I agree with the trustees that before anything new is done in the way of buildings, we should stand clean of debt. Then we can face the future with enthusiasm."

In addition to placing the institution on a sound financial basis, President Baer is also bending every effort to raise the standard of scholarship. The requirements have been placed on an equal plane with the leading colleges of the East, and it is the intention to make an Occidental degree equivalent to the best.

The examinations, at the end of the term recently closed, were more difficult than ever before in the history of the college, and, although a few students were found wanting, the showing made by the student body as a whole was a source of great satisfaction to the faculty.

The standard will continue to be raised during the present semester, and at the beginning of the new school year in September, President Baer hopes that Occidental will be among the best colleges of the country.

BUMPS BUMPS BY THE AUTOS.

HIGHWAY COMMISSION TESTS BADNESS OF ROADS.

Routes to the Various Beach Towns Selected, and a Good Sum of Money in Sight for Construction and Improvement—Main Ones to Be Rebuilt First.

The Highway Commission yesterday inspected, by aid of automobiles, the main roads to Santa Monica, Ocean Park and Venice and decided on the best routes to these beach towns. They will at once begin improving them as much as the limited powers of the commission will allow.

Washington street and its continuation, Washington road, will be named Washington road. Milestones so marked and iron signboards perforated with that name will be mounted on galvanized pipes set in cement, at each turn and corner.

At Ivy station, about half way to the sea, the right fork will be improved all the way to Ocean Park and bear the present name of National boulevard. The left fork will be known as Washington road all the way into Venice. This will give a direct road to Venice and from Ivy another direct into Ocean Park. The latter can be followed all the way to Ocean Park and then the "Speedway" to reach Santa Monica, or later the crossroad by the cemetery can be improved and used over to the extension of Utah avenue, Santa Monica.

The County Highway Commission consists of one representative from each township and a fixed number at large from Los Angeles city. The members from Palms, Venice and Santa Monica, acted as guides for the rest of the commission who turned out yesterday, many of whom were familiar with the territory between Los Angeles and the beaches.

Supervisor Wilson, in whose district these roads are situated, also went to the beach in an automobile and met the commission at Venice, where all lunched at the ship Cabrillo as the guests of the Abbot Kinney Company. Mr. Kinney has lately retired from the Highway Commission, on account of press of business, and Lewis E. Bradt of Venice has been appointed in his place at Mr. Kinney's request.

Supervisor Wilson informed the Highway Commission that he would appropriate $10,000 from his district's road fund for the improvement of the road they should decide upon as the official road to Venice and Santa Monica, and that he thought that nearly as much more would be contributed by the real estate promoters along that route. President Griffith of the commission,

HOT QUESTION WITHDRAWN.

Girl Proposition Scares South Coast Tars.

Election Today Not Woman or Anti-Woman.

Married Men Found on the Skirt Opposition.

This Girl Proposition has scared the South Coast Yacht Club into a wild retreat.

The question at the annual election today was to have been "Girls or no girls in the new clubhouse?"

That question has been hastily withdrawn. Every gallant tar is taking his oath by the t'gallant halyards and offering to shiver his timbers—even at the present price of lumber—that 'twas not he that suggested the elimination of white duck skirts and feminine yachtsmen from the Rattlesnake Island navy yard.

The candidate for commodore has shinned into the crosstrees and refuses to descend.

BEST TAKES REFUGE.

Algernon Lester Best, club secretary, has taken refuge in his desk at the office of the British Vice-Consul, and with the Union Jack wrapped around his robust form, defies all comers—even the white-duck skirters.

"Nothing for publication," he pipes, but adds, nervously: "I would be much obliged if you would say 'twasn't me. I never wanted to keep 'em out."

Mr. Best announces that there will be nothing about girls in the election today.

"And we do not care to have anythings about these little troubles in the papers," he adds, crushingly.

The truth is that a horrifying discovery was made at the last minute of the campaign.

An investigating committee in white duck skirts discovered that the question at issue had not divided the club into the Bachelors' Party and the married men, as was supposed.

As many married men as bachelors were found to be in the anti-woman party. In fact, some of the bachelors were rather strong for the presence of fair woman at the club regattas and clubhouse shindigs. Some of the married men were making a hot canvass to keep them out.

Every woman had fondly believed that her hubby was enduring martyrdom for her sake in the club.

THEN A PANIC.

When the truth became known, it was like turning the sunlight on a lot of water bugs—a panic.

The directors on the anti-woman ticket begged to be mercifully shielded. No married man dared be seen speaking to them.

No one knows how this tragedy might have turned out if that question had gone to the hat today; but at the eleventh hour some one had a grand inspiration.

Why not take the question from the hands of the directors and put it to the entire club by a postal card vote afterward?

And this has been done, and this is the reason why there is no woman proposition to be heard at the annual elections of the yacht club today.

Vic Stewart will be elected commodore without opposition, and Best re-elected secretary; the directors are in doubt between two tickets.

After this election, the postal-card ballots on the girl question will be sent out.

The yachtsmen who are betting against the girls may as well sadly tear up their tickets.

IMAGINE THE SCENE.

You can imagine the scene in the

(Continued on Ninth Page.)

THE WAY SOME MEMBERS WOULD HAVE IT

QUESTION: WILL THE MAN DO AS THE NICE LADY SAYS?
ANSWER: CAN'T HOUSE SEE A PEN IN HIS MITT, YOU MUTT?

TROLLEY CAR MAKES RUSH ACROSS SIDEWALK.

The car that tried to climb a tree.

Cavorting over the pavement as if glad to be free from the limitations of steel rails, a Central-avenue car, city bound, jumped the tracks at 3 o'clock yesterday afternoon at Central avenue and Twenty-eighth street. Without warning it blundered diagonally sixty feet along the street, crushed into and over the curb, and then tried to climb a tree beyond the sidewalk.

Strangest of all recent accidents is the freak action of the Central-avenue car. The motorman had stopped for passengers at East Thirtieth street. The car was running almost at full speed, and at Twenty-ninth street the controller went into the last notch after passing. The motorman, with a clear run before him, saw a chance to make up lost time. He had in view the extra trip he must make before returning for the crowds at Ascot.

Suddenly from beneath the floor came strange shrieks and a horrible sound as of grinding wheels. Visions of victims mangled under the trucks came to the woman passengers. Men jumped from their seats and a panic threatened.

Rearing like a frightened steed, the car left the rails, wobbled violently from side to side as it crossed the tracks, and then, as if possessed of a demon, bounded over the roadway. Wildly it flew toward the friendly shade of a tall tree.

Perhaps the only reason the car did not climb into the branches is because the tree bent beneath its weight. It succeeded, however, in crawling some distance up the trunk of the sturdy eucalyptus.

Examination showed the front axle to have been snapped in twain. The services of the wrecker were required.

THE PUBLIC SERVICE.

SUMMARY OF THE DAY.

Bills for the furnishing of the Mayor's office were held up, yesterday, by the Supply Committee. The amount of the bills is over $1200, but there was no advertising for competitive bids, as is required by the city charter on all amounts over $500.

Grocers appeared before the City Council, yesterday, and protested against the low license fees for peddlers' wagons, and also against being assessed the fees for inspection by the proposed new office of Sealer of Weights and Measures.

A proposition was submitted to the City Council, yesterday, looking to securing legislation which will enable it to combine various special elections, and thus save the city much expense.

Maps for the improvement and opening of Hoover street, from Twenty-eighth to the southern city limits, were filed yesterday.

Mrs. Bertha Wilson, yesterday in the Superior Court, testified in behalf of her husband, who is accused of the murder of Musician Belden at Long Beach. The taking of testimony may be concluded today.

The police are trying to rid Chinatown of lottery "lookouts." Wong Chick, who is said to be one of them, was arraigned in the Police Court yesterday.

Toy Kee was in the Police Court yesterday on the charge of practicing medicine without a diploma. He will fight the case.

Architect Soper was charged in the Police Court yesterday with doing business without a State certificate. His attorneys contend that the statute requiring a certificate for architects is defective.

AT THE CITY HALL.

GROCERS OBJECT TO SEALER'S FEE.

SAY THAT CITY SHOULD PAY OFFICIAL'S EXPENSES.

Delegation of Business Men Protest to City Council Over Proposition to Charge Storekeepers for Inspection of Their Weights and Measures.

It was grocers' day yesterday at the City Council meeting. The discussion of the proposed ordinance creating the position of Sealer of Weights and Measures, brought forth this delegation, composed of W. D. Buck, president of the Retail Merchants' exchange; J. F. Paulding, its secretary; J. A. Fasenda, William Nicholson, A. L. Colby, I. Finkenstein, L. O. Powers and C. A. Mottaz.

The grocers, while doubtful of the utility of the proposed ordinance, so far as stopping fraud in short weight, are in favor of its passage, provided that the fees for inspection are paid by the city, and not taxed to the individual merchant.

The fees range all the way from 10 cents to $5, according to the measure or scales. Mr. Paulding of the Merchants' Exchange stated that they would average $15 per establishment. He declares that on top of the expenses which the merchants now have to meet this would prove an excessive burden. He stated that competition is now so keen in Los Angeles that seventeen dealers have been forced into failure since the first day of January, and that the smaller dealers simply would be harassed by any increase in fees and expenses.

Other business men spoke, taking the same general grounds. Some of the Councilmen wanted certain provisions made, which were not included in the original draft of the ordinance, and finally the whole subject was postponed until Monday's session. From the buffeting which the proposed ordinance received at the hands of some of the Councilmen, it is doubtful if its passage can be secured on Monday.

MAYOR'S CARPETS.

WHENCE COMES THE PAY?

Mayor Harper has his suite of offices elegantly furnished, the last act of Mayor McAleer; but the question now arises, where is the pay for all this Jeffersonian simplicity?

The Supply Committee of the City Council received the bills for this furnishing, from the Niles Pease Furniture Company, yesterday. They amounted to over $1300. The old City Council had appropriated $1200 for the purpose. Secretary McKeag undertook the furnishing; but he failed to secure the legal advertising for bids, required by the charter on all amounts over $500, and yesterday the Supply Committee referred the bills to the City Attorney for instructions.

Unless McKeag can show that he received competitive bids for these furnishings, it is likely that the bills will never pass the City Auditor's office. Auditor Mushet is already on record on this sort of thing. The Councilmen remember with distinctness the case of the bills of the Gamewell Fire Alarm Company, which Mushet held up, and which were finally passed over his objection.

The Gamewell company furnished electrical supplies for the fire department, and demands were issued by Walter Lips for the total sum of $2496, although the bills were cut up into eight amounts, ranging from $156 to $438. Auditor Mushet claimed that the whole was one purchase, under one bid, and that it was not in accord with the plain provisions of the city charter. He returned them to the Council unapproved and with the comment:

"From information received, I am satisfied that the division of the requisition and demands into these amounts was for the express purpose of evading Article XX, section 207 of the city charter relating to contracts."

On motion of Councilman Wren, chairman of the Supply Committee, the present Council, by unanimous vote, passed the requisitions over the objection of the City Auditor. They have not yet reached the City Treasurer for payment; but it is probable that, when they do, Capt. Hance will be guided by the advice of the City Attorney in his attitude as to paying them.

The charter's provisions are explicit, as are also the rules and regulations governing the ordering and purchasing of supplies for the city. But these, alas, have been so honored in the breach that the bills for the furnishing of Mayor Harper's offices, were considered certain to go through.

From the action of the Supply Committee yesterday it would appear that Auditor Mushet's recent action has shown them a great light, and they evidently do not propose to allow him to turn back to them the second batch of bills for the same grounds of objection.

COMBINATION ELECTIONS.

TO LESSEN CITY EXPENSES.

A proposition framed with the view of curtailing the expenses of special elections came before the City Council yesterday. It was in the shape of an amendment proposed to the State laws, and which may eventually reach Sacramento with the indorsement of the Council and a request for its passage. It was introduced by Councilman Drongold, seconded by Councilman Ciampitt, and is as follows:

"The legislative body of any city or municipal corporation in the State of California is hereby authorized to consolidate special elections for the issuance of bonds, the annexation of territory or territories, the consolidation of cities, towns or municipal corporations, or for any other purpose or purposes; and at such special elections several objects or subjects may be voted upon and specified on the same ballot; provided that such objects or subjects shall not exceed five in any one election. And, further provided, that any such object or subject may contain two or more parts or items to be voted upon separately, such as different purposes for which bonds are to be issued; but the total numbers of such objects or subjects and parts of items shall not exceed twelve."

The subject was referred to the City Attorney for a report as to whether it covered the grounds thoroughly, and it will be taken up again at Monday's session.

GROCERS PROTEST.

HIGHER TAX ON PEDDLERS.

While the grocers were present at the City Council session yesterday, to speak on the proposed ordinance creating the office of sealer of weights and measures, they decided it was a good time to put in a word for the further protection of their business by advocating a higher tax on the peddlers who operate in all sections of the city.

Their spokesman was J. F. Paulding, secretary of the Merchants' Exchange. He declared that a great injustice is done the merchants in general by the city allowing peddlers to operate their wagons under a license fee of only $5 per month.

"There are 600 such peddlers in this city," said Paulding. "They handle produce of all kinds, some of them carrying a regular grocery stock in their wagons. They pay no rent, are not out the expense of help hire, and have the constant use of the streets. While they pay $5 per month for the privilege of running their business, the merchant pays an average of $45 per month for rent, and also has his expenses of hired help, etc., to maintain.

"I have known five men to go out and work on one $5 license, they taking buckets of the produce from the wagon and scattering out to take orders.

"I also think it is an imposition on the restaurants to allow lunch wagons to stand on the street for $1 per month. If I had my way about it, they would not be allowed to appear on the streets at any price. If they want to do business, they should get in on private property."

Paulding thought that the peddler license fee ought to be raised to $12.50 per month, and a stiff price placed on the lunch wagons.

FIRE BOARD "FANCY."

SO SAY THE COUNCILMEN.

Councilman Yonkin incurred the executive displeasure yesterday by declining to approve a bill for $30, representing automobile hire for the Fire Commission. Yonkin objected because he does not consider that the time of the commissioners is so valuable that they should ride in an automobile at $4 an hour while making inspections of the engine houses.

All this occurred at the meeting of the supply committee. Councilman Wren advised payment of the present bill but cautioned against incurring others in the future. "When I was on the fire board," said Wren, "we were glad to get two-seaters for inspections. I think $4 an hour machines are a bit fancy even for the fire board."

While discussing the fire board requisition the Councilmen permitted a requisition for a $4-an-hour machine for the park board to slip through unnoticed. This machine will be used today for the annual inspection of the city parks.

MAY FOIL LOAN SHARKS.

SATURDAY PAYMENT PLAN.

City Auditor Mushet and City Attorney Hewitt are working together in an attempt to devise a plan whereby city employés may receive their pay from the city direct, instead of through the medium of money lenders. At the present time 65 per cent. of all the money paid in salaries passes through the hands of alleged loan sharks, notwithstanding the fact that the city has millions in the treasury.

Two years ago the city adopted a plan of weekly payment for laborers in the street, water and park departments in place of the present monthly system. It was thought that this would enable the employés to cease paying tribute to the money lenders. This system was maintained for about a year, but it had no perceptible effect on the number of warrants cashed by the loan men. It necessitated extra help in the auditing department and it was finally abandoned.

Frequently the charge has been made that there is politics back of the warrant shaving and that employés are compelled to cash their warrants and pay the commissions in order to keep their places. Careful investigation failed to produce any proof to substantiate this charge.

George Arnold has reduced cashing warrants for city employés to an exact science. His assistant, it is said, will send the money to workmen in the streets and parks when they quit Saturday night. The men are willing, apparently, to pay 50 cents a month rather than take trips to the City Hall and wait for their pay.

Mr. Mushet and Mr. Hewitt have taken a fresh start at the warrant shaving bogie. They intimate that they have a plan by which the laborers can receive their pay just as conveniently from the city as from the money lenders.

Public Hearings.

The Board of Public Works has set 2 o'clock of Monday afternoon as the time for hearing those persons interested in the proposition to vacate Reservoir street, east of Ida or North Coronado street. The board has also set the same time for the hearing of those interested in the widening of Miles street, from South Park avenue to Eureka street, to a uniform width of fifty feet.

Held-up Legislation.

The fact that several pieces of legislation have been held up indefinitely in the various committees caused a lively discussion on the floor of the Council yesterday. The particular thing that brought about a demand for the clearing up of this delayed material was the demand of Councilman Lyon that the request of the Mayor that he be allowed a $60 a month janitor and messenger be granted immediately. It had been shelved for three weeks. Councilman Wallace defended the action of the committees in holding up the various items asked for. "Almost every department in the city government has asked us for increases in expenditure of some sort," he declared. "We have at last asked them all to get in their demands, and then we will pass upon them. It may be that this request of the Mayor's will be the first thing to be granted; but we may find that in view of other demands there are things which are more urgent." Finally, on the promise that the Mayor's messenger will be acted upon Monday, Lyon withdrew his motion.

Freight Carrying.

The Legislative Committee of the City Council was to have heard a discussion of the freight-carrying proposition for street railways by representatives of the Huntington and Harriman interests, yesterday, but Attorneys Newlin for the Los Angeles-Pacific, and S. M. Haskins for the Pacific Electric, appeared and asked for a continuance that their chiefs might be present. The committee set Wednesday next at 2 o'clock as the time for this hearing.

Hoover Street Project.

Maps showing the proposed opening and widening of Hoover street, from Twenty-eighth street to the southern city limits, were filed with the City Clerk yesterday. The street is to be widened uniformly to sixty feet. Portions of it are now only thirty feet wide. The proposed assessment district will extend from Adams street to the southerly city limits, and for a block on either side of Hoover street.

AT THE COURTHOUSE.

TRIED TO INCITE HIM TO CRIME.

WIFE TELLS HOW SHE URGED WILSON TO SHOOT.

Sighs With Apparent Regret Over Her Own Futile Effort to Kill Belden, but Declares Husband and Herself Mentally Unbalanced at Time—Accused Has Restless Day.

Mrs. Bertha Wilson, whose husband is on trial for his life in the Superior Court, was called to the witness stand by the defense yesterday afternoon. Her testimony was along the line of defense (the claim of unsoundness of mind) chosen by her husband's counsel, but there were moments when she seemed ill at ease.

Very quietly she told of the discovery, as she alleges, that her 13-year-old daughter, Natalie, had been betrayed by Wallace Belden, drummer in the band at the Majestic Rink. Even more quietly, but with an air of forced calmness, she told how she took her revolver and went out on the walk as Belden was on his way to the rink, and fired two shots at him.

"Why?" she was asked.

"Because he had assaulted my daughter."

"You intended to kill him?"

"I did."

"But you missed him?"

The witness did not answer at once. She sighed gently, but as if a world of regret were expressed in the passing of that breath she rested her chin in her hand and compressed her lips tightly while a glow of angry sorrow seemed to burn in her eyes.

"What did you say to your husband that night, August 12, after you had tried to kill Belden?" was asked.

"I told him that if he was half a man he would finish what I had failed to do."

The grim formula, the witness said, she had dinned into her husband's ears day after day, repeating it to him for the last time on the morning he went forth to kill Belden. It struck some chord of anguished memory in the accused, for he bowed his head forward in his hands, rolling his head from side to side.

With a seeming note of triumph in her voice, Mrs. Wilson admitted repeating the deadly words to her husband on the morning of August 29. A moment later, when Earl Rogers asked the question with soft deliberation, she said that she believed she had been crazy at the time, and that her husband had not been in his right mind.

But after that assertion her self-possession, apparently deserted her. She no longer looked at the attorneys in calm assertiveness, but bowed her head, resting her chin in her hand. The question was asked again, in a different form, and she reiterated: "I think he was irrational at the time of the shooting."

Many witnesses were called to show that Wilson had been a mon of "peace and quiet" before the events which culminated in the alleged slaying of Belden.

One witness, W. H. Bean, told of talks with Wilson after the latter's stepdaughter had told her story of betrayal. "I told Wilson it was a pity Mrs. Wilson did not get Belden when she shot at him," he stated.

Testimony of that nature was brought out wherever possible to show how Wilson's mind might have been wrought up to the point of emotional insanity.

A feature of the trial yesterday was the closing of counsel over questions of legal privilege. Earl Rogers was quite ill, and in a belligerent mood. A tendency in Deputy District Attorney Blair to throw out questions so quickly on cross-examination as to cut off part of the witnesses' answers, drew his wrath.

"Let the witness answer the question, will you?" he would roar, and then, perhaps, would apologize to the court, Judge Smith finally rebuked them both.

Wilson's manner was different yesterday from what it has been before since the selection of the jury began. He showed interest in the proceedings and changes of expression. Twice, at least, he actually smiled, a thing which had seemed impossible, and the death's head appearance which stamped him Thursday, was gone.

The trial will be continued this morning at 9:15 o'clock. It is believed that the taking of testimony may be completed by noon.

The case, on both sides, is more clearly defined than in the former trial. The defense, as outlined yesterday morning by Earl Rogers, is confined to Wilson's alleged mental unbalance. Everything having no bearing on this has been ruled out of the testimony, and testimony dealing with Belden's alleged assault on Natalie Wilson is permitted in the testimony only when it was something told to Wilson which might have some effect in unsettling his mind.

COURTHOUSE NOTES.

BREVITIES MISCELLANEOUS.

EXTREME CRUELTY. Mrs. Agnes H. Knapp, who was married to Ethemer Knapp July 29, 1906, was granted a divorce yesterday in the Superior Court. Her father testified that he had seen his daughter choked by her husband.

CAR ACCIDENT SUIT. Abraham Delgado, aged 20, has brought suit through his guardian, Tiburcio Delgardo, for $5000. The complaint, which was filed in the County Clerk's office yesterday, alleges that the boy was struck by a car at the intersection of Aliso street and Mission road, while riding a bicycle, and that he received permanent injuries.

PECULIAR CORPORATION. Papers were filed in the County Clerk's office yesterday by the Oesterreichisch-Ungarischer Verein. This concern purposes to build schools, hospitals, homes for the aged and sick, eleemosynary institutions; to deal in real estate; to pay death benefits of $100 to heirs of its members, and do various other interesting things, and all without the issue of a single share of capital stock. The trustees are John Helas, Peter Kotterer and Jackob Kotterer.

OTHER CORPORATIONS. F. D. Hinsdale Company, to deal in bonds and real estate, Los Angeles, capital stock $50,000, of which $300 is paid up; Musical Entertainers of America, for mutual benefit of members, no capital stock.

BISHOP'S CUP CHOCOLATE

Made in a minute. Put up in handy cakes containing the chocolate, milk and sugar. Only boiling water is needed to prepare it. Cost, per cup, 2½c.

THE INFERIOR COURTS.

AIM BLOW AT LOTTERY MEN.

POLICE TRY TO RID CHINESE QUARTER OF "LOOKOUTS."

Wong Chick, Said to Be One of Them, Arraigned in Police Court. Toy Kee Accused of Practicing Medicine Without Diploma—Architect Soper to Fight Statute.

In the Police Court yesterday Wong Chick was arraigned as a vagrant, an unusual charge in the case of a Chinaman, and he will be tried on Tuesday.

Officers say that Wong Chick is a "lookout" for a lottery joint. It is an important position in the eyes of his countrymen. "Lookouts" are numerous in the Chinese quarter. They usually appear to be calmly contemplating things celestial, but the sky-turned eyes see everything unusual on the street.

Comes a policeman or any one who looks, from a Chinese point of view, suspicious, the "lookout" discreetly coughs. Perhaps he says something in a low tone; perhaps he simply moves his hand and touches a button. Instantly fall heavy, iron-clad bars behind four-inch-thick doors of quartered oak.

Go down a street or alley in Chinatown when a lottery raid is expected, and you will hear the whirr of buzzers and the jingle of bells on all sides. And from all sides will come the crash of falling bars.

The police say that if they can convict Wong Chick, it will be easy to dispose of other "lookouts," and raids will be more successful. Incidentally, many of the lookouts, the police say, are employed by tongs as shadowers of enemies and suspects.

Alleged Bad Men.

In the Police Court came a beginning of a clean up of alleged highway robbers and burglars yesterday. C. Gonzales, who is accused of picking a man's pocket of $110 in a saloon on Arcadia street, was held for preliminary examination, bail being set at $500. Pedro Ramos, Rudolpho Santa Ana and Francisco Sanchez, who are accused of knocking down and robbing a countryman one week ago, were held for examination under $3000 each. Lelanzo Chicon, who is charged with entering and robbing the residence of Stephen Castro on Santa Fé avenue, was held for examination under $1500 bonds. Chicon is accused of taking a trunk, carrying it away to the river bed and looting it.

Architect Fights Statute.

F. J. Soper, well known in Los Angeles as an architect, was in the Police Court yesterday, charged with practicing his profession without a State certificate. Soper was arrested at the instance of a contractor with whom he had a legal dispute over specifications for a building. After being sued by Soper, the contractor appeared as complaining witness in the case.

The attorneys for the architect interposed a plea of illegality of the statute on the grounds that the law gives the board arbitrary power, and does not specify anything as to the necessity of examinations, and that the law nullifies itself by excepting from prosecution such architects as inform their clients that they have no certificates. The matter will be argued at length next week.

Lottery Keepers Fined.

Quoy Fong, Woy Kim and Ah Kee, in the Police Court yesterday, were fined $50 each for maintaining lottery joints. Kim will fight his case. The officers had to break down doors and partitions to get into the rooms in which the men were found.

Cook Thrashes Dishwasher.

Edward Hurley, a cook in a South Main-street restaurant, didn't like to have the dishwasher go into his part of the kitchen, and there was a quarrel. The dishwasher preferred a battery charge in the Police Court yesterday. Hurley was fined $15.

Kaiser Wilhelm, it is said, is planning a visit to King Alfonso of Spain to return the recent visit to Germany of the Spanish King, about the end of March.

When You Take Cold

One way is to pay no attention to it; at least, not until it develops into pneumonia, or bronchitis, or pleurisy. Another way is to ask your doctor about Ayer's Cherry Pectoral. If he says, "The best thing for colds," then take it. Do as he says, anyway.

We publish the formulas of all our preparations. J. C. Ayer Co., Lowell, Mass.

MEN'S CLOTHING REDUCTION

Our lines of Men's Clothing have been sharply reduced. An opportunity here to replenish your wardrobe at a substantial saving. Chesterfield Clothes included in this sale.

... States Attorney C. A. STARTLING STATEMENTS.
... have been holding Without one whit diminution in ... city for the last two point of interest the second day's ses- sion of the Interstate Commerce Commission began yesterday morning in the Bullard Block. Second Vice-President J. Ross Clark of the Salt Lake road, who had spent the entire previous day upon the stand, was recalled and asked a few questions regarding the car shortage in Southern California.

He answered that the rush of business and the general congestion of traffic throughout the entire United States had its effect upon the shortage of cars in this section. That his company was doing everything possible to secure cars sufficient to meet the demands.

An attempt was made to prove that the Union Pacific, or the Oregon Short Line, was using six locomotives of the Salt Lake road, although the latter did not have sufficient motive power to handle its business. Mr. Clark said he had no knowledge of such a condition.

T. E. Gibbon, former counsel for the Salt Lake road, and one of the attorneys who drafted the contract for ninety-nine years between the Union Pacific and the Salt Lake roads, in reference to rates and the interchange of traffic, was then called.

C. A. Severance, attorney for the government, carried Mr. Gibbons back to the clash between the Union Pacific and the Salt Lake roads in reference to the famous Meadow Valley wash in Utah.

WAS BLUFFED OUT.

Mr. Gibbons said that the Salt Lake had taken up the title to an old railroad grade which was thought to have lapsed through non-payment of taxes. This grade ran through the Meadow Valley wash. At the same time, Mr. Gibbons said, the Union Pacific, through a subsidiary company, secured the title, which had been held by the original company. Other titles of lesser weight were secured by each company, and then the courts were sought.

Mr. Gibbons said that he understood that the Union Pacific would have built a line to Los Angeles parallel to that of the Salt Lake survey had not a compromise been reached. In answer to a question, he stated that the Salt Lake road had at first expected to secure traffic from both the Rio Grande and the Union Pacific, but had found it "to their best interests" to make a deal with the Union Pacific.

Some little discussion arose over the interpretation of a clause in the contract in which the national law was mentioned. The contract is held by the railroad attorneys to apply solely to local traffic, and not to interstate business.

Mr. Severance asked Gibbons the meaning of the words mentioning that no national law shall be violated to keep the terms of the contract. The discussion over this matter was technical. Gibbons explained that it provided against any future extension of the national laws to meet with local business within a State. Commissioner Lane asked Gibbons what benefit accrued to the Salt Lake road by having half of its board of directors appointed by another road.

COULD MAKE OR BREAK.

Gibbons explained this in a manner, by saying that in his opinion, it would have been a financial impossibility to operate a road between Los Angeles and Salt Lake without some agreement with roads entering and leaving Salt Lake, so as to give the road a connection to the East. Mr. Lane then brought out that it was in the power of the Union Pacific then to make or break any road entering Salt Lake, which was considered an unfriendly property.

Severance stated that the Rio Grande property would have afforded an eastern connection, but Gibbons said that the low grades on the Union Pacific as against the greater grades and lower standard of equipment of the Rio Grande made it desirable to make good time to operate over the Union Pacific.

Severance then asked Gibbons how it was that the fastest train in the freight line the Salt Lake road ever operated was operated over the Rio Grande, but that it was subsequently discontinued.

Gibbons replied that he had no first hand knowledge that the Rio Grande tracks had been used, but thought that faster time could have been made over the Union Pacific. Severance then asked an explanation for the fact that since the Union Pacific tracks had been used, the citrus trains from Southern California occupied sometimes sixteen days between here and Chicago. Gibbons could not explain.

UNEQUAL AGREEMENT.

Mr. Gibbons was questioned at some length upon the old question of the unequal interchange of traffic agreement made between the Union Pacific and the Salt Lake roads.

When the afternoon session opened R. G. Wells, general manager of the Salt Lake, was called to the stand. He stated that he had no part in the work of dividing the through freight charges between the Union Pacific and the Salt Lake roads. He brought out the fact that the road had only 250 of the 3000 refrigerator cars contracted for with the Armour Company on their lines at the present time. He said, however, that his road was able to handle all of the vegetable or fruit business offered it.

For the first time during the sessions of the commission was the word "local" shown to mean, not business confined within the boundaries of the State, but really in railroad parlance meant all shipments as far east as the Missouri River. Mr. Wells furnished some data as to the number of cars handled last year, and said that the Salt Lake had handled about 10 per cent. of the citrus shipments from Southern California, the Santa Fé and the Southern Pacific handling each 45 per cent.

WAS TOO GOOD.

Wells at first said that he did not know who had caused the famous citrus special of the Salt Lake to be discontinued. He said that it had been run via the Denver and Rio Grande and the Burlington to Chicago. Then, upon being closely questioned, admitted that the Southern Pacific, the Union Pacific and the Santa Fé had induced the Salt Lake to take off its fast train for the reason that it made almost two days better time to Chicago than did any other road.

J. Ross Clark was recalled to the stand for a few moments and submitted schedules of rates for through shipments and said that the rate of 60 cents per hundred-weight for freight to Utah points which the Southern Pacific had maintained was to be cut through the efforts of the Salt Lake, and that the reduction was 18 cents per hundred.

Mr. Severance picked this seeming reduction to pieces, showing that the reduction was only upon "class" freight and did not affect commodities. Severance said that the Southern Pacific had reduced rates on class freight a month or so ago, and that this move was only an attempt to meet the rate of the Southern Pacific.

This Southern Pacific reduction was denied and Severance asked if the Southern Pacific, with 500 miles longer haul, was going to continue to hold its class freight higher than the Salt Lake.

ORANGE GROWERS SUFFER.

T. H. Phillips of the California Citrus Union was called and gave some valuable information concerning the shortage of cars and the difficulties under which the orange growers were laboring. He testified to his company being 2000 cars short over the same date last year, and that great losses were being sustained by fruit spoiling. He said that one year ago T. H. Graham, assistant general freight agent of the Southern Pacific in Los Angeles, had objected to his shipping fruit over the Salt Lake.

F. Q. Story, president of the Alhambra Fruit Exchange, was called and stated that one day's difference in time between Los Angeles and Chicago meant often as high as $200 saving per car of oranges and that the fruit growers had been elated when the Salt Lake had started its fast service to the East.

He said that the minimum freight a car shall carry had been increased and the estimated weight of the boxes containing the fruit had been increased, pense to the grower, while the freight rate remained the same.

B. A. Woodford, general manager of the California Fruit Growers' Association, was called as the last witness, and corroborated the facts already brought out, and also made a plea for lower freight rates.

Commissioner Lane adjourned the session to convene again in New York February 25.

J. C. STUBBS.

...r of freight rates on the Union Pacific, the Oregon Short Line, the Southern Pacific and the ...roads. He was unmoved by the storm of inquiry which beat about him at yesterday's session ...Interstate Commerce Commission.

NEW TICKET AGENT.

J. C. Graves Is Promoted by the Salt Lake Road to Have Charge of Local Office.

John C. Graves is the new Los Angeles ticket agent for the Salt Lake road, and is in charge of the office at Spring and Sixth streets. Mr. Graves is almost a Native Son, and entered the employ of the Salt Lake road in November, 1906. In January, 1906, he was promoted to be assistant city ticket agent, and upon the death of George Havens this week was promoted.

Mr. Graves came to Los Angeles when only 6 years old, and began his railroad career ten years ago in the old offices of the Santa Fé, in the Bradbury building. He remained with the Santa Fé for nine years before becoming associated with the Salt Lake. Mr. Graves is 26 years old, and is well known and liked in railway circles, and among a large circle of friends throughout Southern California.

The London Standard's Berlin correspondent says the German government is expelling aliens who aided Socialist candidates in the recent elections. The chief offenders were Russian students with revolutionary proclivities, who made speeches on behalf of the Socialists.

ALFRED BENJAMIN'S

$20, $22, $25 : $30 SUITS

Final Clean up $15

FINEST READY-TO-WEAR TAILORING IN AMERICA

"Final Clean-up" means that we're actually taking a decided loss in order to wipe away the last of the broken lines.
There are exactly 103 of these suits—each one a finished masterpiece of rich quality and skillful tailoring.
Not like the marked-down suits ordinarily sold about towns—not an old style in this lot.
Every suit is cheap at its original price and absolutely above comparison with any other ready-made clothing.
Come as early as you like—there'll be others ahead of you.

Where A Home Is A HOME

No Comparison to be Made 'Twixt a Stuffy, Crowded City Lot and an Alhambra Acre Home. That's Settled.

YOU, too, want to shake the dust of the city from your feet, build a home 'mid ideal surroundings, where you can LIVE; where you can forget business cares, escape the noise, the odors, the inconveniences, and turmoil of city life.

YOU, too, want pure air and freedom. You want to raise your children as they should be raised—give them the strong bodies and clean minds that only unhampered, natural semi-country life can give.

You can get all this at ALHAMBRA ACRES. And more; quick electric and steam suburban car service, not slow, congested city service; gas; electricity; water; graded and oiled streets; cement walks and curbs.

Is that enough? Get free tickets at Los Angeles office and see for yourself.

MIRAMONTE PARK IS NOT A DREAM

Miramonte is a grand reality. It is dotted with full-grown trees and comfortable houses. With the leaves on the walnuts and the spring blossoms, will come higher prices—values are increasing every day. Only a few lots are left in the owners' hands. Just as soon as they are sold, there will be no more cheap lots, and the prices will jump to the level of surrounding prices.

Miramonte is an aggregation of good houses just 400 yards from the city limits on the Huntington electric lines to the beaches, which afford frequent cars and 15 minutes' running time to Sixth and Main streets. 5 cents commutation fare.

Miramonte has good streets, curbs, cement walks, ornamental palms, large fruit trees, alleys, electricity, grocery store, and school.

Prices are $625 and up; terms, 10 per cent. down and balance $15 a month, or 10 per cent. discount for cash, or one-fourth down and balance to suit. 6 per cent. interest on deferred payments.

Call or write for our pamphlet, or go direct to our office on the tract. Take Pacific Electric south-bound cars to Spalding Station.

PUBLISHERS OF

Los Angeles Daily Times

Daily, Weekly, Sunday, and Weekly Magazine. Vol. 51, No. 48. Founded Dec. 4, 1881. Twenty-sixth Year.
EVERY MORNING IN THE YEAR.

NEWS SERVICE—Full reports of the Associated Press, covering the globe; from 25,000 to 30,000 words transmitted daily over more than 50,000 miles of leased wire.
TERMS—Daily and Sunday, including Magazine, 75 cents a month, or $9.00 a year; Daily, without Sunday, $7.20 a year; Sunday, $2.50; Magazine only $2.00 a year; Weekly, $1.50.
TELEPHONES—Counting-room, Subscription Department, Editorial Rooms, City Editor and Local News Room, 1054 Press 1; Home call for THE TIMES.
AGENTS—Eastern Agents: Williams & Lawrence, Tribune Building, New York; 1236 Marquette Building, Chicago; Washington Bureau, 46 Post Building, telephone 1247 Main, where the latest copies of The Times may be consulted. San Francisco office, Midway Building, 716 Market street, between Third and Fourth. H. Libbey, Representative.
SWORN CIRCULATION—Daily net average for 1874, 18,901; for 1897, 30,250; for 1898, 26,1..; for 1899, 25,781; for 1900, 26,730; for 1901, 28,448; for 1902, 30,950; for 1903, 30,566; for 1904, 37,702; for 1905, 48,150; for 1906, 50,501 copies; Sunday average for 1906, 70,749 copies.

Yesterday's Regular Edition.....

THE TIMES has a larger regular home-delivered circulation than any local rival. It circulates widely among the intelligent, industrious, substantial, forehanded classes. The greatest volume of business advertising, the finest display, the best classifications, the largest results to advertisers.

Offices: Times Building, First and Broadway.

Entered at the Los Angeles Postoffice for transmission as mail matter of the second class.

PART II: EDITORIAL, LOCAL AND BUSINESS SECTION

Pen Points

Mr. Harriman's good will came high, but apparently the Salt Lake had to have it.

It is only the law that is against railroad passes. Everybody else is in favor of them.

If fat men must wear corsets this will be a sad world. A man will then be afraid to laugh.

The Interstate Commerce Commission is throwing light on the situation, but will that relieve it?

Mr. Rockefeller has given $88,000,000 to the cause of education. It must be true. He admits it himself.

Certainly no one can justly accuse Evelyn Thaw of trying to realize on her husband's life insurance.

Schmitz has begun to ooze. But he will be quiet enough after the President gets through with him.

There is a suspicion that it is only those who find the Constitution in their way that want it revised.

Jewel-studded heels are soon to be the fashion in women's shoes. The highwaymen will then have to lie low.

As far as we are able to understand the proceedings, all the lines leading into and out of Los Angeles merged their cinches.

Education is a great blessing, but there are a lot of highly educated men in this country who have hardly enough to eat.

Whether or not Evelyn Thaw's open confession is good for the soul, there can be little doubt about its being a help to Harry.

It is made plain that whatever competition there is among railroads in other respects, there is none in regard to the rates they charge.

Obviously, Harry Thaw thought it no harm to let a few more people know about his wife, if by so doing he could escape the voltage.

A scientist says that the nose plays a large part in crime. He probably gets the idea from the fact that the noses of a great many criminals are red.

An American doctor who desires to practice in Peru must pay a license fee of $200 in gold. Peru is taking big chances on some of them, even at that.

Sacramento claims 50,000 inhabitants, not including the attachés of the Legislature. With those included Sacramento could easily claim 100,000 population.

Count Boni Castellane should not be blamed for refusing to go to work. Even if he did get a job his creditors would be certain to garnishee his wages.

One argument in favor of an Iowa man for President is that she must be given the honor soon or it will be too late. Almost everybody who can do so is moving out of Iowa.

As a hopeful sign, it might be mentioned that no changes have been made in the Cabinets of the King of Spain or the President of the United States for more than two weeks past.

This talk about corsets for fat men must come from people who have never been fat. A corset on a fat man would be the same thing as putting the thumb screws on a martyr.

Coney Island reports a mirage. Some day it will be found that unless the unrestricted drinking that people indulge in when they visit Coney Island is cut out, snakes will be seen there.

The railroads have a right to contend, of course, that even at the rates they charge they are still carrying goods across the continent more cheaply than a man could do it on his back.

In cities the death rate is eighteen in every thousand, while in the country places it is only fourteen. Not that people in the rural districts are any healthier, but they haven't the same number of automobiles and other agencies of destruction to contend against.

In his magazine, "The Light of India," Baba Bharati calls us westerners snobs and soulless ignoramuses and virulently assails our "materiality." He hands the editor his publication with his fore-finger significantly pointed to this attack on western thinkers, and asks him for $4 worth of western "materiality" in the shape of newspaper publicity, appealing to us western "snobs" to exchange some of our "materiality," in the guise of silver coin, for his immaterial "mind-lotus" in yellow covers. But perish the thought that it is an itching for this western "materiality" that brings the transcendental Baba Bharati and the other oriental pundits to these soulless and snobbish (but perhaps too hospitable) shores!

FALSE-ALARM SCHMITZ.

Today a deputation from San Francisco is to meet the President at the White House, to discuss the Japanese controversy. The deputation includes that political pretender and mountebank, Mayor Schmitz, and members of the School Board.

A curious notion seems to prevail in many parts of the East, and to some extent in the national capital, that this deputation, headed by San Francisco's self-invited and fiddling Mayor, represents the sentiment of California on the question in dispute.

This is not true. Schmitz represents only an impudent, aggressive, despotic, proscriptive minority in the State, mainly confined to San Francisco. This minority is composed of the trades unions, who do not—thank God!—speak for the great mass of the people of the State. Schmitz is animated by but one motive, and that purely demagogical. He strives to satisfy the clamor of the labor organizations and make himself their hero. He cares nothing for fair play, equal rights or international obligations. He goes to Washington as a poseur, seeking to get into the popular eye and exploit himself in the white light of national publicity.

Schmitz and his partisans in the School Board will misrepresent to the President the actual sentiments of the great body of the people of this State. He will magnify and distort the situation in respect to the attendance at the public schools of San Francisco of a few Japanese children. He and they will try to make a purely local question an international affair. The real object which they are seeking is Japanese exclusion, and this upon the demand, almost solely, of the labor organizations.

The President will be told by Fiddler Schmitz that all California and the entire Coast are in deadly opposition to the presence of Asiatic laborers here. This assertion, again, is not true. The Pacific slope is a vast field for human endeavor, with few workers in comparison with its tremendous resources and the great tasks to be done, for which there is an inadequate force of Americans willing to perform the more menial labor. After all the shouting that has been done for years—after all the political denunciation of "hordes of Asiatic coolies" coming to our shores—the truth is that the better sentiment of California and the Coast is not opposed to a restricted immigration of Chinese and Japanese laborers to satisfy the reasonable requirements of employers. But there is almost universal opposition to the bringing of the families of such laborers, because there exists a sound sentiment against the natural increase of the Asiatic contingent, which spreads and spreads unless checked. Herein lies, in our judgment, the only real menace.

The Chinese never sought to ingraft themselves upon our civilization, or to bring their families with them, or to become naturalized, except in the rarest instances. The Japanese, on the contrary, are cocky, independent, aggressive and exacting in their demands. They want to come without restriction to our shores, bring their families, their household goods and gods—their "traps and belongings," in short; and the fact that they may become a troublesome element is recognized nowhere more fully than here on this Coast.

We believe that a law restricting and regulating the coming of Asiatic families, and admitting only men who come in search of employment, whether high or low, or for purposes of pleasure and travel, would be just and popular. Americans entering Japan will be expected to submit to like restrictions.

As to those Japs or Chinese who are already here, under treaty stipulations, or who may come under the terms of any future treaty, they are entitled to the most complete protection, to immunity from proscription, violence and maltreatment. It will be a shame to the country and the age if the persecutions visited by people of the Schmitz stripe upon Chinese in this country during the last forty years shall be continued.

After persecuting the Chinese coolies in this country during the past forty years, and enacting the most rigid exclusion laws against them, we are witnessing the curious spectacle of unthinking Americans turning more or less suddenly to the Japanese as a more desirable class of immigrants. No conclusion could be more absurd or have less ground to stand upon. As a matter of fact, the Chinaman, as a workman and a denizen, is far preferable to the Japanese in this country, whatever the latter may be at home. The Chinaman is, as a rule, honest, industrious and faithful; he is a patient worker and harmless (outside of the highbinder class.) As much cannot always be said of the Jap, who has too often shown himself belligerent, tricky, two-faced and untruthful.

In forty years, it is safe to say, the Jap will, if permitted to migrate to this Coast without restriction, especially if he is permitted to bring his family and breed more Japs, be the cause of ten times—yea, one hundred times—the trouble to our people and government that was ever caused by the Chinaman.

As for the school question in San Francisco, let that be decided by the courts—by the Supreme Court of the United States—and then let everybody in both countries abide faithfully by the result.

And, last of all, let the President of the United States, members of Congress, the State Department and all others concerned disregard the monthings of Mayor Schmitz, the indicted grafter, and his labor-union gang, and they will come nearer to reaching right conclusions than they can come by listening to the clamors of narrow, pinhead politicians who do not represent one-twelfth of the sentiment of the country. Let the impudent and lawless minority not be mistaken for the great law-abiding majority!

MOTHERS.

People who are following the trial of Harry Thaw in a thoughtful way, must be impressed with the idea that if the mother of Evelyn Nesbit had been less negligent in her care of this poor girl, who now stands shamed and irretrievably disgraced before the world, the nauseating story would never have been told.

It appears that the mother of Harry Thaw's wife thought it was a fine thing for her daughter to be admired and entertained by people of wealth and influence. She seemed flattered by the fact that a man like Stanford White took Evelyn up and "made a fuss" over her. She did not think it necessary, evidently, to ask for White's credentials as a man of morality, or anything of that sort. In fact she thought the best thing that could happen her daughter—and, incidentally herself—was to be patronized in a substantial way by persons of wealth who could produce money and jewels and fine raiment on call without reckoning the awful price that must be paid for it all.

It is to be feared that there are too many mothers in this country who allow themselves to be deceived along the same lines. Women who desire to go out and make a stir in the world, for instance, to make stump speeches, reform the universe and tear things up, sometimes do not find the leisure to look closely into the welfare of their daughters, with the result that the girls often choose their own companions with no good to themselves. There are mothers who think diamonds and automobiles and fine feathers are the things that their girls should aspire to, let the sacrifice of character and virtue be almost what it may. At least one must suppose this to be the case, judging from the course which these mothers pursue.

But it is the mothers who will not countenance this false view of life, even at the risk of being considered "narrow" and "old-fashioned," that the world must be thankful for. And it still has them to be thankful for, thank God. Having daughters, they regard themselves as being responsible for them. They exact a rigorous account from them for all their actions. They do not send their lambs to play with the wolves. They know their associations and see to it that they are none but the best. Wealth or poverty are alike immaterial to such mothers as these. The thing that matters to them is that their daughters shall grow up to virtuous and pure womanhood.

Let us rejoice in her—the old-fashioned and domestic mother! It is to her that the race looks with hope and confidence. It is upon her that the world must depend to save humanity from curse and pestilence. She goes her way, whether it be from mansion doors or the thresholds of humble cottages, fulfilling her mission on earth, her eyes level with the duty of the day, her conscience serene when night enfolds her in the wings of sleep. And where she walks the roses bloom, the lilies lift their cups and the angels stoop to sing.

THE GREATEST BUSINESS MAN OF ALL.

This is a business age and the merchant is king. Uncle Sam is the greatest merchant in the world and therefore the king of kings. The exports of our manufactures in the past fiscal year prove these statements. We sold to the outside world in the year ending June 30, 1906, merchandise which brought us back $2,403,976,551.

The most noticeable figure about these exports is the proportion of manufactured articles as compared with domestic produce. Of the total given above, manufactures entered into them to the amount of $686,023,169, or almost 40 per cent.

The Bureau of Statistics of the Department of Commerce and Labor has recently published a note on the exports of the country for the calendar year 1906. According to this statement, the exports of manufactures for that year amounted to $719,000,000, or $33,000,000 more than for the fiscal year, being 41 per cent. of the total exports for the calendar year.

Returning to the exports for the fiscal year, of which details are given, it is noted that dividing the world into grand divisions our exports of manufactures to Europe amounted to $318,503,047, or nearly 27 per cent. of all exports to that division of the world. The next most important division in this respect is North America. In the fiscal year the exports of domestic products to countries in North America reached the enormous figure of $294,546,176, while of manufactures the exports were worth $182,121,776, or nearly 62 per cent. of the whole exports. North America outside of the United States of course means merely Canada, Mexico and the Central American group of republics. These neighboring republics took nearly three times as much of our domestic products as all Asia and much over twice the exports of manufactures to all Asia.

The following is a detailed statement of our exports, both of domestic products and of manufactures for the fiscal year 1906, and it will be interesting to note the amounts of each taken by such countries as the Chinese empire and Japan. Cuba will also attract attention for the liberal purchases of our goods by the people of the island, and the Philippines for the opposite reason, the smallness of their dealings with us.

Countries—	Exports of—Domestic products	Exports of—Manufactures
United Kingdom	$[illegible]	$132,450,935
Germany	232,665,778	34,632,230

INTERNATIONAL PEACE.

Living in a moving, practical, work-a-day world, The Times does not agree with the dreamers who vainly imagine that the millennium is at hand or can be brought about in any short time.

Remote as the realization of aspirations may be, that does not affect the existing conditions which are an utter disgrace to humanity and civilization. There is no more rational fundamental reason for international wars than for personal encounters between individuals or neighborhood rows.

All the nations have to do is to come to the realization of the fact that wars are against the mutual interests of everyone. The thing is to awaken in the minds of the governments a sense of community of interests similar to that in neighborhoods and between all pairs of individual neighbors. Once establish the fact of this community interest between the nations and the rest of the way to an arbitration court and an international police force insuring international peace, is a plain and easily-traveled road.

Take for example the last disastrous war that brought so much misery on tens of thousands of the human race and destroyed the fruits of years of toil and labor. On the side of Russia is a great empire of vast territorial extent and of resources almost infinite in their variety and more so in their extent. One thing was lacking for the natural development of this great people. They needed an outlet to the high seas, permitting the establishing of over-sea commerce. For 300 years Russian aspirations had been directed to the realization of this ambition. At every point of the compass the onward march of the Muscovite people had been checked by her jealous neighbors, led by England. The Black Sea was made practically an inland lake by the great plug driven by the other nations of Europe into the Bosphorus, bottling up Russian ambition. The Baltic Sea is in the same condition. For Russia to maintain her fleet outside of these inland seas under the existing circumstances is an impossibility.

Recognizing these impossibilities, Russia began making headway southward toward the Persian Gulf, but again England made such a door to the high seas impossible for the Russian people. Only one way was left. Russia turned to the far-away Orient and at enormous expense, with great pains and labor, years of effort, she constructed a railroad across the dual continents to Port Arthur. Here at length the dream of 300 years seemed about to be realized.

But newly awakened Japan saw that establishing Russian power on a permanent basis at Port Arthur and generally in the peninsula of Manchuria threatened the existence of her government and people and called a full stop. We will concede that it was a matter of development on a large scale to Russia and a matter of national existence to Japan. These were the conditions that led to the war. Somebody says, "the survival of the fittest."

Let us grant the force of the last remark. But what becomes of the unquestionable, inalienable rights of China and Korea? By the triumph of the Japanese arms, Manchuria becomes a Japanese province and China, the natural governor of that territory, has scarcely more control there than a thousand miles away in Siberia. As for Korea, that was an independent empire, and today is a satrapy of Japan and governed with a tyrant's rod.

Let us concede that Manchuria was badly governed and that Korea was in a state of barbarism. That does not alter the case. China had and has rights in Manchuria and the Korean had and has a right to self-government. Neither Russia nor Japan on any basis in the face of any reasonable plea had or has any rights whatsoever, either in Manchuria or Korea.

An international court of arbitration, backed by an international naval police force to preserve international peace, would have declared the inalienable rights of China and of the Koreans. If the community recognized among the nations took the view that the administration of Manchuria should be ameliorated and that the development of Korea had become an international interest, this court of arbitration would simply have appointed an international commission and brought about the necessary improvement in the government of Manchuria and the civilizing of the Koreans.

Let us take the strained relations of today between the United States and Japan. Japanese statesmen themselves declare that their country is no longer governable under the imperial edict of an unlimited monarch. It has become a constitutional government, and the people have taken things into their own hands. The Japanese people are exasperated because the United States in its offices between the two belligerents at the Portsmouth convention brought about peace in a way that deprived the Japanese of the immense war indemnity they expected to extort from Russia. Japanese statesmen also declare that they do not care to understand or enter into the relations of our Federal government with the separate States of this Union. They have a treaty with the Federal government, and they propose to hold that government responsible.

A conflict between our people and those of Japan would certainly be extremely detrimental to the interests of all the nations of the world. Leaving aside the question of humanity involved in the sacrifice of perhaps a million lives and the destruction of property (involving the toil of millions of hands and covering the work of years.) certainly a war is against the community of interests naturally existing between the nations of the world.

An international court of arbitration, with a proper naval police force behind it to enforce its edicts, would easily reach a rational solution of this difficulty, wherein so much noise is based upon so flimsy a pretext.

Well, we close as we began. The international court does not exist and the first step has not been taken for the international police force. The lamb has not been born and will not be for some generations, on whose back the fleece will grow out of which the first international policeman's uniform will be spun and woven. But let us not be discouraged. The eyes of the race are becoming opened, the mind of the race is becoming awakened, and at least we have entered upon the road whose end in the long future will arrive at the international arbitration court and the international police force. The building of warships by the nations for the protection of one against the other will cease and we will have one great international fleet under international direction to force the recalcitrant who will not obey the decisions of the court. Heaven hasten the day.

THE CLOUD IN THE SKY.
NO. 3.—THE CLOUD GETS THE WORST OF IT.

THE INNOCENT BYSTANDER.

The World of Make-Believe.

Here come the children at their play;
One stumbles in a trailing gown,
But smiles on in a queenly way
With some cheap tinsel for a crown.
One is a king, who struts in pride
And bellows forth his stern commands,
A broomstick dangling at his side
Becomes a scepter in his hands.
And so they play till dusky eve
Blots out their kind of make-believe.

They play at soldier; sailor, too;
As rich man, poor man, beggar, thief;
Or some may be the scowling crew
While one rules as the pirate chief;
And all the world they make is real,
The brass they clink is shining gold,
They hear the trumpet's ringing peal,
They see the banners gay outrolled.
Ah! Childish fancies, these, they weave
Within their land of make-believe!

And we, we older ones, we smile
At the glad nonsense of their play
That fills their minds and serves to while
The long, long moments of the day.
Half pityingly we look on
At mimic state and mimic strife—
We whose illusions all are gone,
We who do greater things in life
Than these gay deeds that they achieve
There in their land of make-believe!

And yet sometimes the fancy comes
That we are children, one and all,
With tinsel crowns and rolling drums
And baubled fame and trumpet call,
That somewhere some one sits and smiles
At the poor trappings of our state
And sees the feeble, childish wiles
With which we seek to conquer fate.
We old folk, too, as children, weave
Dreams in our land of make-believe.

Old Man Giddles—He Observes:

A legislator in Missouri has walked right up to fame and demanded to be measured for his laurel wreath. He has introduced a bill providing that no woman shall have, hire, buy, own, admire, borrow, desire, earn, purchase, receive, wear, keep, maintain or otherwise possess more than two hats during the course of each year. And more than that, the price of each hat shall be, and hereby is, the bill says, limited to $1.98.

It has been several years since a pale, high-browed friend of humanity arose in the halls of Congress at Washington and demanded that the national legislative body regulate the length of the rainy-day skirt. Any child in the country could have told you his name then, but he is forgotten.

There was once a determined man in Ohio, with a Daniel Webster head and George Washington feet, who tried to have passed a bill making it a misdemeanor for any lady to wear what is commonly known as a bustle. Both bustle and bill are lost in the dust of the past, but the man is also forty fathoms down in the sea of oblivion.

The Missouri legislator may not realize it, but he is greasing his own toboggan slide. No legislature will pass a millinery bill; few legislators can avoid paying them.

Every once in a while legislators have sought surcease from the arduous labor of wearing long-tailed coats and getting jobs for their constituents by proposing laws that should make the peekaboo waist [illegible] on a plane with the only fame [illegible] their names [illegible] ed at the next [illegible]

Mankind has [illegible] names of the [illegible] who framed the Co[illegible] hibiting kissing [illegible] women to wear bright [illegible] ing it unlawful [illegible] their hair, rub powder [illegible] noses or stick pins [illegible] where they would [illegible] their dimples.

It is all very well [illegible] woman's crowning glory [illegible] but they say that a [illegible] costs as high as $25. [illegible] ing to put a ninety-eight hat [illegible] switch? Never. By the [illegible] Pitcher, Cleopatra, [illegible] all the other heroines [illegible] down to the present day [illegible] prestige it would give a [illegible] wearing a hat that [illegible]

The only ray of hope [illegible] isolator to announce [illegible] point slipped, and who [illegible] provide wuss that each [illegible] have at least two hats [illegible] $198.

Old Bleach Linens

Coulter Dry Goods Co.

Ostermoor Mattresses

219-220 So. Broadway. 224-228 So. Hill St.

Ceilings, plain or fancy, in spring's best colors, at 18c a yard today.

New arrivals of white ruching by the box; three styles, 25c; six styles, 40c and 80c a box.

Men's $1.50 Nightshirts for $1.00 Each

A dollar for $1.25 and $1.50 men's outing flannel night shirts for men is about as easy a way of saving money as provident men will care for.

Nothing wrong with material or finishing, each shirt is long and full, and of best quality outing flannel, and every one we have at the two prices is buyable for $1.00 today—and today only.

Outing flannel pajamas, nicely trimmed, and well worth $2, for $1.50 a set, today.

Fancy half hose that sell in other good stores for 50c apiece are here three pairs for a dollar—good variety and all sizes, of course.

Annual Sale

Children's Undermuslins

The annual sale of children's undermuslins is its own best advertisement. Every purchase, at prices averaging a third less than usual, is a news agent more powerful than type and newspaper space. And this day presents a scope for choosing almost as extensive as at the first of the sale. "Stock up" the children's wardrobes with fresh supplies of dainty skirts, gowns and drawers, at substantial savings now.

Light Weight Coats For Spring Wear

You'll want to find excuse for a new spring coat if you set eyes on these late arrivals, they're at once so attractive, in their light shades of plaids, mixtures and neat stripes and so inexpensive, too.

The styles are authentic, and you may safely base your ideas of what is proper this season upon them. The short box coat, or the loose front with fitted back, predominate in favor, and they're made by tailors who know how to give grace to each garment, along with faultless tailoring and finishing.

At five dollars there is a complete line of the box coats, at six-fifty the same styles are shown with velvet collars, and at seven-fifty we show dozens of patterns in short fitted back styles.

Get a Pattern Off These Handsome Silks

Unless you've been in the store very, very recently, you've no idea of the new silks that are arriving by every express. Can't begin to describe them all, here's just a hint.

Messaline shower-proof foulards—that they are Cheney Bros.' manufacture is their best recommendation—in Jaquard effects on light grounds with dark figures and coin spots, 88c, $1.00 and $1.25.

New shadow checks with embroidered silk polka dots on plain or Persian grounds' $1, $1.25 and $1.50.

New cameo stripes in punjab weave, navy, reseda, brown, gobelin, mulberry, very new and truly exclusive, $1.25.

BIBLE LESSONS.

FOR SUNDAY-SCHOOL TEACHERS AND OTHER BIBLE STUDENTS.

Prepared for The Times by J. S. Kirtley.

SUNDAY, FEBRUARY 16.

Genesis xii. 1-8: "Abraham Called to Be a Blessing."

THE CONNECTION.

It was at least four centuries after the flood. The descendants of Noah's three sons were numerous and widely scattered. Though they were on a higher moral level than the men before the flood they had become worldly and in most cases idolatrous. Their worldly ambition showed itself in building the tower of Babel. God was determined to preserve one people in whom He could fulfill His promise to give them a redeemer. Of Noah's sons He chose the line of Shem; of Shem's descendants, Abraham. He scattered the builders of Babel and confused their speech in order to separate His chosen line from them, and that was the beginning of the thousands of different languages and dialects. The call of Abraham introduced a new epoch; it also introduced God's new method, "the fencing round of one people till they should learn to know God and understand and exemplify His government." He found it necessary to create a separate people and make it their national business to preserve the knowledge of God, in order to havebany pure people at all, and make them the means of finally blessing the others from whom they were separated. God chooses Abram to start the new nation. There was wisdom in the choice, as we shall see as we study today's lesson.

THE LESSON.

I.

The call made. 1-4.

"Now Jehovah said unto Abram, Get thee out of thy country, and from thy kindred, and from thy father's house, unto the land that I will show thee; and I will make of thee a great nation, and I will bless thee, and make thy name great; and be thou a blessing; and I will bless them that bless thee, and him that curseth thee will I curse; and in thee shall all the families of the earth be blessed."

God's reason for selecting a man to found a nation, to whom He could give His oracles and in whom the Redeemer might come, was wise, for that was the only possible way of preparing for the event. His wisdom in selecting Abram to pass in the man and his training. His was a lofty personal character, as the name Abram, "exalted father," indicates, and good material is required for good work; he had a more moral ancestry, for the noble Terah was his father; he had probably the training of the cultured Chaldeans, for they had a highly developed civilization, as is shown by the recent discoveries on the site of the city Ur, with the monuments of its former greatness and by the recent discoveries in Tel-el-Amarna, in Egypt, of the commercial correspondence between Chaldea and Egypt. His method was to found a new nation not on the old principle of selfish lust of territory, love of power and cruel hatred of other nations, but on the new formative principle of faith in God. He was trying to teach the people to trust Him and be ready to trust the Redeemer who was to come. Isolation from moral contagion was His method, even as today people are treated for disease by isolation. He knew that Abram would have a purer faith away from idolatrous kindred and friends and that his descendants could never be kept from going back into idolatry among they were cut off from all idolatrous association. Segregation was the all important principle. The idolatry in Ur was unspeakably obscene.

He told Abram what he wanted, concealing nothing disagreeable. He asked him to begin his career by one act of renunciation, just as all noble careers begin that way. Consider what Abram was to give; his native land and all its hallowed associations, his kindred and his former friends, his ancestral religion. Yet he gladly made the sacrifice, though he knew and felt all their attraction; perhaps was made sport of by his friends and did not know exactly what he was to get in return.

He promised wonderful things to Abram.

First—He promised him a country of his own in place of the land of his fathers. That was something, and the homeless should have a home.

Second—He promised to let him become the father of a great nation, to take the place of the nation he left behind him. The solitary one, bereaved of his kindred should found a nation himself. That is compensation. That promise was fulfilled in the nation of Israel and is having a nobler fulfillment in the spiritual Israel now being gathered.

Third—God's special favor to it is treat on Him and His—"I will bless thee."

Fourth—God would give him a great fame. And it was so. Abraham was known and reverenced by many in his life; his name has been honored by his descendants as the synonym of fidelity; he is the spiritual type of all Christ's disciples; his name has been given to the abode of Christ's true disciples—Abraham's bosom.

Fifth—He was to have God's constant protection, winning to him the fear and respect of men and punishing those that curse him.

Sixth—God was to confer the highest possible honor on him in making him the medium for bearing blessings to all other nations. So God was preparing to bring back blessing to the Chaldeans through the man. He was taking from them. He has brought blessings to all nations—in the effect the Jewish nation had on the surrounding nations; in the benefit which the Scriptures, the institutions and the laws of the Jews have brought to all nations; most of all in the Saviour whom they gave to the world. The knowledge of the one true God was kept alive by Abraham's family, and to them all the great nations today are indebted for their truest, most cherished beliefs.

II.

"The Call Promptly Heeded." (Verses 4-5.)

"So Abram went, as Jehovah had spoken unto him; and Lot went with him; and Abram was seventy and five years old when he departed out of Haran. And Abram took Sarai his wife, and Lot his brother's son, and all their substance that they had gathered, and the souls that they had gotten in Haran; and they went forth to go into the land of Canaan; and into the land of Canaan they came. And Abram passed through the land unto the place of Sechem, unto the oak of Moreh. And the Canaanite was then in the land."

An interesting fact is that his father, Terah, started with him and that they go as far as Haran, where they tarried several years till after Terah's death, when they all journeyed on.

This obedience of Abram shows a great faith in God. Just how God communicated with him no one knows and no one need know. God has many ways of making known His will. Let us analyze His faith.

First—It was prompt, for He followed as the guiding hand led.

Second—It was an influential faith, for he convinced his father and his nephew, Lot, a very wideawake man, that he was not going out into the dark.

Third—It was a wise faith, for he took all the resources he had gathered of servants and possessions. They had accumulated quite a good deal in Haran, and that was taken along. There was cooperation between him and God.

Fourth—It was a complete faith, for it led him across those 500 miles to the land then occupied by the Canaanites.

Fifth—It was an unostentatious faith, for he never boasts of that achievement of his, facing the dangers of the unknown desert and from unknown enemies. This account only says "They set forth to go to the land of Canaan, and into the land of Canaan they came." How modest.

Sixth—It was an alert and active faith, all the more so that he was 75 years old. Having chosen Shechem, the very best part of the land, he kept outside of the city so as to be saved from clandestine attacks from the Canaanites and from mingling with them in an intimacy that would corrupt his people. His wisdom suggests another location, and he is soon at the Oak of Moreh, where he is in a position of advantage.

III.

"His Faith Further Confirmed." (Verses 7-8.)

"And Jehovah appeared unto Abram, and said, Unto thy seed will I give this land; and there builded he an altar unto Jehovah, who appeared unto him. And he removed from thence unto the mountain on the east of Bethel, and pitched his tent, having Bethel on the west, and Ai on the east; and there he builded an altar unto Jehovah, and called upon the name of Jehovah."

For the first time since Abram left his old home did God let him see what He would do with him. He now begins to fulfill His promises, and thus confirms the faith of the trusting man. He gives him the land promised. Faith is reinforced by sight. It was in the first instance based on sufficient evidence; now it has more evidence. He further confirms his own faith by an act of worship. Offering living sacrifices had not wholly died out among men, and no doubt Abram had seen them offered to false gods; he had perhaps even seen human sacrifices, for in Chaldea the first born was sometimes offered to propitiate the gods. But here he gets back to the first idea of sacrifice, and performs the act which is both a confession of sin and a consecration of self to God. This act both shows Abram's faith and confirms it.

His faith was carefully guarded and trained by God. The leaving of his own land was a strain upon it. The settlement here amid powerful enemies was a greater strain. Yet it was better that they be enemies than friends, for friends might more easily turn him back to idolatry. The appearings to him and holding converse with him was a greater help to his faith. Then God was with him in his final location between Bethel and Hai. The altar was built wherever Abram went. He kept his faith strong by expressing it. He sealed his fellowship with God by showing gratitude for the blessings received. This communication of God's goodness in leading him makes that goodness glorious to his eyes. Our abodes may be movable like tents, but our habits of worship and gratitude must be fixed like altars that are "builded," not "pitched," like a tent.

WHAT THE MASTERS SAY.

The significance of his life was not military, nor legislative, nor literary, but religious. To him must be carried back the belief in one God; from him the monotheistic belief has been diffused. Since his day the world has never been without its advocacy.—[Dods.

It is not possible to explain on merely historical grounds how the Hebrews first obtained and so persistently clung to the grand first truth of one living and true God. . . . If we are asked how it was that Abraham possessed not only the primitive conception of the divinity, as he revealed himself to all mankind, but passed through the denial of all other gods to the knowledge of the one God, we are content to answer that it was by a special divine revelation.—[Max Muller.

You could track Abram by his altars. Ghenghis Khan could be traced by his pyramids of human skulls; the Duke Alva, by the ashes of fires in which he had burned martyrs; Jesus Christ, by the homes He had brightened and hearts He had cleansed. What can they track you by? You are leaving your marks, do not doubt that.—[Goss.

POINTS TO IMPRESS.

(1.) That God never selects the wrong man for a given work.

(2.) That He never makes false representations of his purposes.

(3.) That every noble life begins by turning away from self to God.

(4.) That "the life of faith is the only one which is always sure of getting to the place to which it seeks to journey."

(5.) That the unseen and eternal manifests itself in the life that is seen and temporal.

(6.) That God steadily establishes our confidence in him.

(7.) That grateful commemoration of the past fits us for the future.

(8.) That unprotesting association with the wrong-doers makes us wrong-doers.

(9.) That we may provide for the constant nurture of our faith.

Christian Endeavor.

LESSONS FROM AN ANCIENT TEACHER.

Terse Comments on the Uniform Prayer-meeting Topic of the Young People's Society for February 16: "Lessons from the Patriarchs."—[I Nom.; Heb. ii. 7; II Pet. ii. 4-9; I Pet. iii. 17-22.

By William T. Ellis.

Trust Christ. Sometimes we trust ourselves, our friends, our professions, our religion, our pride, and all the while we deceive ourselves into the belief that we are trusting Christ. These may fail, everything may fail, except Christ. He never fails. The faith that is fixed on Him is founded on an eternal rock.

Who trusts in God's unchanging love,
Builds on the rock that naught can move—[Neumark.

It is the trustful eye that sees farthest into the heart of God. Ways that are dark to wisdom are bright to faith.

For all that men have trusted Christ in the past, we may trust Him today. Every triumphant Christian, every martyr, every hero of the faith, and the Church of God itself, are all witnesses to the truth that our Lord is to be unwaveringly trusted for everything needful.

Trust Christ for success. It is not ours to succeed, but to strive. If we give faithful labor, He will not withhold fadeless laurels.

Wisdom and sight are well, but trust is best.—[Adelaide Proctor.

Few Christians have come into a proper conception of their power. They are afraid to attempt great things for God. Their lives are spent in petty services, and are environed by trifling cares. Away with this fearfulness! He to whom "all power is given" and who is to be with His disciples "all the days" bids them launch out into the deep. The day is upon us when young men and young women should have faith in God, great faith in a great God, and get out of the empty shallows in which they live.

The ghost of tomorrow haunts many persons. They fear the future. They worry about what the days may bring forth. And by this worrying and fretting care they incapacitate themselves for bravely meeting tomorrow when it does come. The Master wants us to trust Him for the tomorrows. They are His, stored up by His hand, and therefore laden with nothing but good for His disciples. So let trust take the place of trembling and faith the place of fear.

The steps of faith
Fall on the seeming void, and find
The rock beneath. —[Whittier.

The strength of a trustful man is the very strength of God.

Marvelous and sad though it be, most of us are more willing to lean upon broken sticks of humanity than upon the unfailing staff of omnipotence. We trust men daily and forget Him who alone is to be trusted.

These lessons Thou dost give
To teach me how to live—
To do, to hear,
To get and share,
To work and play,
And trust always.
—[Babcock.

"An answer, not that you long for,
But diviner, will come one day;
Your eyes are too dim to see it,
Yet trust, and wait and pray."

Have I not commanded thee? Be strong and of a good courage; be not afraid, neither be thou dismayed; for the Lord thy God is with thee whithersoever thou goest.—[Bible.

Grant thy servants, O Lord, to be set on fire with thy Spirit, strengthened with thy power, filled with thy grace, and to go forward by thine aid. Give them, O God, a right faith, perfect love, true humility. We ask it for our Saviour's sake. Amen.

NEWS AND NOTES.

The Bible is now printed in 400 different languages.

It is estimated that all the great religious systems of Asia have had their home in India.

Rev. Mr. Fletcher, a Presbyterian missionary, has been sent to Colon, on the Isthmus of Panama, and already a flourishing work for the laborers has been established.

Seventy church buildings, into only two of which any foreign money has gone, is the record won by Korea, in spite of the great poverty which is the country's national characteristic.

A force of 16,000 American and European workers are engaged in religious work abroad. In addition to this number there are 80,000 native pastors preaching to their own races.

The fund given by Andrew Carnegie for the pensioning of college professors is to be restricted to non-sectarian colleges and universities because of Mr. Carnegie's aversion to sectarianism in any form.

More than five thousand young Roman Catholic priests and theological students in France have had to report for military service for a term of years, a duty from which they have hitherto been exempt.

The right to keep open the Catholic churches of France and to celebrate the mass may be secured in any parish by any two laymen giving the statutory notice, which shall be operative for one year.

A government school has been established at Deering, Alaska, for Eskimo children, where special training is given in hygiene, industrial training and temperance. It is reported that the pupils are responsive to the teachings of education and morality.

For an ordinary Christian lecturer to visit India just at this time would have been unwise, yet the reception accorded Rev. Dr. Charles Cuthbert Hall, of New York, during the delivery of the Barrows lectures in that country, has been both widespread and sincere. At Lahore where he lectured in the great hall of the Punjab, the largest assembly room in India, there were present in his audience a Hindu judge of the High Court, an English judge of the High Court, the Governor of the Punjab, a distinguished Mohammedan of an ancient family, a native Christian Prince, and an eminent English banker.

SECOND UNITED PRESBYTERIAN Church, Washington and Santee. Rev. Henry W. Crabbe, pastor. Services at 11 a.m. and 7:30 p.m.

TO MAKE ROADS GOOD.

Representative Meeting of Highway Reformers Today Will Organize and Consider Bill.

Organization upon a permanent basis will be formed by the delegates to the Good Roads Conference, which will meet in the assembly room of the Chamber of Commerce this morning. It is at this meeting that the Legislative Committee will report its proposed bill to forward the building of good roads, as outlined in The Times already.

Meanwhile the meeting today will have a wider scope and be much more representative than was the first meeting. Yesterday Secretary Wiggins sent out invitations to C. M. Gidney of the Santa Barbara Board of Trade to try and attend the meeting and address it upon the subject all have so much at heart. Mr. Gidney has made a careful study of this question and his advice would prove valuable.

Invitations have also been sent to the boards of trade of all the cities and chambers of commerce of all the Southern California counties, and there is expected a greater attendance than ever before.

It was stated yesterday that there would probably develop some opposition to the proposed bill as prepared by the Legislative Committee on account of the municipalities having under the State Constitution to build all roads through their limits at their own expense. The county bonds will not help the cities.

When Lowman declares "War" there's something doing

WAR

On Clothing Pri

War has been declared on clothing—every suit and overcoat in the house must go.

Instead of offering a quarter off, a third off or a half off, Lowman, commanding, takes the lead and cuts prices away under all competition, forgetting cost and ignoring clothing offered during this sale.

We will not be undersold! We throw down the gauntlet and challenge anybody or equal our values in high grade clothing.

Twelve hundred stylish suits and overcoats will be slaughtered. The "war" opens a strong attack on our stock—there'll be another onslaught today. Get into the fray and overcoat at about half price. Here's what we offer you;

Any $15 or $20 Suit or Overcoat in the House $9

This includes the entire stock of $15.00 and $20.00 hand-made suits and overcoats—absolutely none reserved. Blues, blacks and fancies alike feel the "big stick." Come early and get the best pick.

Any $25, $30 or $35 Suit or Overcoat in the House $15

Your unrestricted choice of all $25, $30 and $35 hand-made suits and overcoats—none reserved.

We defy anybody to show a more attractive line of patterns or better made garments at our regular prices.

Our full guarantee goes with every garment. Money refunded if you can match these

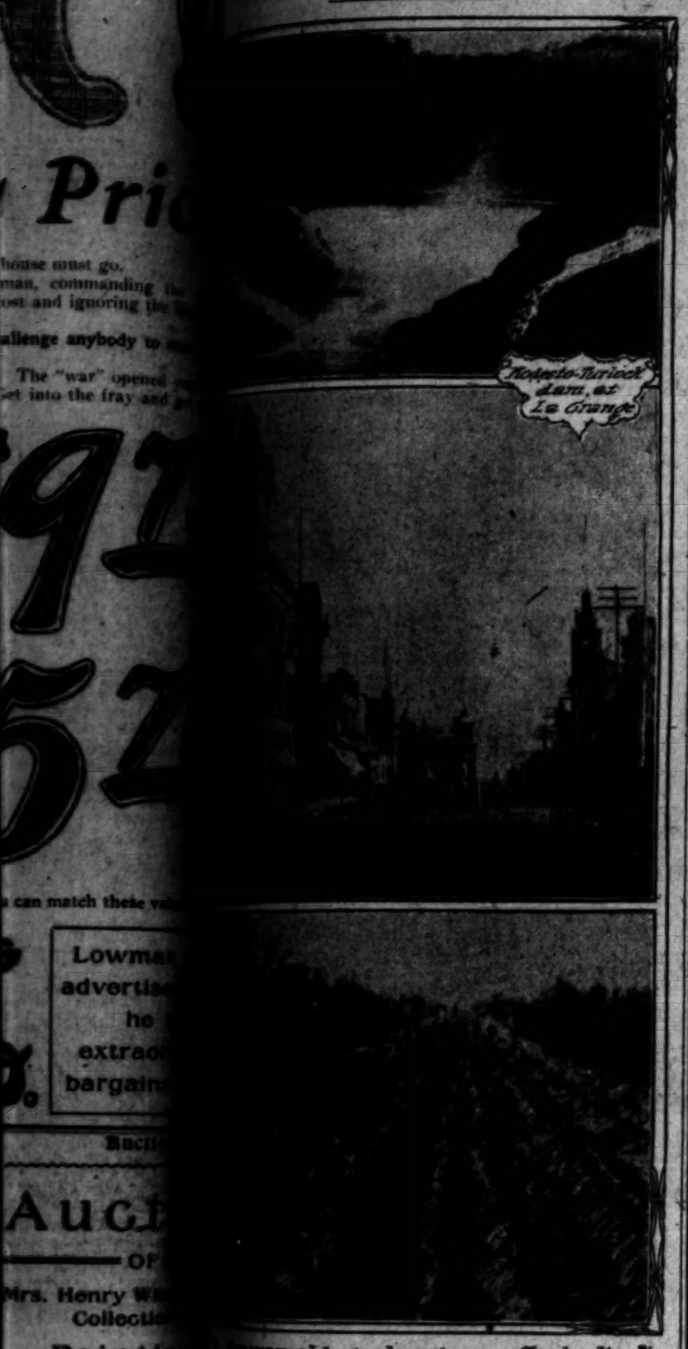
ANGELES GREETS STANISLAUS VISITORS.



Peach orchard near Turlock. Sweetpotatoes between rows.

Views in Modesto, and views of progress and development in fertile Stanislaus county, which will remind the visitors of home.

Stanislaus county [illegible] Angeles last evening, [illegible] late, hungry and [illegible] could not be induced to at[illegible] prepared for them [illegible] Chamber of Commerce, so the [illegible] out of them.

[illegible] of the special [illegible] Stanislaus county is [illegible] Hayward, and there it [illegible] Frank Wiggins led [illegible] Committee, and a few [illegible] the fixed strangers were [illegible] with as hearty a wel[illegible] they could expect, and [illegible]

[illegible] was exceedingly infor[illegible] of the tired travelers got [illegible] to eat and went to bed. [illegible] not down and rested, but [illegible] circled around with the [illegible] and got acquainted. Many [illegible] the party are upon their [illegible] to Los Angeles, and were [illegible] by the brilliantly-

[illegible] corridor floor of the Hay[illegible] was made and conversa[illegible] Hayward and W. J. Wash[illegible] a few brief words of offi[illegible] and Frank Wiggins [illegible] visitors feel as though they [illegible] him a very, very long [illegible] Chas. R. G. Loucks and [illegible] members of the Reception [illegible] granted did their best to [illegible] kindly feel at home, and ex[illegible] for today. [illegible] will take the 250 guests

to Hollywood and the beach towns over the Balloon Route, starting at 1 o'clock this afternoon. Monday they will visit the Ostrich Farm and Pasadena.

Everybody wears a big button with "Los Angeles Greets Stanislaus" on it.

The cause of the long delay in reaching this city was an accident in the tunnel this side of Mojave. A number of oil cars ran off the track in the tunnel and got jammed so that it took a wrecking crew a long time to untangle them and get them out of the way. Then the track had to be repaired.

Meanwhile the train was held up at Mojave, and in the desert town the passengers found enough to eat. But it was a tiresome wait, and all were delighted to get to hospitable Los Angeles last evening.

The party is made up of prosperous ranchers and business men of Stanislaus county, who desire information as to how to boom their beautiful county and believe Los Angeles is the place to find out.

In Stanislaus county there are several things worthy of notice. One is the great La Grange dam on the Tuolumne River. By means of this dam hundreds of thousands of acres are irrigated and the valley turned into a great garden. Sweet potatoes form a most important part of the crops in Stanislaus county, and over 500 acres are planted to these tubers.

The party will remain in Southern California nearly two weeks.

OIL INDUSTRY.

ANGELENOS IN COALINGA.

FRANCISCO DISASTER [illegible] CITY CLOSER.

[illegible] Service Is Also Favor[illegible] Our People—More Opera[illegible] Come Here—Great Ex[illegible] of Field Expected—Produc[illegible] Also Storage.

A San Francisco disaster the [illegible] Coalinga district [illegible] of Los Angeles have been [illegible] by the entrance into the [illegible] of Los Angeles capi[illegible] for years had never given [illegible] any attention. The loss [illegible] Franchemin, no doubt, [illegible] to be turned southward in [illegible] capital, and now several [illegible] interested. The Coalinga [illegible] formerly went only to [illegible] subscription now find their [illegible] frequently.

[illegible] service is more [illegible] Los Angeles than to San [illegible] here at 11:20 at [illegible] arrives at Goshen [illegible] o'clock, in [illegible] train to Coalinga [illegible] 12:50 noon. Com[illegible] It is necessary [illegible] at Fresno. Return[illegible] leaves Coalinga at [illegible] reaching Goshen

miles from the Lucile the nearest producing well. The company has also lands on 24-14-21 and 2-15-21. All are in the outlying portions where prospecting is expected to be active soon and where results are generally expected to be obtained in the way of heavy fuel.

The Commercial Petroleum Company, of which Charles Freidenburg is superintendent, has a 900-foot hole down on 12-21-14 in course of drilling. The same company has property on 21-19-15.

The Southern Pacific is drilling on 25-20-14 in a hole 800 feet deep which was abandoned by C. A. Canfield and Joseph Corey some time since and has given every indication of becoming on completion an excellent well. The railroad has also property on 21-19-15. All of this is held in the name of the Kern Oil and Trading Company.

The California Diamond will drill on section 24-21-15 about four miles from the nearest proven well. This company is operating on 12-19-15. The California Monarch, an affiliated corporation, is located on 31 and 26, 19-15, and the California and New York, under the same management, on 12-20-14. G. H. Saulsbury is general manager of all these.

COALINGA'S OUTPUT.

During the year the output of Coalinga was not increased over that of 1905. This was in no way due to a failure of the wells, but solely to the low price, which failed to furnish any inducement for further development or for active pumping of many of the completed wells. Thus, although there were a number of very good wells brought in that increased the capacity of the field, the actual output was about the same as before. It is estimated at 8,640,000 barrels for the year, in round numbers. There are 240 producing wells and sixty-three companies.

During 1907 this is certain to be greatly increased on account of the better prices and the competition between the Associated and the Standard. At present seventeen strings of tools are running and the Associated is starting more. The production for 1907, it is safe to predict, will be in excess of ten millions. How much is the question. During the height of its boom Kern River increased its output in a single year from 9,000,000 to 12,000,000. Coalinga has a much larger territory than Kern, the proven belt now extending for a distance of fifteen miles in the form of a half moon with the town of Coalinga in the middle just in the curve of the crescent, so to speak.

ABSOLUTELY NO STORAGE.

It should be remembered that there is absolutely no storage surplus at Coalinga. Some years ago the Southern Pacific built a 500,000-barrel reservoir with a view to accumulating a surplus as it has done at Kern, but so far the bottom has not even been greased. Every barrel produced or purchased was needed for immediate use and was rushed out.

THOSE GYPSUM LANDS.

In reference to the gypsum locations in the Elkhorn district, J. M. Danziger, attorney for the Associated, who drew up and put through these matters both for the Recruit and for the Chanslor-Canfield Midway Company, made the following statement yesterday to The Times:

"It is true that no gypsum has yet been shipped from the Elkhorn on account of lack of transportation facilities. It is, however, a valuable mineral deposit and quantities are being sold at present from lands at Midway and McKittrick. It is shipped from McKittrick station and paid for at the rate of about $2.50 a ton, while oil, at 30 cents a barrel, is worth only $1.98 a ton. The digging and stacking of the gypsum on the property is done as a necessary part of the work to show the extent of the deposits. A $50,000 plant for usin gthe gypsum is to be established at McKittrick within six months.

"In all applications for patents we are careful to state that, in addition to the gypsum for which we claim the land to be proven, we believe it to be valuable also for petroleum and that we base this belief upon surface indications and upon discoveries made upon land in the vicinity. Thus there cannot be any fraud upon the government. Furthermore, the price paid for gypsum and for oil lands is the same.

"Since the order requiring all lands to be inspected by a special agent of the Interior Department before patents are issued, we have had several cases before the Land Office in which our applications have been granted after full investigation."

THE KING REFINERY.

E. B. Campbell of the King Refining Company at Kern River writes that his refinery is not being operated in connection with the producers' refinery under the management of Dr. Liscomb, as stated. It has been running steadily under its own management, and has paid dividends. After the San Francisco disaster he foresaw the demand that would exist for asphalt for roofing material in the rebuilding, and besides closing a contract with the Producers' Refining Company as sales agent for three years at 37½ cents for that sold at less than $8 a ton, 50 cents for all sold above that price and 12 per cent. for all above $12 a ton, he bought up, in his own name, 11,000 tons, all that was available at the time. Roofing asphalt now sells at $12.50 a ton f.o.b. Bakersfield and $17 in San Francisco.

VISALIA'S FUEL FAMINE.

From Visalia, less than sixty miles by rail from Coalinga, comes the cry of fuel famine that has already come from Fresno, Hanford and every town in the San Joaquin Valley or in the State that has not pipe line or water transportation. The gas plant was on the point of being compelled to shut down entirely a few days ago, after being hard pushed for oil. A car was just received in time to save the situation.

Whites Outwit Japanese.

K. Itow, who paid a $15 fine in the Police Court yesterday for violation of the liquor ordinance, was the first Japanese ever caught in this city through the wiles of white men. As a rule, the police have had to use Japanese in getting their information in such cases.

Chinese Doctor Arraigned.

Toy Kee, one of the Chinese doctors of Los Angeles, who is accused of practicing without a diploma, will fight his case in the Police Court. His lawyer will submit briefs, attacking the statute on medical diplomas. This was announced before Justice Chambers yesterday.

TO VOTE ON BONDS.

Another Election to Be Held Monday to Determine Whether Los Feliz Schools Shall Be Improved.

Prospect Park is in the throes of a discussion of a proposed $10,000 bond issue for the improvement of the Los Feliz school. The district is divided against itself, and the voters have taken sides for and against the question.

Though the issue went before the people of the Los Feliz school district on January 19 and was lost by a small margin, those who favor the bonds declare the election was not a fair test and have succeeded in having a second election called for Monday. Meanwhile the residents are working to change the sentiment of the suburb to their way of thinking.

One of the contentions of the faction which favors the issuance of the bonds is that the hours during which the polls were open at the last election were such that scores of voters were prevented from casting their ballots. The polls remained open from 9 a.m. until noon. The opposing faction answer this contention with the declaration that had the polls remained open longer the bond issue proposition would have been buried under an avalanche of opposing votes. They declare the strength of the opposition has not yet been shown.

The hours of Monday's election have been changed. Polls will open at 1 o'clock in the afternoon and will close at sundown. At the last election sixty-five votes were cast, thirty-eight being in favor of the bonds. It is thought that a much larger vote will be cast on Monday, as the district has a voting strength of about 170.

CLOTHES KIDNAPED?

Capt. Hall Says His Togs Disappeared With Dora Bennis and the Rover.

Capt. A. W. Hall appeared before Deputy Dist.-Atty. Fleming yesterday morning with a tale of woe. He alleges that Capt. Howerton, Dora Bennis and others kidnaped his clothes when they left him marooned with a sneering note of farewell. That note, signed by Dora Bennis and the others, was shown to Mr. Fleming.

It tells the captain that the party is tired of his company. It was left for him on the coast of Southern Mexico when the "long, lean, piratical craft" sailed away with Dora Bennis and the clothes.

Hall wanted a search warrant to enable him to secure his clothes from the Rover, now at San Pedro, but was told that it could not be issued, as the kidnaping of the wearing apparel had occurred in foreign waters.

It is feared the clothes cannot be rescued without the aid of a special commissioner.

HERE TO PAINT OUR HOMES.

FAMOUS DUTCH ARTIST COMES TO DO A WORK.

Will Picture Southern California Dwellings and Flowers. Considers This the Best Field in the World for Those Who Love the Artistic. Some of His Achievements.

Can Southern California be treated, its art, from the point of view of the genre painter?

Antoon Molkenboer thinks it can, and he has just come all the way from Amsterdam to Los Angeles to prove that he is right.

Mr. Molkenboer is a young man who might have stepped out of a picture by Rembrandt or a story by Washington Irving, he is so very blonde of skin and Dutch of feature. But for all that, being the happy possessor of the artistic temperament, he has an almost Gallic alertness of bearing and vivacity of manner.

His blue eyes kindled, his words flowed fast with enthusiasm, when he spoke yesterday of the artistic possibilities of Southern California, not only for the landscapist, but for the genre painter as well.

"The younger painters of Holland," said he, "are getting hard-pushed for new subjects, for everything in the Netherlands has been used as a motif over and over again. Besides, who aspires toward Dutch genre can never hope to go beyond the work of Israels, Mauve, Bloomers or Neuhuis.

"On a former visit to America, made a few years ago, I was struck with the ideal outdoor life your fortunate denizens of Southern California are enabled to lead. Here, it seemed to me, were the very genre pictures I had been longing to paint, and I marveled that no one had thought of them before. I made up my mind to come back as soon as I could—and here I am.

"Why, I shall simply revel in all this vivid sunshine and blue sky, and in all these charming homes with their background of gorgeous gardens! Los Angeles is a very paradise for painters.

"My California genres will not greatly resemble those I once painted in Holland. The colors on this western shore all sing of life and joy—a very different note from the sad grays overseas. And your children, whom I hope to make my models every day, how I love those wide-awake, sturdy, sunkissed little maids and urchins! Oh, I shall have a good time when I paint out here—there can be no doubt of that."

In 1898 Mr. Molkenboer painted the decorations for the "longroom" of the ship of one of the three admirals of

ANTOON MOLKENBOER.

Netherlands, twenty-three panels that pictured the adventures of Jason and the argonauts in their search for the "golden fleece." These decorations, however, were finally placed in the Department of the Navy, at The Hague, as it was discovered they would be injured in the admiral's trips to India.

The Technical University of Delft claimed Antoon Molkenboers' services in 1903. He decorated the newly-erected Byzantine Hall of the university. In 1904 he decorated the Memorial Hall of the Royal University of Leyden. This hall was presented to Queen Wilhelmina on the two hundred and fiftieth anniversary of the founding of the university. Mr. Molkenboer's decorations were five painted windows, on which were shown the descendants of that King William of England who was Stadhouder of Holland.

All the artist's genre pictures of Southern California, excepting, of course, those bought by Angelenos, will go to Schaus, the New York picture dealer. There is also the probability that not a few of them will be shown here at some local gallery.

CARS TO POINT FIRMIN.

Pacific Electric Railway Begins Service to the Government Breakwater and Lighthouse Tomorrow.

The extension of the Pacific Electric Railway beyond San Pedro to the government breakwater and lighthouse on Point Firmin, will be open to the public tomorrow, and cars will run to the end of the line. The government breakwater has long been a favorite resort of the fisherman, but they have had difficulty in availing themselves of it, owing to its inaccessibility. From now on it will be easy of access.

The view from the present terminus of the line at the lighthouse is one of the most beautiful anywhere on the coast; the bluff at this point runs in a sheer ascent of 150 feet above the sea level. Abalones are found there, and a number of seals upon the rocks adds interest to the scene. With the opening of this extension, a delightful trolley trip is available.

TOBACCO LICENSE.

Anti-Cigarette Club Will Invite Dealers to Attend Meetings and Say Why They Shouldn't Pay.

"Why don't you pay a license?"

That is the question to be thrown at the tobacco dealers of the city at the meeting of the Anti-Cigarette Club tomorrow.

They will be asked to appear at the meeting and shower, and some Prohibitionists will be there to argue against it, as they declare it would be licensing a vice.

Warm times are expected at the meeting which will be held in the Chamber of Commerce building at 5 o'clock Sunday evening.

BEAUTIES OF THE DANCE CAUGHT ON THE STAIRS.

A PILLAR OF GIRLS.
Some of the pretty ones who danced the minuet at the colonial party given by Westlake school girls.

The pretty girls of the Westlake School danced to their hearts content. In all the charm of colonial costumes with powdered hair, and fetching courtplaster they tripped lightly through the measures of the stately minuet, quite as gracefully as might have a maid of ye olden time."

The affair was given on Thursday evening by Misses Vance and De Laguna at Kramer's Hall, and was a Washington party, advanced owing to the early Lenten season.

The hall was beautifully decorated with large silken flags, gracefully draped, and many smaller ones, while festoonings of red and red shades over the electric lights made a charming color effect.

One of the loveliest features was the sixteen young ladies who danced the minuet—the quaint and graceful "court minuet"—the stately movements of which are so beautifully guided by Mozart's courtly music. The dancers were in the fascinating garb of the old colonial days; the powdered hair bringing out so effectively their youthful beauty.

After the minuet, the dancing became general, and was prolonged until the small hour, sanctioned by the music union. The programmes were dainty souvenirs in the colors of the school, gold and white, and decorated with quaint colonial figures.

The pretty girls who danced the minuet are: Misses Lilius Ford, Margaret Miller, Lily Wendling, Ruth Hutchinson, Dorothy Parkinson, Edith Engelhard, Kathleen Barker, Minnie Miller, Ruth Rivers, Fanny Marks, Mildred Robertson, Carrie Cook, Ada Potts, Enid Daniels, Eleanor Richards and Eyri Parker.

GOES TO WASHINGTON.

Edmund Mitchell, vice-president of the Murray Marine Steady-floating Steel Structures Company, Incorporated, leaves for Washington tonight, to demonstrate the inventions to the Congress committee specially dealing with harbor works, lighthouses and coast defences.

Mr. Mitchell's visit to Washington is in connection with a special bill which is being promoted to secure the first construction work on the Murray marine system for the United States government in the form of a lighthouse on the Nantucket Shoals, off Cape Cod, one of the most exposed and dangerous places on the American Coast. After completing his work in Washington he will proceed to New York, where meetings with important financial groups have been arranged, and then journey to London for a brief visit. In London he will meet William Edward Murray, the inventor.

MANY CHILDREN IN CONGESTED DISTRICTS VICTIMS OF CONSUMPTION.

S. Goodfriend, a specialist from New York, declares that ten per cent. of the children in the congested districts of Cleveland are victims of tuberculosis.

The same deplorable conditions have been found to exist in other cities, and the eradication of the white plague among children has been started in earnest. Sanitary conditions are being improved, roof treatment, affording fresh air, is given, and nourishing food is being supplied.

Children with weak lungs are susceptible to colds, which cause the lungs to become sore. The tubercular germ settles in the sore places and sets up what is called a "mixed infection," the starting point of consumption.

Parents are warned against giving children cough or cold remedies containing opiates, as narcotics only stultify the lungs and render them more susceptible to the deadly tubercular germ. The following simple formula, the ingredients of which can be obtained from any good prescription druggists at small cost, will break up a cold in twenty-four hours, and cure any cough that is curable: Virgin Oil of Pine (Pure,) one-half ounce; Glycerine, two ounces; good Whisky, a half pint. Use a teaspoonful dose every four hours.

An eminent authority on lung trouble says if this simple and effective formula was known and generally used, throat, lung and bronchial affections would seldom reach an acute stage. Care should be used in selecting pure ingredients, and, to avoid substitution, it is best that they be purchased separately and mixed in your own home.

The Virgin Oil of Pine (Pure) should be purchased in the original half-ounce vials, put up expressly for druggists to dispense. Each vial is securely sealed in a round wooden case, with engraved wrapper, with the name—Virgin Oil of Pine (Pure,) guaranteed under Food and Drugs Act, of June 30th, 1906, serial number 461, prepared only by Leach Chemical Co., Cincinnati, Ohio—plainly printed thereon. There are many rank imitations of Virgin Oil of Pine (Pure,) which are put up under similar names and style of package. Never accept these as a substitute for the Pure Virgin Oil of Pine, as they will invariably produce nausea and never effect the desired result.

EASTERN TOURISTS WELCOME

You will be made to feel at home in our bank. Eastern bank drafts cashed with pleasure. NO TROUBLE TO ANSWER QUESTIONS. Our President has lived in Southern California twenty-four years, during which time he has gained considerable experience and will gladly give eastern tourists the benefit of same. DON'T THINK THAT YOU WILL BE TREATED COLDLY IN THIS LAND OF SUNSHINE. We realize that Southern California has been built up by the money and energy of eastern tourists, who have been so well treated and impressed that they have decided on Los Angeles as their permanent abode.

Small Engine Is Power

It Develops Ten Horse Power and Weighs One Hu... Pounds—Crescent Rotary the Most Powerful ... World of Its Weight, Is on Exhibition at 212 M...

A ten-horse power steam engine, checked as ba... Los Angeles the other day in a Southern Pacific bagg... a truck driver was asked what he would charge for ta... from the depot to Mercantile place, he answered:

"Oh, that little thing? About 25 cents."

Whoever recalls that an ordinary ten-horse power ... weigh from 500 to 750 pounds may guess that this "li... not an ordinary engine.

And it wasn't. It was a rotary engine of a new ... an engine which, when compared with any reciproca... less bulky; is simpler and more durable; is cheaper to ... operate; is more powerful with the same amount of ... to control—an engine that can be reversed instantly; ... has no piston, no back pressure, no "dead center," ... steam engine, in truth, that is nearer to perfection than ... world has heretofore seen.

This engine was invented recently by H. I. Call, ... Wash. It was manufactured at Spokane by the Cresc... gine Company, 212 Mercantile Place.

The truckman easily unloaded the small engine. ... pounds. Had it been reciprocating, that is, an ordi... would have weighed four times 160 pounds. It could ... if necessary, within a 15-inch cube, one-quarter of th... manded by a reciprocating engine.

The Crescent Rotary, now on exhibition at 212 M... is of very simple construction and contains but three ... Unlike other rotary engines, it requires no springs as ... liance for the effectiveness of the blades upon the ... The small number of the parts and their direct action ... Crescent a very durable mechanism. It costs, to build, ... quarter of the cost of a reciprocating engine. To ... costs less, because it gives equal power with three-... steam. In a ten-horse power engine of the reciproca... steam area is fourteen and a half inches; in such an engine ... type the steam area is but five and a quarter inches. ... control; will work on almost a nominal supply of steam ... stopped or reversed instantly without a jar and with... the least damage.

A reciprocating engine, if suddenly reversed, is ... ruined. A rotary engine of the ordinary type can operate ... only at high speed under a pressure of steam that means ... gant waste. Harder still to control, is a turbine engine.

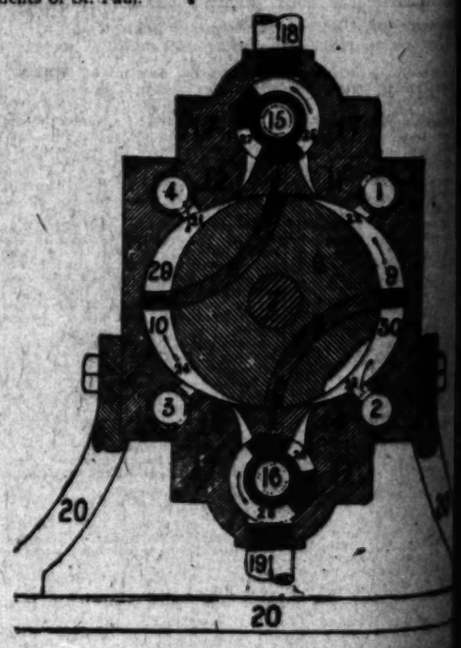
Serious objections to the reciprocating engine is ... sure" of steam and also the "dead center" inevitable ... ton is used. But "there is not a moment in the ... Crescent rotary engine when every atom of steam is ... part toward the forward movement of the shaft."

So devoid of vibration is the new rotary that ... engine it doesn't even need to be fastened to the ... horse power specimen in use at the Sharood factory ... set down upon a shoe box; light as the engine is, it ... steady. It shows no tendency to shift when, after it has ... speed, it is stopped or reversed in an instant.

Manifestly this lack of vibration, this easy control ... response to an immediate reversal, makes the Crescent ... gine for boats of every size and for automobiles as well. ... give to passenger vessels even more steadiness than is ... through the turbine engine, and a readiness of control ... turbine can aspire. It's quite a problem, indeed, for ... ships to "slow down" sufficiently when approaching ... the maximum steadiness and precision offered by the ... gine will make it indispensable to the navies of the world.

The Call or Crescent type was embodied in a ... that underwent, at Spokane, a test lasting twelve hours. ... engine of the new type was installed in a boat on ... Alene, near Spokane. The operation of these engines ... respectively by committees representing the Spokane ... Commerce. All the claims of the inventor were ... upheld.

A factory at Spokane has been built by the Cr... Engine Company. Inventor Call is the president of ... James Austin Larson, formerly of Chicago, is the vice-... H. H. Kelly is the secretary. The shareholders include ... dents of St. Paul.



Steam from the boiler enters the feed pipes at 18 ... thence into the valve chambers 25 and 26. It is forced ... feed parts, 11 and 13. The steam then enters the parts ... cent-shaped chambers, 9 and 10. Here expansion takes ... ing the ends of the blades, 5 and 6, forward. The ... for the blaes to travel in chambers, 29 an 30, presses ... piston, 8, through which they slide into chambers, 9 and ... latter chambers take up the increasing lengths of the ... same proportion as their decreasing length becomes ... chambers 29 and 30. As the protruding blades approach ... 21 and 23, the opposite ends are beginning to take ... parts, 11 and 13. By the time the full area of the ... steam contact, the dead steam is fully exhausted through ... Whatever of atmospheric cushioning remains between ... and 23 and parts 12 and 14 escapes through the latter ... chambers, 27 and 28. This establishes the rotary motion ... communicated from the piston, 8, to shaft, 7, which is ... mitting its power for outside application. To reverse ... the engine, one lever is provided, connected automatically ... 15 and 16 and exhausts 1 to 4. When reversed by the ... tion of valves 25 and 27 and 26 and 28 is reversed, ex... are closed and 1 and 3 opened. Blades 5 and 6 slide ... ton, 8, in a steam-tight channel, with a minimum ... also steam-tight where their ends meet in contact with ... walls of the chambers, 9, 10, 29 and 30.

James Austin Larson is offering stock in The C... Engine Co. at $1.00 a share. Several thousand shares ... been placed in Los Angeles, and only a small block ... company makes the announcement that there is no ... sale. A few days more will see the last of the stock ... be sold in Los Angeles. The company at Spokane ... the sale of the German rights for $1,000,000. They ... do not wish to sell any more stock. As soon as that ... mated, the stock will be worth from $3 to $5 a share.

The Beautiful

"REDONDO VILLA TRACT B"

The Beautiful

Only $90 Per Lot — **$4 Down, $4 Per Month** — **No Interest, No Taxes**

FREE ROUND TRIP TICKETS from Los Angeles to Redondo and return, on cars going every 20 minutes, are given away at our office absolutely free upon application. Also free automobile ride at Redondo.

Large level lots, 50x150 feet. Rich soil, pure water, fine climate. All lots, including corners, one price—$90 per lot—no more, no less. You know what you have to pay—$90 per lot—no higher. At Redondo over $2,000,000 has already been expended in grand and substantial improvements. The beautiful "Redondo Villa Tract B" is on the Camino Real (King's Highway) boulevard connecting Redondo with Los Angeles. We have just bought this beautiful tract for $151,000, and believing in the principle that it pays to let our customers make a profit, hence we have decided on this grand profit-sharing plan. We will make a profit and all our purchasers are guaranteed a profit of 25 per cent. within one year, as per our written agreement.

H. E. HUNTINGTON IS EXPENDING OVER A MILLION DOLLARS AROUND REDONDO IN SUBSTANTIAL IMPROVEMENTS.

Go down to Redondo and see for yourself. At Jefferson street and Grand avenue see the immense stacks of heavy steel rails for the double-tracking of the present two electric lines of the Los Angeles and Redondo Railway Company. The rails are arriving daily. Dirt is now flying. Better buy now. Then there's the Los Angeles-Pacific Railway Co.'s electric line to Redondo, the broad-gauging of which will soon occur. And in addition to the above three electric lines now running to Redondo is the great Santa Fe steam railroad. With four lines of transportation it would seem as if same would be sufficient, but surveyors are in the field laying out the shortest line of all to connect Los Angeles with its choicest seashore suburb—Redondo. Mr. Huntington is now building at Redondo the largest electric power house on the Pacific Coast, to cost $1,250,000, as fast as men and money can do it. Go down and look at the mammoth cement smokestack.

A suburban electric railroad is now nearing completion at Redondo. The grand three-story business block of Mr. W. M. Garland at Redondo is just finished. Follow successful men like Mr. Huntington and Mr. Garland—they know that Redondo is substantial and a safe place to invest in. Buy anywhere around Redondo and you are sure to make large profits. Three commercial wharves. A safe harbor by twenty year's practical test. Redondo is permanent and has just begun to grow. Then again, referring to successful men, we notice that the following men have bought to the north of Redondo:

Mr. Edwin Chambers, the far-sighted General Freight Agent of the Santa Fe; Mr. George H. Peck, the successful banker of San Pedro; Mr. John J. Byrne, the capable General Passenger Agent of the Santa Fe, and Dan Murphy, the millionaire oil operator of Los Angeles. A word to the wise is sufficient! BUY!

Remember that your purchase is made with the distinct understanding that we will refund all money paid us, with 6 per cent. per annum interest added, if after visiting the "Redondo Villa Tract B" it is found that we have misrepresented our proposition in the slightest particular.

25 Per Cent Guaranteed Increase

Pay $4 down and $4 per month until paid for we will sell you a "Redondo Villa Tract B" lot for $90, subject to the following guarantee from us: If at the expiration of one year from purchase this $90 lot is not worth $112.50—or 25 per cent. increase—based on the price at which our corps of salesmen will then be selling similar lots, we will refund all of the money you have paid us, with 6 per cent. interest added. If you should die at any time before payments have been completed we will give to your heirs a deed of the lot without further cost. If you should lose employment or be sick you will not forfeit the land, but as each written certificate of sickness or non-employment is received monthly your time for payment will be extended another month.

Our Restrictions

No saloons, no shanties, no factories. Purchasers are not compelled to build, but if they do then they must erect attractive looking houses, there being no "dollar limit." We leave it to each purchaser to build a pretty looking home, which must be neatly painted, as we know that for a moderate sum one can now build a very pretty bungalow. Lumber is cheap at Redondo, as there are three commercial wharves at Redondo at which lumber schooners are daily discharging their cargoes.

If Russell Sage, the multi-millionaire of New York, told you that you could make a fortune in suburban real estate (especially when it costs you only $4 down and $4 per month) wouldn't you be impressed? Well, listen! Here's just what Mr. Sage did say in the New York Herald of September 28, 1902: "Young man, buy real estate, especially acre property in the outlying boroughs, go to work hard at your usual avocation. Your real estate purchases will make your old age comfortable."—Russell Sage.

Come One! Come All!!

Office open every night during week days from 7 to 9 p. m. to accommodate those who cannot come during the day.

Get your free tickets at our office in advance. Automobiles will carry you around Redondo and to the beautiful "Redondo Villa Tract B."

Grandest Success of the Season

Everybody delighted. The golden spike of the Redondo Villa railroad was driven Jan. 6—the commencement of great transportation facilities for the Redondo Villa Tract. The roadbed has been graded, ties are on the ground, rails will soon be laid.

Title Guaranteed Absolutely Perfect

The 604 acres of the Rancho Sausal Redondo, embraced in the "Redondo Villa Tract B," was purchased by us from George H. Peck, president of the Bank of San Pedro, for $151,000.

It is protected by an Unlimited Certificate of Title and all deeds to purchasers of lots in the "Redondo Villa Tract B" will be warranty deeds, which is an assurance that every purchaser in the "Redondo Villa Tract B" will receive an absolutely perfect deed.

Be on Hand Early Tomorrow Morning

This sale of large level lots, 50x150 feet in size, for only $90, in payments of $4 down, $4 month—no interest, no taxes—is unparalleled.

Remember that the "Redondo Villa Tract B" has the advantage of having no city taxes to pay.

Buy where the air is the pure ozone from off the health-restoring waters of the Pacific.

Buy where the soil is rich and injurious frosts never prevail.

Buy around Redondo, where there are three electric lines and one steam railroad, and there will soon be another electric line.

Buy where the purest of water, from the large water works now on the tract, can be had for only 7½ cents per thousand gallons for irrigation.

Buy where you will make large profits.

Buy at the opening sale, which has been the history, invariably insures a great profit. If you can't be on hand at the office tomorrow morning, then telephone (Main 3279 or Home 5339.) telegraph, or write at once, and a beautiful illustrated prospectus, map and sample contract will be mailed to you absolutely free.

...railroads are building on ... to support solely for the haul... of mining supplies. If they ... they will haul it ... and Los Angeles, with ... of shorter mileage.

...will be coming into ... and if these are ... Los Angeles it will mean a better supply to be reloaded here for the East, whereas if they go elsewhere the city will lose the benefit of their use for other business. This is a factor in car shortage not to be overlooked. The railroads prefer to haul as few empties as possible.

MILLIONAIRES COMING.

A motive that influences the millionaire backers of the smelter in desiring to come to Los Angeles is that they have fallen in love with the beauties of the climate, and desire to build homes here, and it is necessary for them to be where their business is located. It is expected that practically all of those interested will sooner or later make homes here if the enterprise goes through.

REFINERY POSSIBLE.

Following the establishment of the smelter a refinery may be erected, although it is not definitely determined. Such an establishment would prove a boon to telegraph, telephone, electric light and power and trolley companies and all users of copper bars, wires, and similar articles. At present the copper is hauled to the east, treated and returned at a cost of as high as one cent a pound each way.

If this is done it would mean the investment of some $250,000 more and the employment of probably 200 additional men.

ENCOURAGEMENT ONLY.

Only reasonable encouragement, especially freedom from opposition and vexatious annoyance, is what is wanted. No bonuses are asked, and no donations. That Los Angeles has something of a name for opposing enterprises of this kind is unfortunate, but the course of the Chamber of Mines is calculated to overcome this if followed by the people generally.

Today there is no smelter in Southern California, except the small plant at Needles, which has all it can handle. Humboldt, Ariz., El Paso and San Francisco are the nearest plants. It should not be forgotten, moreover, that most of the ore in the territory tributary is smelting ore. Goldfield has comparatively little milling ore.

NO FEAR OF SMOKE.

The smoke is no longer a factor to be dreaded. It is now disposed of through a system that removes the fumes without any difficulty. Moreover, the experience of cities where smelters are operated just outside a few miles is that the smoke is never noticed. At El Paso no one would know there was a smelter within a few miles of the city limits without being told and a plant established here would be much further removed from town than the El Paso plant is.

CREDIT FOR MOVE.

Roi King, the "father of the Chamber of Mines," was the first to take up the subject with the Goldfield millionaires and for months he has been working with them, until yesterday he was able to bring the matter officially before the chamber, and announce the desire of the mining men to invest their money here.

TEST ROADS' BADNESS.

(Continued from First Page.)

who has helped build some real roads at Azusa, claims that he can build really good roads for $1000 a mile. This would indicate that we are at last to have a respectable road to Santa Monica.

The commissioners who took part in the road inspection yesterday and the localities they represent were President A. P. Griffith, Azusa; C. A. Day, Pasadena; W. W. Lowe, Long Beach; James Gillespie, Artesia; Gail Borden, Alhambra; A. L. King, Palms; Roy Jones, Santa Monica; L. E. Bradt, Venice; H. C. Draves, Hollywood; Charles Fuller Gates, W. H. Knight and J. L. Starr, Los Angeles, and Secretary C. L. Lowman. They were accompanied by Frank Pelfret and W. H. Risley of Venice and Schuyler Cole of the Automobile Dealers' Association of this city, who has been an extensive good roads worker at Colegrove.

The automobiles were supplied by Commissioners Bradt, Borden and Jones and the Occidental Motor Car Company. The machines were sent over the roads at good speed to emphasize the badness of the highways, and in one place the road was so bad that the cars had to fly through to avoid being bogged. One car going slow, did get stuck for a while.

At the monthly meeting of the Highway Commission last Wednesday a committee of five was chosen to find the best kind of road material for roads in Southern California. This committee is composed of Commissioners Griffith, Gates, Day, Borden and Starr. These gentlemen were shown the new tamped oil roads at Santa Monica, among other highly-praised roads, and San Vincente road, which was finished only a few months ago, was found to have been considerably damaged by the rain and travel. There were unexpected faults in many of the other oiled roads. A sample of gravel road at Berkeley Place on West Twenty-second street was examined on the return and was found worthy of much praise.

The National boulevard, which was laid out and fathered by Abbot Kinney at the time of the great boom, about eighteen years ago, and which has not had much work on it since, was found to wear excellently on the hilltop sections, towards the sea, where the sand and adobe had been combined to form a natural cement.

Before this "best road for California" committee reports back to the commission and then to the Supervisors, all kinds of roads now in use in this county will be examined, and it is expected that a way will be found to get good roads at small cost, as there is plenty of gravel and decomposed granite to be had, and also sand and adobe, all cheaper than oil. If combinations of them will make good roads the public will know it and can then demand that the proper materials be used.

The Highway Commission now consists of twenty-eight members, none of whom but the secretary draw any pay. Most of the commission has served for years, and all have done much work in their districts for the advancement of the roads. Very little publicity has been given to the work of the commission, but their work has steadily gone on, naming and aligning the roads, putting up milestones, blocking the roads so that farm houses can be found as easy as any house or store in the city, locating signboards and putting on them properly measured distances and names, and even arranging to locate watering troughs. As yet the powers of the commission do not allow it to take charge of the actual improving of the road surface or the spending of the road fund.

The Highway Commission to a man desires the main roads first rebuilt, mile by mile, and then by degrees the other roads treated the same way. Stone roads are preferred, as being permanent.

QUESTION WITHDRAWN.

(Continued from First Page.)

family circle when the postal-card ballot comes—perhaps just as wifey is designing a scrumptious new yachting suit.

"Horace, what are you doing?"

"Why—why, please Clarissa, this is just the yacht club ballot.

(Sternly:) "Let me see which way you have voted, Horace."

Horace (weakly:) "I—excuse me, but I—that is, I don't believe you would be interested in this matter; this is quite a dull affair."

"Horace, give me that card. What's this? You have voted against having women in the clubhouse?"

Horace (trying to bluff it out:) No! Impossible! When I meant to vote just the opposite way. How careless o' me. (Very hollow) Ha, ha! How careless."

"V-i-ssssss"

(N.B. This sound is wifey tearing up the ballot.)

The secretary of the club says that it is not proposed to exclude women from the cruises, but to bar them out of the clubhouse at night.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

HORSE SHOW OUTLOOK GOOD.

SECRETARY BACK IN PASADENA FROM THE NORTH.

Harold A. Richardson of Santa Barbara Will Be on Hand With a Good-sized String—Friends Rally to Support Teamster Accused of Burglary. Garbage Man in Trouble.

[Office of The Times, No. 24 S. Raymond Ave.]

PASADENA, Feb. 8.—E. D. Neff, secretary of the Southern California Horse Show Association, returned last night from a trip through the North in the interest of the coming horse show. On the whole the trip was attended by satisfactory results, and Mr. Neff believes that the outlook for the coming exhibition is brighter than ever.

While in the North Mr. Neff saw Harold A. Richardson of Santa Barbara, who has promised to be on hand with a good-sized string. John Parrott of San Mateo will also be here in all probability, and his exhibits will prove a strong feature. Mr. Parrott is a man of large means and an enthusiastic horseman, and his string will be awaited with much interest by lovers of classy horse flesh.

FRIENDS STAND BY HIM.

Andrew Cossentine, the young teamster who attempted to force an entry into the Brunswick cigar store last Sunday, had his preliminary hearing yesterday afternoon on a charge of burglary. He was bound over for trial, bail being placed at $1000. The money was raised by the defendant, so he was not forced to spend the time intervening between now and the date of his trial in confinement.

Friends of Cossentine have taken up the matter and will see that he is provided with sufficient money to fight the charge. They are inclined to place credence in his claim that he simply entered the poolroom in order to go to the washroom, as his reputation has heretofore been good and he was supposed to be steady. The fact that he owns property, which he has paid for out of his savings, has been a strong factor in winning sympathy, and though much appears to be against him at present, it is hoped by his friends that he may be able to clear himself.

ALL FREE, WITH LECTURE.

Justice McDonald yesterday afternoon discharged all of the defendants in the Pahl-Lewis quarrel and sent them home with the admonition to behave themselves from now on. There were four mixed up in the row and each was defendant, warrants having been sworn out all around. The justice concluded that there was little choice between the claims of the different complainants and concluded to call the matter off.

Fred Pahl, his wife and Mrs. Bud Lewis (nee Nellie Mundell) were charged with disturbing the peace, while Lewis was charged with battery. From the testimony is appeared that the four had engaged in a little neighborly row, and as there was a difference of opinion as to who had come out first best, complaints were sworn to with the idea of having the justice act as arbitrator.

GARBAGE MAN ACCUSED.

George Toms, a garbage collector, is facing a serious charge. He is alleged to have taken a glandered horse, which he had gotten into his possession with the understanding that it was to be killed, and to have sold it to an unsuspecting ranchman for $35. A complaint has been issued and the outcome of the case is anxiously awaited.

As the horse was suffering from a bad case of glanders and was a menace to all other animals with which it came in contact, the County Veterinarian, on discovering that his instructions concerning the disposal of the animal had not been obeyed, proceeded to make investigation. The erstwhile owner of the horse denied having sold it and the evidence strongly pointed to Toms.

EASY ON "TENNESSEE."

"Tennessee" Gaither's application for a new trial on the charge of leaving his horses standing without hitching, was denied by Justice McDonald yesterday afternoon. At the first trial Gaither was found guilty, but a plea for a new hearing was at once filed. After refusing the request the judge fined "Tennessee" $5 for the infraction of the city ordinance, and then remitted the fine, placing the defendant on probation for three months.

"Tennessee" has had popular sympathy with him from the start, and the general feeling has been that his infraction of the ordinance, if there was an infraction, was purely technical and that he had no intention of evading the law. He has driven a public carriage in Pasadena for years, and this was the first time that he had ever been in trouble.

GRAMMAR LEAGUE GAME.

The third game in the grammar school league was played yesterday afternoon on the High School grounds. The game was between the team from the Wilson school and the Lincoln school nine, and resulted in a victory for the former by a score of 11 to 2. The youngsters put up a great game of ball, and the play was exciting from start to finish.

The grammar school league is composed of the teams from all of the grammar schools in the city. The principals of the different schools have clubbed together and offered a cup for the victorious team, and the boys are taking keen interest in the sport, and every spare minute is given up to practice.

HURT OR NOT?

Rumors that a serious automobile accident had taken place near Hotel Wentworth, and that a Mr. Harris had been seriously and probably fatally injured, was the cause of considerable excitement here last night. Excited telephone messages were sent about town, and within a short time the reported mishap had been magnified into a wholesale tragedy. Dr. L. C. Deming was called up, and told to hurry to the Wentworth, and a call for rooms was made. Nobody appeared, however, and there appears to be no way of learning who first gave the alarm. If any one was injured it is thought that he must have been taken to Los Angeles for treatment.

BENEFIT YIELDS HANDSOMELY.

The second performance of the Maryland Minstrels was given last night in the banquet hall of Hotel Maryland. Thursday night's success was duplicated and, in spite of the fact that most of the guests had witnessed the performance the night before, there were more applicantions for seats than could be accommodated. While the total receipts of the two performances have not been figured up, the sum will probably run in the neighborhood of $200, the auction of Thursday night having netted $175. As there are no expenses connected with the venture, a goodly sum will be handed over to the Children's Training School, which will receive the entire receipts.

STREET DUST PROBLEM.

The necessity of hitting upon some scheme for keeping the downtown streets in better condition is again facing the authorities. Since the warm weather has set in the paved thoroughfares have been covered with fine particles of dust, and every heavy car that passes along stirs up a miniature sandstorm. It is hoped that the new street-flushing apparatus will obviate the difficulty, for it is freely admitted that the present state of affairs must not continue.

SOCIAL NOTES.

Mr. and Mrs. S. F. Johnson of No. 520 Oakland avenue entertained Thursday evening with a daintily-appointed dinner in honor of Dr. and Mrs. George H. Bridgeman of St. Paul, Minn. Dr. Bridgeman is president of the Hamlin University of St. Paul and expects to remain her for ten days, but Mrs. Bridgeman will make an extended visit.

Mr. and Mrs. E. A. Sands of No. 65 North Lake avenue were the recipients of a surprise kitchen shower Thursday evening. Mr. and Mrs. Sands were but recently married, and a party of their friends determined to help the household preparations along.

The Misses Gordon of No. 520 North Los Robles avenue have as their guest Miss Florence Hardesty of Columbus, O.

Mrs. Henry Simpkin of No. 665 North Wilson avenue entertained yesterday afternoon in honor of Miss Ellen Smith. The afternoon was passed with games, and later refreshments were served.

The Merry-Go-Round Circle will meet this afternoon at 2:30 o'clock at the home of Miss Buckley at No. 18 North Pasadena avenue.

Miss Beulah Conkling of No. 424 North Fair Oaks avenue entertained yesterday afternoon with a jolly thimble party in honor of her cousin, Miss Iva Feiet, of New York, who is spending the winter here. At the games played during the afternoon Miss Mattie Tate captured the first prize.

Miss Alice Chapin of No. 140 West California street entertained yesterday afternoon in honor of Miss Florence Salmon, whose engagement was recently announced.

The dance of the members of the Revellers' Club, which was to have taken place last evening at the Shakespeare Clubhouse, was postponed until after Lent.

PURCHASES IN POMONA.

Retired Eastern Banker Buys Home and Orange Grove on Holt Avenue.

POMONA, Feb. 8.—Fred Robbins, a retired banker from Minnesota, who has been here for a few days looking for a home, has purchased of H. F. Norcross the latter's house and orange grove on East Holt avenue, the consideration stated being $12,000. Mr. Robbins will become a resident of Pomona and occupy his recent purchase as a home. Williams & Dyche, who purchased the site of the old Wells-Fargo express office, consisting of fifty feet frontage on Main street, are about to erect a brick block on the property. Mrs. Margaret Fleming has plans drawn for some brick buildings to be erected on her property at Garey avenue and Berths streets, to be occupied as an automobile garage and for store purposes. Harold C. Dewey has sold a half interest in the old Armour lot at the northeast corner of Second and Gibbs streets to Andrew Jamison. The old wooden building now occupying the premises will be torn down and a brick building erected.

Rev. Father Joseph Nunan has returned from an extended trip to Mexico City.

Mrs. L. W. Heath entertained the members of the Mystic Five Hundred Club at her home on East Third street yesterday afternoon.

The Shakespeare Club will meet at the home of Mrs. P. W. Kauffman on Monday afternoon.

BRADBURY FAMILY'S GIFT.

Fine Altar of White Italian Marble for the Church in Monrovia.

MONROVIA, Feb. 8.—The Bradbury family has donated to the church of the Immaculate Conception, a $4000 altar, which will be of white Italian marble. The contract has been awarded to James Hall of Boston. It was given in memory of their parents. The donors are Mrs. J. W. Winston, Mrs. I. H. Polk, Misses Louise and Simona Bradbury and Jo, John and Lewis Bradbury. The altar proper will be ten feet in length and three and one-half feet in heighth, and the marble dais on which it rests will be reached from the platform by two broad marble steps. The church was erected two years ago and is built of split granite in the pure Gothic style.

HIGH SCHOOL FIELD MEET.

The high school has decided to have an interstate field meet on Saturday, February 16. The events will be shot put, high and broad jumps, pole-vault, 100-yard dash, 220-yard and half-mile races and 75-yard hurdle race.

Society and gayety at Coronado.

OCEAN PARK.

OCEAN PARK, Feb. 8.—S. Dotson, who died Wednesday at a hospital in Los Angeles, had been a resident of this beach for four years, and of Los Angeles for about twenty years. He was about 60 years of age and had been a sufferer from heart trouble for several months. Two weeks ago he was sent to the hospital for treatment. A widow and daughter are left. Mr. Dotson was the owner and builder of the Unique apartment-house on Ashland avenue.

Robert, the little son of Mr. and Mrs. L. L. Warren and the grandson of Mr. and Mrs. Charles H. Rutledge of the Casa del Mar, of Pier avenue, died yesterday, following an illness of brief duration.

The beach band is preparing to give a ball at the auditorium on the evening of February 29, as a benefit for the open-air concert fund.

AZUSA WATER PRESSURE.

AZUSA, Feb. 8.—At the meeting of the City Trustees last evening the City Club was instructed to advertise for bids for the construction of the new water reservoir to be built on the northeast corner of the Dalton ranch. This reservoir will be at an elevation of 115 feet above the business center of the city, insuring pressure which will give ample fire protection to the town.

BAD CONCRETE SACK-STUFFED.

MORE ROTTENNESS DISCOVERED AT LONG BEACH.

Investigation of Cylinders Supporting Pier Indicates That the Necessary Repairs Will Involve a Heavy Expense—Steel Jackets With Filling of Good Cement to Be Put in.

LONG BEACH, Feb. 8.—No one can as yet answer the question as to how many of the ninety-six caissons forming the foundation of the outer wharf are absolutely rotten and worthless, but certain it is that a large number of the cylinders will have to be repaired or replaced at great expense.

Wharfinger Beattge continuing his investigations today, has found that in several of the cylinders the cement work is crude and imperfect. In one caisson near the first boat landing the cement is actually all gone from a point eight feet above the water's surface and a mass of concrete weighing several tons is hanging almost without support, save what is held by one of the three stub piling around which the caisson was built.

The Committee of Public Works has taken the matter up and in its examinations today found that on the interior of some of the cylinders, which, according to the specifications were to be of reinforced concrete, there are sacks, rocks and other material which should not be there at all. The absence of proper reinforcements is especially noticeable. While there is no immediate danger the City Trustees are arranging for immediate repairs.

Of the $16,000 bonds voted a year ago for repairs there remain $10,000 or $12,000. This sum will be expended in constructing steel jackets around the caissons and pouring in new and first-class cement. Burlap and partly-filled sacks will be dropped to the bottom to prevent leaks from below. It is estimated that these repairs will cost between $200 and $300 for each caisson.

SEASHORE RIPPLES.

William E. Royal, recently from Ash Fork, Ariz., who has been ill with pneumonia, got out of bed before daylight this morning in semi-delirium and walked to a drug store on Ocean Front for medicine. At the corner of Ocean and Pine he suffered an attack of heart failure and sank unconscious in a hallway, where he was found by the police. He was taken home and a doctor summoned, but he died a few hours later. Royal was 28 years old, and was a member of the Knights of Pythias Lodge at Great Falls, Mont. His only known relative is a sister in Manchester, Eng.

A. E. Wing, the ex-traveling salesman of a Chicago clothing house who secured an advance of $150 from Newell & Slater of this city on a worthless draft, has been arrested at Goldfield, Nev., on a description telegraphed by Marshal Young and Patrolman McCord left tonight for the prisoner, who has consented to return without a requisition.

On Tuesday next, Lincoln's birthday, members of the local G.A.R. post will visit the various schools in this district and will give short patriotic talks to the pupils.

William Elbert and George Gallagher, West Long Beach longshoremen, got mixed up in a drunken fight last night and Elbert, getting the worst of it, drew a fish knife and cut three gashes in Gallagher's head, before bystanders could restrain him. Both men were arrested on disturbance charges.

Mrs. Elsie Feetham died this morning of appendicitis and the shock following an operation. She was 20 years old and the daughter of Mr. and Mrs. Frank McCoy, pioneers of Shasta county. She was a Native Daughter of the Golden West and was married to Clarence Feetham in Los Angeles in 1906. The widower and one son are left.

The Board of Public Works this morning granted a lease for ten years of a strip of ground or sea, east of the pier and south of the present Fisher building, upon which Fisher and Colburn will erect an operahouse with an entrance from the pier. The building will be along modern lines and for the ground rental and pier frontage the lessees will pay the city $1000 a year rental.

The school trustees have called a mass meeting at Pine-avenue schoolhouse next Monday evening to discuss plans for enlarging school accommodations and securing more teachers. An addition to the High School is absolutely necessary.

Mrs. Nancy K. Mayhew, aged 71, a native of Edgartown, Mass., died this morning at the home of her son Thomas Mayhew, on American avenue. Death resulted directly fro m recent strokes of apoplexy and paralysis.

W. T. Brown, a representative of the Parsons Company at Naples, last night walked off the dredger of the Atlantic, Gulf and Pacific Company and into the canal. Friends lowered a fishnet and with some difficulty rescued Brown, who is not a good swimmer. The darkness made the rescue an unusually hard one.

Coronado for outdoor sports.

HOTEL FOR DUARTE.

DUARTE, Feb. 8.—A hotel is in prospect here. C. C. Spinks has been a large investor in lands in this section of the county. Among his recent purchases is one known as the Geary ranch. On this he will erect a hotel of fifty rooms, plans for which are being prepared. The structure will be located on the mountain side and will be delightful for both situation and climate. The Pacific Electric extension will pass right by the ranch and the road leading to the hotel, up a gentle slope, will be put in fine condition. Work will begin at once on the water system for the hotel. The B. R. Davisson Contracting Company of Monrovia have been given the contract for the construction of a 3,000,000-gallon reservoir to be used for irrigation purposes on the lawns and grounds surrounding the hotel. The 2000-gallon steel tanks will be erected for domestic purposes. From the springs in the mountains a continuous flow of three inches is obtained and this will be used entirely for domestic purposes. Mr. Spinks will also terrace the land.

Hotel del Coronado for service.

DUAL FIGHT FOR MAYOR.

SANTA MONICA, Feb. 8.—Although the municipal campaign may be said to be well on, as yet only two positive announcements have been made in connection with the fight for the mayoralty. T. H. Dudley, incumbent, is an avowed candidate for the honor of being Santa Monica's first chief executive under the new freeholder charter. Dr. P. S. Lindsey is seeking the same honor. J. C. Steele threatens to make a three-cornered fight of the affair, but has not as yet stepped into the open.

The Throop and Santa Monica high school baseball nines are matched for a game here tomorrow afternoon. It will be played on the Southern Pacific Park diamond.

The Santa Monica Board of Trade has decided to enter a float in the shriner parade at Los Angeles during Fiesta week.

PLUM GOES TO THE SALT LAKE.

GLENDALE CITY TRUSTEES GRANT PRIVILEGES.

Prospect That the Company Will Connect Its Pasadena and Glendale Terminals by Way of Verdugo Canyon and La Canyana—Merchants Organize.

GLENDALE, Feb. 8.—The troubles of the Salt Lake Railroad Company in the matter of rights of way here appear to have been settled. Local prophets are predicting that the company will connect its Glendale and Pasadena terminal by way of Verdugo Cañon and the La Cañada country and operate the loop with a gas motor passenger service.

Fourteen lots on Glendale avenue above Second street, excepting one, have been purchased by the company. The corporation has agreed to remove its switches which lie along Glendale avenue and put them in front of its own property. A fine depot is said to be in prospect.

The Pacific Electric and the Salt Lake were both looking for a right of way out through Verdugo Cañon and the question of franchises was taken up by the City Trustees.

In view of the fact that the Salt Lake people had spent several thousand dollars for their recent purchase, it was decided to grant that road the privilege of extending its line from First to Second street, across Second to connect with the line in the lumber yard; also a privilege for a spur to run in the rear of the Salt Lake property, thus taking in the lumber yard, stone yard, incubator factory, planing mill, machine shop, coal and wood yards and the Glendale Feed and Fuel Company.

The proposition of the Pacific Electric was to extend its short line up to and beyond the Salt Lake line, the new road to be used exclusively for freight.

What the Salt Lake has in view is said to be to make a loop of its Pasadena and Glendale branches by way of Verdugo Cañon, La Cañada and Lincoln avenue, Pasadena.

MERCHANTS ORGANIZE.

Merchants of Glendale organized last evening for their mutual benefit and protection the Glendale Merchants' Association, to meet once a month in the Watson block. Bylaws were framed and accepted, and the following officers were elected: Jerrad Wenger, president; F. Gilman Taylor, secretary, and E. V. Parker, treasurer.

FOR COUNTRY CLUB.

Ground was broken this morning on the corner of Brand boulevard and Third street for the new Country Clubhouse, to cost $15,000. It is to contain a large patio and about fifteen handsome rooms. It is to be elaborate and the mission style of architecture. Tomorrow grading will be commenced.

Best climate at Coronado.

TWO THROWN IN RUNAWAY.

Man and Woman Hurt by Accident With Carriage at Sierra Madre.

SIERRA MADRE, Feb. 8.—Merle Manning, proprietor of Hotel El Reposo, and Mrs. Mary Sanderson were thrown from a carriage and narrowly escaped death here this morning. While going down a steep hill the harness broke, which let the carriage strike against the horse, causing him to bolt. The animal was making terrific speed down the hill toward town when in rounding a sharp turn both people were thrown from the vehicle. Mr. Manning was rendered unconscious for a few minutes, but soon recovered and went to the assistance of Mrs. Sanderson, who was seriously injured. A cot was secured and she was conveyed back to the hotel. Dr. Mackensau found there were no bones fractured, but both persons received severe bruises. After demolishing the carriage the horse was captured at the corner of Sierra Madre and Live Oak avenues.

MOUNTAIN FOOTNOTES.

Mr. and Mrs. W. Jarvis Barlow and family of Los Angeles have been at their Sierra Madre home for a few days. F. Brown and Mrs. Milbank were visiting with them.

A. A. Hoffman has let the contract for a house on Central avenue, to cost about $5000.

A. R. Hathaway left for the East several weeks ago and it was understood he was just on a visit. However, when he returned Thursday, he was not alone. On January 26 he was married at Arcadia, Kan., to Miss Nettie Adams.

George Thompson and wife of St. Paul, while touring through the city in their automobile, had the misfortune of their machine skidding into the ditch on Central avenue and striking a telegraph pole. The occupants were unharmed, but the automobile had to be repaired before being put into commission.

A new organ is being installed for the Church of the Ascension.

U. S. Admiral at Coronado.

CORNER-STONE EXERCISES.

Beginning of New Carnegie Library Will Be Celebrated Soon—French Instructor Resigns.

CLAREMONT, Feb. 8.—The corner stone of the new Carnegie library for Pomona College will be laid February 22 with appropriate exercises. The speaker of the day will be Rev. Arthur Phelps of Los Angeles.

Work on the library, which is being built of reinforced concrete, has been somewhat delayed through the non-arrival of steel rods from the east. Word was received today that the material was in Los Angeles and work will be started with a full force on Monday.

J. Edward Hohn, who has been instructor in French and Spanish in Pomona College for the yast two years, left tonight for St. Louis, where he will occupy a similar position in the St. Louis High School.

Frederick Beckman, Ph.D., a graduate of Chicago University, will be Mr. Hohn's successor. Dr. Beckman comes to the college from Lewis Institute.

Hotel del Coronado for gayety.

THREE BROTHERS STRICKEN.

Whittier Man Last of Trio to Give Way to Despondency—State Pathological Station.

WHITTIER, Feb. 8.—The beginning of the last sad chapter of a tragic life history was opened yesterday when Mrs. R. H. Dever of this place was hurried to Highland, in response to a message stating that her husband was dying there. Dever was taken to the asylum, a pitiful wreck, only a week ago, after he had attempted to end his own life, and had threatened to kill his devoted and heartbroken wife. His illness dates from a visit made to the East last fall, a journey filled with horror for him, for it was to visit, for the last time, a brother, who has been for many years confined in a Pennsylvania asylum for the insane. On the return trip, with the grief and horror still fresh in his mind, he visited a second brother, whose mind had at one time given way, but who was then at his own home. Here the two brothers grieved together, for the one in the East, both it is said, growing morbid over his hopeless condition.

Scarcely had Dever returned to Whittier when a message reached him that the second brother was again a mental wreck, his grief having caused his mind to give way utterly, and his own incarceration once more in a sanatorium. This double burden, with its horrors, brought to his mind a premonition that his own fate would be the same as that of his two brothers. After a bit, he ceased to struggle against what he considered a certain doom, but sought only to end his life before his mind became entirely clouded, and the dreadful darkness encompassed him. In this he was unsuccessful.

After a pitifully sad struggle, the wife yielded to the advice of the physicians and scarcely a week ago the husband was taken to Highland for treatment.

PATHOLOGICAL INSTITUTE.

Plans for the Pathological Institute, which is to be erected here, have arrived from the regents of the State University, and have been examined with interest by local contractors. Bids for the structure are to be filed in Berkeley by next Monday, and the contract will be awarded on Tuesday. The plans call for the erection of a two-story frame strucutre, to cost, with equipment, about $3000. The main building will be 40x26 feet, and at the rear will be a greenhouse, fifty feet long. The first floor is to be given over to the library, general and private offices, culture room, sterilising and chemical laboratory and a private laboratory. These will be supplemented by two additional laboratories on the second floor, which is also to contain a well-equipped photographic room. The building will be placed on the ground donated for the purpose, at Greenleaf avenue and Baldwin street, and will be built immediately.

The naval fleet at Coronado.

BOY SEVERELY HURT.

SAN DIMAS, Feb. 8.—While playing about the yard of the California Citrus Union packing-house this morning, the 4-year-old son of W. S. Smith was kicked on the head by a horse owned by Havelock Johnstone. The boy and his parents had been frequently warned of the danger of playing around the packing-house, but no notice was taken, and this morning's accident may lead to serious results, the child's skull being badly fractured. The boy was removed to the Pomona Hospital, where an operation was performed.

E. A. Hibbard of La Verne has sold his ten-acre ranch to J. A. Potter of Long Beach; stated consideration, $10,500.

TALK FIRE PROTECTION.

SAWTELLE, Feb. 8.—The City Trustees of this infant city were impressed last night with the necessity for at once providing apparatus and organizing a department for the fighting of fires. A gasoline stove exploded in the second-hand store of C. Alger on Fourth street, and it looked for a while as if there must be serious loss. But by the prompt organization and through the effective work of a bucket brigade, the flames were confined to the room in which the fire started. The proximity of the fire to the new Bundy Block caused some alarm as to the safety of that structure.

A Buenos Ayres dispatch, published at New York yesterday, reports that a revolutionary outbreak occurred in San Juan, Argentine Republic, yesterday, in which the revolutionists were victorious after five hours' fighting. Twenty men are reported killed, and many wounded, while numerpus houses were burned and others sacked. The Governor and other provincial officers are said to be prisoners.

CONSTIPATION AND ITS CAUSES.

A Well-Known Remedy.

Constipation is one of man's worst enemies, and half the bodily ills we suffer from are a result thereof. Nature meant that the bowels should be kept free and open—that we should have a free movement at least once a day. Of course we ourselves are to a large extent responsible for our troubles by failure to observe Nature's laws. Our habits are irregular, we eat improper food with undue haste, and when we find our bowels do not move, have resort to powerful drugs and medicines, which are so drastic in their action that, although they may purge at first, they damage the tender lining of the stomach and bowels so as to leave a worse condition than before. And why take such injurious and expensive drugs when we can obtain from any druggist much cheaper, a bottle of Nature's own remedy—the famous Mineral Lasative Water—HUNYADI JANOS—bottled at the springs in Hungary; in use nearly half a century. One dose, ½ a tumberful, drunk on arising in the morning, (slightly warmed for best results) will bring within an hour a refreshing movement—gentle, natural, and thorough—without any griping or purging or other bad effects. A whole bottle costs but a trifle. Keep one always on hand. At all Druggists.

The ladies of the Babtist Church are giving a Valentine bazar and supper. Table for the sale of fancy and useful articles, candy and valentines are features of the occasion.

The basketball teams, both boys and girls, of Redlands will go to Colton tomorrow to meet the two teams of that place.

Ensign O. Schwedler of the Salvation Army is having excellent success in his canvass for funds for building a home for the army in this city, with reading and clubrooms, a coffee club, baths and other apartments. The sum of $8500 is being asked for.

At the annual meeting of the stockholders of the Domestic Water Company, held yesterday, the officers were reelected. During the past year the system has been greatly improved.

The marriage of Miss Margaret Davis and Dr. Charles E. Ide will be solemnized tomorrow evening at the home of the bride's mother, Mrs. John W. Davis, "The Alders," on Brookside avenue.

Scores and hundreds of tourists from the North and East are coming here daily.

Naval ball soon at Coronado.

ASSAULTS WIFE.

Rincon Man Received Ninety-Day Sentence—Death of Corona Pioneer.

CORONA, Feb. 8.—Henry Magee of Rincon was today sentenced to ninety days' imprisonment for assaulting his wife.

Magee was arrested yesterday and brought here pending his hearing, which was held in Rincon today before Justice Cummins.

The prisoner pleaded guilty and was taken to Riverside this noon. About a year ago Magee was convicted on the same charge and served a ninety-day sentence.

PIONEER DIES.

A. M. Phillips, one of the pioneers of Corona, died on Monday at his home in Mesa, Ariz., from pneumonia.

During his residence in Corona he served as City Recorder and Justice of the Peace. He erected the brick block here which bears his name.

SALE OF LEMON GROVES.

The Corona Lemon Company has bought of J. F. Triolo a ten-acre lemon grove at Temescal street and Fullerton avenue. The company also has bought of Mrs. Jennie Merchant a ten-acre lemon grove on Kellogg avenue.

CORONA PARAGRAPHS.

The Board of Trade has taken up the matter of bonding the city for the improvement of Rimpau, Taylor, Buena Vista and Fullerton avenues, to meet all expenses not covered by the Vrooman Act.

The City Trustees have been asked to look into the matter of a sewer system.

Former City Engineer A. B. White is to be requested to return the data and all appliances belonging to the city which have been taken away.

The Corona City Water Company's directors have been reelected as follows: A. C. Wood, W. H. Jameson, F. F. Chase, C. O. Tribou and I. N. Sears.

O. H. Bell has sold to Elsie Rollins a 50x150-foot lot on Ninth street for $275. The deal was made by H. K. Stahl.

Watch for naval ball at Coronado.

LEAPS AS AUTO FLOPS.

Riverside Man Has Narrow Escape When Car Crashes Through Fence and Upsets.

RIVERSIDE, Feb. 8.—By jumping from his automobile in the nick of time, C. W. Waite probably escaped instant death last night while on his return from Los Angeles to Riverside. His machine was covering the miles at a good clip, and, as he turned near the Stalder winery into what he thought was the Riverside road, his car crashed through a fence and went into an oil pit, turning bottom side up.

He was riding without lights, as his carbide had given out. The instant before the machine made the somersault Waite leaped and escaped uninjured. The automobile was brought in this morning and was found to have been damaged but little.

PLAN VINEYARD.

Several Riverside men are making preparations for planting a large acreage of grapes in the Imperial Valley, as they believe there are great possibilities in that desert section in the way of producing early table grapes for the eastern market. As grapes ripen there the latter part of May, they come into the market without competition from any other grape-growing locality and at a time when prices are high.

Frank A. Tetley and J. W. B. Merriman are getting ready to plant sixty acres of grapes, the greater part of which will be Malagas. About five acres will be planted to the Black Cornichon variety. They have bought about a section of land and will increase their vineyard later if the project is as successful as anticipated. This year they will devote the remainder of their land to alfalfa and grain.

The largest vineyard planted in the Imperial Valley will be that of Stone Bros. of this city and their cousin, J. S. Pashgian of Pasadena, who are getting ready to put in about three hundred and fifty acres. Their land is five miles north of Imperial and a mile and a half from the Keystone siding. The majority of the grapes will be Malagas.

In addition, an experimental vineyard will be planted, in which a large variety of grapes, received from the government experimental station, will be tested to prove their adaptability to the desert soil and climate. M. P. Stone is at Imperial directing the work. These men will also plant about thirty acres of asparagus, which has been found to ripen early under the warm desert sun and watered by the warm river water.

Flagship Charleston at Coronado.

BUYING HIS MANIA.

Riverside County Man Is Declared Incompetent by Proceedings in Santa Ana.

SANTA ANA, Feb. 8.—A decree pronouncing B. F. K. Martr of Riverside an incompetent was produced in court today and caused the dismissal of the charge of obtaining goods under false pretenses brought against Martr by J. T. Raitt of this city. Martr at one time was general manager of an insurance company, but for several years he has had a mania for buying everything that came to his mind. While walking toward town a few days ago he bargained for two hound pugs at $10 apiece. He was arrested by Raitt for passing him a $50 check in part payment for a horse he bid for on an auction sale here last summer. The check was on a Fullerton bank, but Martr had no money there.

When Martr became incompetent his relatives had him transfer all his property to his wife, and avoided getting a decree appointing a guardian over him as a matter of family pride. But Martr's deals here got him into the criminal court, and apparently nothing but a decree of incompetency could save him. The first of this week the Superior Court of Riverside county appointed Martr's daughter as his guardian, and the decree was presented today to Justice Smithwick.

PROFITS FOR GROWERS.

Between $25,000 and $32,000 have been distributed to the orange growers so far this season by the Santiago Orange Growers' Association. Payments just made by the Santiago Orange Growers' Association show a net profit of $1.35 per box on the tree for orchard runs for the holiday shipments, with a possible 10 cents additional at the end of the season. The net profit on the tree per box for orchard runs for the December shipments as distributed is $1.11, also with the possible addition of 10 cents per box at the end of the season.

The showing of the association in the holiday and December shipments this year is considered excellent. The prices received are better than for the shipments last year. The net profit for orchard runs for the holiday and December shipments last year were between 75 and 85 cents.

The association reports that the indications are that prices will keep up. So far the effects of the car shortage over the State have been but little felt by the association, as cars have been coming about right for the shipments.

The procedure of the association is to pool, the growers making shipments in a period fixed by the directors. Two of the periods have been fully reported on the distribution made to the growers.

Hotel del Coronado for excellence.

ANAHEIM.

ANAHEIM, Feb. 8.—In the past year there were erected in Anaheim a total of fifty-four buildings, forty-eight residences and six business buildings. Since May 1 of last year the city has issued fifty-nine building permits, representing a total cost of $100,000. Over 75,000 feet of cement sidewalks and 14,000 feet of curbs have also been put down.

William Voss has arrived from the Owens River Valley and purchased ten acres northeast of town. He will set the tract to oranges.

J. B. Neff reports that the water in his well has risen forty-four inches since last August, being at present about up to the mark of three years ago. In January the rise amounted to eighteen inches.

The Chamber of Commerce directors have elected the following officers: J. F. Ahlborn, president; Capt. Williams, vice-president, and Mr. Walker, secretary and treasurer.

Joseph Fiscus is planting forty-three acres to walnuts on his ranch south of town.

Pacific squadron now at Coronado.

SALTON SEA WON'T DRY UP.

SO DECLARES HALL HANLON, YUMA DESERT PIONEER.

Man Who Braved the Discomforts of the Hot Sands for Fifty-two Years Says the "Sea" Is Fed from Ocean—Land of Date Palms and Bottomless Rivers Has Attractions.

"The Salton Sea never will dry up because it is undoubtedly fed from the Pacific Ocean through an underground crevice. Some people think it will evaporate in seven years, but I don't think it will in seventy."

Such is the direct declaration of Hall Hanlon, 82-year-old stock raiser, date palm cultivator and pioneer of Arizona, who went to live on the burning sands of the Yuma desert before half the people in Los Angeles were born. He is old enough to know what he is talking about, for he will soon be 83 years old, and has lived within a few miles of the treacherous Colorado River for almost fifty-two years. He knows the river and the hot country as if he had made them, and has seen the river hundreds of times when he could wade across it in a dozen places near him, and has felt the force of it when it tore through the desert and washed in through the transoms over the doors of his house, four miles from its bed. He has been here several days as a witness in the case of the salt company that is suing the California Development Company as the cause of the destruction of the salt business in the once dry bottom of what is now the Salton Sea.

Hanlon is any interesting man, as any one must be who has battled for half a century with the heat and the solitude of America's greatest desert. He went to the desert September 1, 1855, and three years later bought a ranch of about 320 acres six miles west of Yuma and four miles from where the big break in the truant river is about to be closed. He raised cattle in the early days, fought Indians, set out a date palm plantation, cultivated alfalfa and figs, and has now settled down to live in Yuma, probably because he can't leave the desert he has known so long. His eyesight is failing him, but he is far from being a "dead one," for he left for Los Angeles on about five minutes' notice and brought nothing with him but some money and a cane.

One of his hobbies is the Salton Sea, but it is only a hobby because he has some original ideas on it. He says that fifty years of observation has shown him that the sea must be fed from an underground passage to the ocean. Years it was a great sea and later on dried up because the silt from the Colorado backed up into the branch rivers and eventually dammed the underground intake from the ocean. It had been dry for years until the earthquake of last spring undoubtedly opened the old crevice again, and he now believes that when the river is shut out of the sink, the silt will not be washed in. He declares that the whole country around Yuma is without bottom and that when the Southern Pacific started its now famous dam at the intake, it had to build a bedrock for the dam to rest on. Some engineer found "bedrock" at thirty-eight feet, but Mr. Hanlon declares this was only a conglomerate, for he has found large holes on the desert in which the noise of large rocks thrown in them would die away into distance without reaching bottom.

Speaking of the agricultural features of the desert he says that thirty years ago he planted date palms on his ranch and one of these is now sixty feet high. He had one or two trees that produced seventeen bunches of dates in a season, each bunch weighing from twenty-six to forty-eight pounds, and they were the best kind of dates. As long as he cured them in the sun, he was very successful, but when he tried other methods the dates turned into a mass of poison. In the fifth and sixth years the palms produce dates, but these drop off. In the seventh year the fruit matures and the crop is abundant.

Alfalfa, fruit and figs produce abundant crops in the Yuma section, but orange do not thrive unless they are some miles back into the interior from the river.

Is it hot in Yuma in the summer? Mr. Hanlon thinks that town is the warmest in the world, but he is going back this morning to stay there until June, when he expects to return to this city for the summer. His eyes are not strong enough to stand much more glare.

"WE ARE SEVEN."

First Class to Complete Four-Year Polytechnic High School Course Gets Ionian Pins.

The graduating class of the Polytechnic High School might truthfully echo the words of the old poem, "We are seven," for it is composed of seven young people, the first pupils to complete the four-year course of the regular polytechnic training, and a bright young set they are.

The president of the class is Jesse Andrews, who has been the head and front of the Self-government Committee, which has accomplished so much at that institution this year, and made a name for the school all over the country. His position was one requiring executive ability and tact. The vice-

Photo by Mojonnier.

Two officers of the graduating class of the Polytechnic High School, the first class to go through the entire four years of polytechnic training in Los Angeles. Jesse Andrews, president, and Maude Shafer, vice-president.

president of the class is Maude Shafer, and the secretary Edna Newkirk, the other members being Harry Weaver, Norman Lloyd, Alexander Ogilvie and Lawrence Bell.

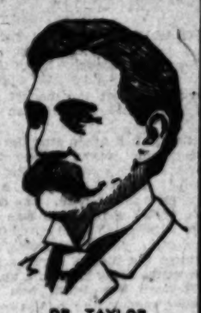
The class must wait until June for the graduating exercises and the bestowal of sheepskins. Thursday afternoon at the meeting of the Ionian Society, the formal ceremony of presenting the Ionian pins to the outgoing class took place. A special programme had been arranged. First came a stirring selection by the Polytechnic High School orchestra, and then the critic's report by Gladys Lewis. Miss Larkey played an artistic violin selection, after which Harry Weaver delivered the oration of the afternoon.

The presentation of the pins was made in a clever little speech by Victor Hecht of the succeeding class. He pinned the shining little tokens on the lapels of the boys' coats, but shied when it came to the same ceremony for the girls, and left the honor for a bolder lad.

Jesse Andrews replied to the farewell speech in well-chosen words, and then Principal Francis, who has taken these boys and girls through the four years of the polytechnic training, the first fruits of the institution, had a heart-to-heart talk with them, telling them not to regard their education as completed, and not to be afraid to begin low down or to toil with their hands to gain their start in the world.

Weak Men

Let Me Guide You on Your Way to Regain Your Health and Renew Your Strength



Do you feel that you are not the man you once were? Feel tired in the morning? Easily exhausted? Back weak? Memory failing? Losing ambition? If you have any or all of the above symptoms, let me explain to you my methods of rebuilding the vigor of men and refer you to the thousands I have cured. I guarantee to cure all the special diseases of men, such as Varicocele, Hydrocele, Stricture, Contracted Disorders, Contagious Blood Poison, Nervous Debility, etc.

GET CURED NOW

It is not a question of whether you can be cured, but whether you will be cured. Don't wait until it is too late. The cure is absolutely certain. I cause no pain nor detention from business. I especially solicit cases which many so-called treatments have failed, or where money has been wasted on museum doctors, electric belts and other appliances.

EXAMINATION FREE

I offer not only FREE CONSULTATION and Advice, but will make a careful examination and diagnosis without charge. No ailing man should neglect this opportunity to get expert opinion about his trouble.

Could I afford to make such an offer if I was not absolutely certain of curing every case I take?

BABY WASTED TO MERE SKELETON

In Torments a Year and a Half with Terrible Sores on Face and Body—Hands Tied to Stop Scratching and Tearing at Flesh—But

CURE BY CUTICURA COMPLETE AND SPEEDY

"My little son, when about a year and a half old began to have sores come out on his face. I had a physician treat him, but the sores grew worse. Then they began to come on his arms, then on other parts of his body, and then one came on his chest, worse than the others. Then I called another physician. Still he grew worse. At the end of about a year and a half of suffering he grew so bad I had to tie his hands in clothe at night to keep him from scratching the sores and tearing the flesh. He got to be a mere skeleton, and was hardly able to walk. My aunt advised me to try Cuticura Soap and Ointment. So great was her faith in it that she gave me a small piece of Cuticura Soap to try and a little Cuticura Ointment. I took it home without any faith, but to please her I tried it, and it seemed to dry up the sores a little. I sent to the drug store and got a cake of Cuticura Soap and a box of Cuticura Ointment and followed the directions, and at the end of about two months the sores were all well. He has never had any sores of any kind since. He is now strong and healthy, and I can sincerely say that only for your most wonderful remedies my precious child would have died from those terrible sores. I used only one cake of Soap and about three boxes of Ointment. Mrs. Egbert Sheldon, R. F. D., No. 1, Woodville, Conn., April 22, 1905."

ITCHING PIMPLES

Cured by Cuticura in Nebraska.

"I had suffered with itching pimples for years. At last a friend told me to get Cuticura Soap and Ointment. I did so and in three weeks my face was entirely cured. I am so pleased with Cuticura Remedies that I will recommend them to other sufferers. Mrs. Florence Delavergne, R. F. D. No. 2, Auburn, Neb., Aug. 28, 1906."

Complete External and Internal Treatment for Every Humor of Infants, Children, and Adults consists of Cuticura Soap (25c.), to Cleanse the Skin, Cuticura Ointment (50c.), to Heal the Sores, and Cuticura Resolvent (50c.), or in the form of Chocolate Coated Pills (25c. per vial of 60), to Purify the Blood. Sold throughout the world. Potter Drug & Chem. Corp., Sole Props., Boston, Mass. Mailed Free, How to Cure Every Humor.

*The maximum is for day before yesterday; the minimum for yesterday. The mean is the average temperature for the two days.

Yesterday's Forecast and Report.

U. S. WEATHER BUREAU, Los Angeles, Feb. 8.—[Reported by A. E. Wollaber, Local Forecaster.] At 5 o'clock a.m. the barometer registered 30.10; at 5 p.m., 30.04. Thermometer for the corresponding hours showed 58 deg. and 82 deg. Relative humidity, 5 a.m., 45 per cent.; 5 p.m., 22 per cent. Wind, 5 a.m., northeast, velocity 3 miles; 5 p.m., northeast, velocity 2 miles. Maximum temperature, 84 deg.; minimum, 58 deg.

Weather Conditions.—The storm moving eastward over British Columbia yesterday morning is now over the British possessions north of Montana. It caused rains in Northwestern Oregon and Washington, and much higher temperatures in Idaho, Montana and the Dakotas. Elsewhere in the States west of the Mississippi River, fair, pleasant weather continues. Light precipitation has occurred generally along the Atlantic coast during the last twenty-four hours, but much colder weather than usual continues in the East. On the Pacific Coast, the temperature is above normal. The indications are favorable for a continuation of fair weather in Los Angeles and vicinity during the next thirty-six hours, with no important change in temperature.

Forecasts.—Local forecast for Los Angeles and vicinity: Fair tonight and Saturday; light, variable winds, mostly northerly.

SAN FRANCISCO, Feb. 8.—The pressure has risen slowly over the Pacific Slope. The weather continues fair in California and Southern Oregon, but rain has fallen from Portland north. The pressure distribution favors northeast winds and generally fair weather, with moderate temperatures, Saturday.

Forecast:

San Francisco: Fair Saturday, with fog in the morning; light northeast winds.

Sacramento and San Joaquin valleys: Fair Saturday; light north wind.

Los Angeles and vicinity: Fair Saturday; and no warm; light northeast winds.

Arizona: Fair Saturday and Sunday.

YUMA (Ariz.) Feb. 8.—[Exclusive Dispatch from the U. S. Geological Survey.] Gauge height Colorado River, 20.6 feet.

LOCAL PRODUCE MARKET.

The downward trend in the egg market continued unchecked yesterday. Ranch eggs were lowered 2 cents, selling at 30 cents a dozen. Northern candled dropped to 1b. In the jobbing market a weak feeling prevailed, and both buyers and sellers were cautious in their operations. In some quarters it was stated that a sharp reaction will occur next week, occasioned by the ton-rapidly falling egg market of the last few days. Retailers were buying yesterday only from hand to mouth, as they usually do on a falling market. During the last few days arrivals of eggs have overtaken and passed the demand, and a pronounced accumulation of stock is reported by nearly all of the dealers. This is the first accumulation for months. All houses are now carrying abundant supplies, and a number have more than they know what to do with. On change the last few days there have been more sellers than buyers, and as eggs are coming in liberally at present, in the cool weather, dealers prefer to dispose of the accumulated stock rather than increase their holdings by purchases. Within the past nine days the difficulty of retailing eggs has been from the difficulty of retailing the dozen. Now that ranch eggs sell at 30 a dozen wholesale, retailers will quote their offerings at 35 cents, thus increasing the consumption and clearing the accumulated stock from the floors.

The butter market continued weak, and lower prices are expected soon. The highest prices for Anchor cheese went into effect yesterday.

Sales on change were—Three carloads of Colorado Rurals' potatoes; 1 cases of fancy valley creamery butter; 75 cases of local ranch eggs, case count; 19 sacks of yellow sweet potatoes.

The vegetable market was well supplied with all kinds of green truck and showed few changes in the prices.

Hallibut and lobsters were equal to all requirements. Game is in slow demand.

The receipts of produce as reported for yesterday's exchange were as follows: Eggs, 312 cases; butter, 30,102 lbs.; cheese, 4767 lbs.; poultry, 1250 packs; onions, 87 sacks; beans, 30 sacks; sweet potatoes, none.

Prices Current.

EGGS—Candled, fresh California ranch, 30; northern, candled, 19.

BUTTER—Fancy local butter, 2-lb. sq., 75; valley creamery, 75; fancy Coast creamery, 70; choice Coast creamery, 65@70; cooking butter, 22@23.

POPCORN—Rice, shelled, fancy, eastern, per lb., 4.

NEW YORK MARKETS.

SHARES AND MONEY.

[BY THE ASSOCIATED PRESS—P.M.]

NEW YORK, Feb. 8.—The stock market had an active .our after the opening today during which prices were held above the level of yesterday's recovery. Apparently distribution was going on at that level and the market lapsed into extreme dullness and hesitation. Fluctuations thereafter were slight. The effect was to revive doubts over the speculative outlook. Most of the material of the day's ag ation was in the form of rumors and reports of these emanated from Washington. There were large buying orders at the same time executed by houses with important Washington connections. The effect was to produce an impression that important developments were to oe forthcoming there bearing on the financial and stock market conditions. There were plenty of rumors to supply details, but authoritative information was lacking. Confidence is felt in the financial district that moderate measures of currency reform have been undertaken at Washington under auspices that give good promise of success. It is believed that provision for the routine deposit of surplus revenue of the government, including customs receipts in national banks, will be made and the limit of monthly retirement of bank note circulation raised to $15,000,000 to $16,000,000, instead of $3,000,000 as at present. The removal of this limitation is expected to lead to freer note issues by the banks where they are restrained now from the effect of retiring the notes when they come back from their circulation. The impression got abroad in the financial district that assurance has been received in some way of a likelihood that the Interstate Commerce Commission would not be opposed to an advance in freight rates if it should be required. There was a rumor, also, of an intended alteration in the government's process against the Standard Oil Company, which is regarded as a sort of test case of the attitude to be taken toward the great corporations in general. The uncertainty in the stock market movement was probably the outgrowth of the rather unsubstantial material on which it is thus seen it was based. The market felt the effect, also, of the reduction of the short interest by reason of the covering of shorts yesterday. A hardening of the call money rate late in the day also weighed somewhat on the market. Reports were current of further note issues by railroads, either placed or in contemplation. The drooping tendency of the market more than wiped out the early gains and, held to the closing, which was easy. Bonds were irregular. Total sales, par value, $1,844,000. United States bonds were unchanged on call.

Carload Men's "1907" Hats

$1.00

Comprising Entire Stock of Eichhold & Miller, the Big New York Jobbers. Purchased at 50c on the Dollar.

Inaugurating the most gigantic sale of men's stylish and up-to-date hats in the history of Los Angeles. These hats were purchased of "Eichhold & Miller" of New York, who were not only one of the largest but one of the best known jobbers in the United States; this firm has discontinued their business and our New York buyers, who were on the spot with plenty of ready cash, succeeded in purchasing entire stock of the famous "Gold Bond," as well as other high grade makes, for which this firm was exclusive manufacturers' agents; the purchase price was 50c on the dollar, or just ONE HALF for which these hats were made to sell; there are thousands of splendid hats in this big purchase, including all the popular shapes and colors, and what is more important to you is, that we are going to sell them just as we bought them at HALF THEIR REGULAR WORTH.

For "Gold Bond" Hats worth $2.00

This assortment of men's hats is positively the largest ever featured in the city of Los Angeles at one price, and you will get a better idea of the magnitude of this offering if you stop just a moment and think that every hat offered is at JUST HALF PRICE. Among the thousands of hats included in this sale are styles that will fill every requirement of the most particular man—hats for any and all occasions; you can choose from negligee, telescopes, four-dents, Fedoras, and staple "Stetson blocks;" the colors are pearl, steel, mode, nutria, brown and black, including derbies in black and brown; every one is "1907" style; have pure silk trimming and real leather sweat bands; all sizes, and sale begins Saturday morning with choice of these $2.00 hats at...

$1.00
